

SASSI PIERO SRL

SANITARY FITTINGS

MADE IN ITALY

THE POWER OF WATER

The History

The Company Sassi Piero Srl, founded in 1955, is specialized in the production of bathroom sanitary fittings. In 1998 the firm moved to a new plant, which covers a surface of more than 4000 sq.m. and 2 warehouses of more than 2000 sq.m.

It is the symbol of solidity, tradition and authority.

Through the years, we increased our range of products and now, with more than 2 thousand articles, we can satisfy both national and international demand.

Our Products

The reliability of our items comes from the high quality of raw materials used and from the experience gained in the field of brass, copper and stainless steel.

We take care of our items in every detail in all their production processes, obtaining a high level product.

Water is the central element, with the passion for the Made in Italy.

Our Products

From shower heads, shower arms and columns that complete the bathroom....

...To plates, rosaces, tubes, stop bends, covers, spouts for sink and accessories.

We can create special products with different dimensions in any finishing you need.

The Certificates

PATENT MI2003U

We have a patent for our brass shower heads.

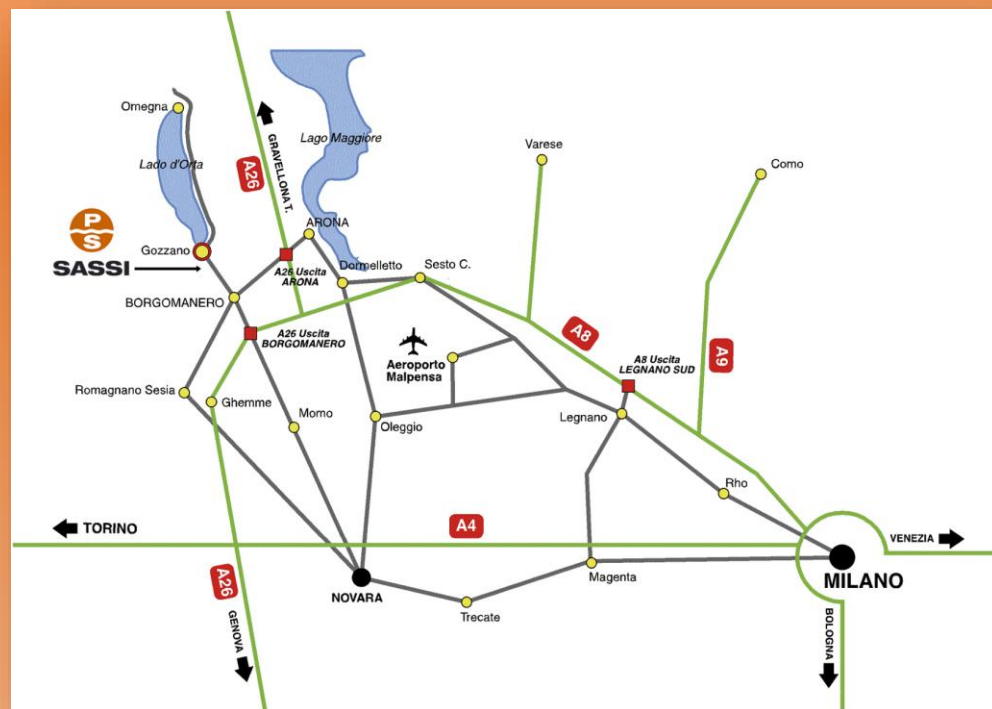

The filter is demountable, in order to facilitate the removal of the limescale.

You can easily disassemble it, clean the inside and reassemble it.
