BIO

Katia Ghetti, AMINE S1 brand designer, begins her training starting from the factory, where she draws bags patterns for luxury clients. The context permits her to learn the Made in Italy “know how”, such as assembly procedures and ancient craftsmanship. This experience gives her the possibility to explore new solutions, re-think and overcome traditional techniques to obtain non-conventional results. After the first experience, she finally starts dealing with research and style. She works for fashion companies dedicated to research and originality, where she gains more experience and improve her stylistic sensitivity. In **2015** Katia creates her own brand, **AMINE S1**. Her first collections reveal her personal style, which is recognisable by clear lines and clear cut geometric shapes as well as a search for balance that never appears static. Color blocks, unusual details, new volumes and shapes. Searching for geometries is undeniable for both hard and soft bags. The choice of materials provides refined, bold and amazing effects at once.

[NEVER mind
LOVE AGAIN]

*

AMINE S I

What does it mean AMINE S1 * – that is the question people ask me most. It is a story too long to tell, but never mind. NEVER MIND LOVE AGAIN is the answer. It doesn't matter what happend, love again. AMINE S1 express the strenght, the determination, the desire to believe in themselves and in his dreams. It is an hymn to never give up, overcome the loss, find out the beauty where doesn't seem to be and to rise up and love life.
