**ALGÀL<sup>®</sup>**  
**DROPS****GLUTEN FREE**  
**LACTOSE FREE**

## Algàl drops

### INSTRUCTIONS

Algàl DHA drops is a dietary supplement of docosahexaenoic acid (DHA) useful to fill the nutritional deficiencies or the increased needs of this very important nutrient.

### DOSAGE

**From 0 to 1 year:** 10 drops per day corresponding to 100 mg of DHA.

**In breastfeeding mothers:** 20 drops per day corresponding to 200 mg of DHA throughout the whole breastfeeding period.

### INGREDIENTS

DHA of exclusively algal origin (Schizochytrium sp.).

### PACKAGING

12 ml bottle.

### CHARACTERISTICS

The specific composition contributes to the normal visual development of children up to 12 months of age. The beneficial effect is obtained with the daily intake of at least 100 mg of DHA. With sweetener – Gluten free – Lactose free.

# Biolan

cream

## Biolan cream

### INSTRUCTIONS

Biolan® cream is made of pure lanolin without the addition of preservatives.

### HOW TO USE

Soften up a small dose of Biolan® cream with your fingers or the palm of the hand using sterilized gloves and gently apply it where necessary and repeat the operation many times a day.

### INGREDIENTS

Pure lanolin.

### PACKAGING

Tube of 30 ml.

### CHARACTERISTICS

Lanolin is a wax that has a composition like to the skin. Lanolin has different useful applications thanks to its affinity and its moisturizing and emollient property: Preventions of breast fissures, Treatment of anal fissures, Hurts and abrasions.

# BIOTRINA<sup>®</sup>

## DROPS

## Biotrina drops

### INSTRUCTIONS

Biotrina drops is a dietary supplement of Lactoferrin and Zinc. Zinc contributes to the normal function of the immune system.

### DOSAGE

It is recommended to take 10 to 20 drops per day. 10 drops contain 100 mg of Lactoferrin. For proper use of the product it is suggested to follow your doctor's direction. Do not exceed the recommended daily dose.

### INGREDIENTS

Lactoferrin and Zinc.

### PACKAGING

15 ml bottle.

# CHETODRAL<sup>®</sup>

Sachets

Gluten  
Free

## Chetodral Sachets

### INSTRUCTIONS

Chetodral is a dietary supplement of Vitamins B1, B2, B6, Mixed sugars, Prebiotic Glucooligosaccharides, Sodium citrate and Potassium citrate characterized by taste and aroma Cola. The well studied formulation of Chetodral allows to fight effectively the states of ketosis and of acetoenemy vomiting of children and adults, and is able to act, by intervening at several levels, in the complex metabolic alterations that occur during the acidosis.

### DOSAGE

We recommend taking 2-3 sachets per day as needed or after medical advice. Do not exceed the recommended daily dose.

### INGREDIENTS

Mixed sugars, tribasic sodium citrate, tribasic potassium citrate, Vitamins: B1; B2; B6. Bioecolians<sup>®</sup> (glucooligosaccharide with prebiotic action).

### PACKAGING

10 sachets of 8 g.

### CHARACTERISTICS

Cola taste.

# Cobalavit<sup>®</sup> drops

**B12**  
VEGAN**GLUTEN FREE  
LACTOSE FREE**

## Cobalavit drops

### INSTRUCTIONS

Cobalavit drops is a dietary supplement of Vitamin B12 used to fill the nutritional deficiency or increase the requirement of such nutrient. Vitamin B12 contributes to the normal formation of red blood cells and to the normal metabolism of homocysteine. Cobalavit drops is an adjuvant in the treatment of the hematological disorders or of the pernicious/megaloblastic anemia. Indicated in vegan and vegetarian dietary.

### DOSAGE

**From 6 months to 3 years:** 4 drops per day;

**From 4 to 10 years:** 20 drops per day;

**Over 11 years, including adults:** 40 drops per day. Do not exceed the recommended daily dose.

1 drop contains: 1,25 mcg of Vitamin B12.

### INGREDIENTS

Vitamin B12 (Cyanocobalamin).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

**Cobalavit drops, dietary supplement of vitamin B12 (Cyanocobalamin), it does not contain any products or derivatives of animal origin among its ingredients.** Vitamin B12 used in this product is derived from a fermentation process and it has KOSHER and HALAL certification. Vitamin B12 in aqueous phase, easy to be mixed with all liquids or foods.

# Cobalavit<sup>®</sup> plus

**GLUTEN FREE  
LACTOSE FREE**

## Cobalavit Plus

### INSTRUCTIONS

Cobalavit Plus is a dietary supplement of Vitamin B12 used to fill the nutritional deficiency or increase the requirement of such nutrient. Vitamin B12 contributes to the normal formation of red blood cells and to the normal metabolism of homocysteine. Vitamin D3 contributes to normal absorption and use of calcium and phosphorus, the normal function of the immune system.

### DOSAGE

**From 6 months to 3 years:** 5 drops per day;

**from 4 to 10 years:** 5 drops per day;

**after 11 years, including adults:** 10 drops per day. Do not exceed the recommended daily dose.

Average content for drop Vit. B12 = 5 mcg + Vit. D3=100 U.I.

### INGREDIENTS

Vitamin B12 (Cyanocobalamin) + Vitamin D3 (Cholecalciferol).

### PACKAGING

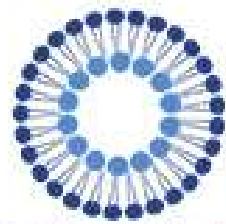

15 ml bottle.

### CHARACTERISTICS

**Cobalavit drops, dietary supplement of vitamin B12 (Cyanocobalamin) and vitamin D3 (Cholecalciferol), it does not contain any products or derivatives of animal origin among its ingredients.** Vitamin B12 used in this product is derived from a fermentation process and it has KOSHER and HALAL certification. The Vitamin D3 is of vegetable origin and comes from the Lichen. Vitamin B12 in aqueous phase, easy to be mixed with all liquids or foods.

# CORE DOX DROPS

Micellar Solution

## Coredox drops

### INSTRUCTIONS

Coredox drops is a dietary supplement with vitamin C and vitamin E with protective and antioxidant function against the free radicals. It contrasts the free radical's action and it protects the cells and the body tissues from the oxidative stress.

### DOSAGE

It is recommended to take 10 drops per day. Do not exceed the recommended daily dose.

10 drops contain:

Vitamin C = 50 mg  
Vitamin E = 20 mg

### INGREDIENTS

Vitamin C + Vitamin E (Ascorbic acid and Tocopherol).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

Coredox drops is a dietary supplement in watery phase in which, the water-soluble Vitamin C, is directly dissolved in the solvent (water) and the fat-soluble Vitamin E, is incorporated inside micelles (micellar solubilization). The micelles cross the aqueous layer that coats the intestinal microvilli and they are absorbed inside the enterocyte even if there is a low concentration of bile salts.

## Crossover Junior Sachets

### INSTRUCTIONS

Mineral Salts and Royal Jelly with Zinc and GOS is a dietary supplement specifically developed for kids that practice also competitive sports activities and it is useful in the treatment of dehydration caused by excessive sweating combined with intense energy expenditure. Zinc contributes to the normal function of the immune system.

### DOSAGE

Dissolve the contents of 1 sachet each 250 ml of water, stirring until completely dissolved and drink immediately. Drink if necessary during exercise, and especially at the end for rapid water-salt balance recovery.

### INGREDIENTS

Bioecolians® (glucoligosaccharide to prebiotic action); Sodium citrate tribasic; Potassium citrate tribasic; Sodium chloride; potassium chloride, zinc, dextrose, Royal Jelly freeze-dried.

### PACKAGING

10 sachets of 8.2 g.

### CHARACTERISTICS

It is characterized by the taste and aroma of natural sweet orange. The product meets the ESPGHAN directives (European Society of Gastroenterology, Hepatology and Pediatric Nutrition).

## Crossover Junior vials

### INSTRUCTIONS

Crossover Junior Royal Jelly and Carnitine is a dietary supplement specially developed for kids that practice also competitive sports activities and it is useful to compensate for an intense energy expenditure.

### DOSAGE

The recommended daily dose is 1 vial a day preferably taken an hour before training or competition.

### INGREDIENTS

Royal Jelly, Carnitine, sugar and sweetener.

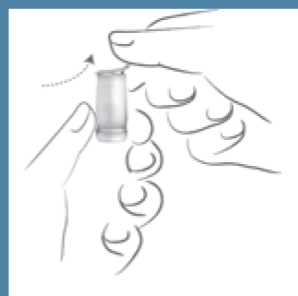

### PACKAGING

10 vials of 10 ml.

### CHARACTERISTICS

It is characterized by taste and aroma of black cherry. The Royal Jelly and Carnitine make balanced quantities of nutrients and improve energy metabolism. The innovative technology of RewCap has enabled us to put into product a quantity of freeze-dried Royal Jelly of 500 mg, corresponding to about 1,5 grams of fresh royal jelly.

**HOW TO USE** 1. Push the top of the cap until complete detachment of the capsule from the rest of the cap; 2. Remove the seal of the capsule; 3. Turn the cap on the vial and insert until you hear a click 4. Shake until complete dissolution of the powder; 5. Remove the cap and drink right away.

# DESTROLAC<sup>®</sup> CONFORT

## Destrolac confort

### INSTRUCTIONS

Destrolac<sup>®</sup> Confort is a dietary supplement of inositol (vitamin B7) with Maltodextrin and Cornstarch useful to fill nutritional deficiencies or increased of this nutrient. Destrolac Confort is particularly indicated in children with facility of regurgitation.

### DOSAGE

Dissolve 5 g of powder equal to 3 measuring cups every 100 ml of water or milk.

### INGREDIENTS

Corn starch (52%), Maltodextrine, Vitamin B7 (Inositol).

### PACKAGING

250 g pack with measuring spoon.

### CHARACTERISTICS

Destrolac Confort is a Vitamin B7 (Inositol) food supplement containing a thickening factor: the corn starch. The thickening process with the corn starch gives the milk an optimal viscosity that does not promote the regurgitation and ensure a complete digestibility. It gives also a better sense of satiety especially in the evening breastfeeding by promoting a calmer sleep.

# DESTROLAC

POWDER

Gluten  
Free

## Destrolac powder

### INSTRUCTIONS

Destrolac powder® is a dietary supplement of Vitamin B7 (Inositol) with Maltodextrine and Glucooligosaccharide useful to fill nutritional deficiencies or increased needs of this nutrient. Particularly indicated on treatment of the constipation.

### DOSAGE

3 measuring cups (5g) every 100ml of milk or other liquids.

### INGREDIENTS

Maltodextrine, Bioecolians® (glucooligosaccharide with prebiotic action), Inositol (Vitamin B7).

### PACKAGING

250 g. of powder with proper measuring cup.

### CHARACTERISTICS

Destrolac accomplishes its function thanks to the combined action of: Maltodextrines that, by recalling water in the intestine, make the faeces softer; Inositol (Vit. B7) that augments tone and amplitude of the intestinal peristalsis; Bioecolians® that accomplishes a prebiotic action on the intestinal flora and it helps the digestion of the lactose.

Destrolac powder is indicated in the dietary treatment of constipation, it is useful in infant formula fed babies. The treatment can last for months without contraindications. 3 scoops (5 grams) bring about 19 Kcal.

# DESTROLAC

**SOLUTION**  
with Lactulose

## Destrolac solution

### INSTRUCTIONS

Destrolac solution is a dietary supplement of Vitamin B7 with Maltodextrin, Glucooligosaccharides and Lactulose, useful to fill the nutritional deficiencies or the increased needs of this nutrient. It is particularly indicated in the treatment of the constipation in children and adults.

### DOSAGE

Unless otherwise medical advice:

**Children:** 10 ml per day, preferably in the evening.

**Adults:** 20 ml per day, preferably in the evening.

### INGREDIENTS

Mixed sugars, tribasic sodium citrate, tribasic potassium citrate, Vitamins: B1; B2; B6. Bioecolians® (glucooligosaccharide with prebiotic action).

### PACKAGING

150 ml bottle with dosing measure.

### CHARACTERISTICS

Destrolac components, with different mechanisms, act in a synergic way on the constipation by softening the faeces and by getting the intestinal peristalsis better. The Lactulose is a synthetic disaccharide essentially non-absorbed and it is composed by galactose and fructose.

# Ecevit<sup>®</sup>

## Drops

**GLUTEN FREE  
LACTOSE FREE  
NO PRESERVATIVES**

## Ecevit drops

### INSTRUCTIONS

Ecevit drops is a dietary supplement of alfa-tocopheril acetate (Vitamin E), used to fill a nutritional deficiency or to increase the requirements of this nutrient. Vitamin E helps protect cells from oxidative stress.

### DOSAGE

Take from 1 to 6 drops per day according to the needs. Do not exceed recommended daily dose. Average content for 1 drop: Vitamin E = 10 mg.

### INGREDIENTS

Vitamin E (Alpha tocopherol acetate).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

Ecevit drops, is used in different ways: diluted in a base cream, in massage oil, or applied directly to the skin keratotic and scaly. Gluten free, lactose free, no preservatives.

## Equidral sachets

### INSTRUCTIONS

Equidral sachets is a dietary supplement indicated in the treatment of the dehydration caused by acute diarrheas, altered electrolytic equilibrium, vomit, gastroenteritis, hyper-sweating.

### DOSAGE

Dissolve the content of a sachet each 250ml of water and shake until the solution is well mixed. Administer ad libitum or according to the medical advice. After an adequate period of rehydration, it is needed to begin the re-alimentation by continuing the hydrating action.

### INGREDIENTS

Bioecolians® (glucopoligosaccharide with prebiotic action); tri-basic sodium citrate; tribasic Potassium citrate; Sodium Chloride; Potassium Chloride; Gluconate Zinc.

### PACKAGING

10 envelopes of 8 grams per package in a hydro-saline solution for oral use.

### CHARACTERISTICS

Sweet orange taste and flavor. The product respects the ESP-GHAN directives (European society of gastroenterology, hepatology and pediatric nutrition). The zinc efficiency in the treatment of diarrhea is confirmed by many clinical trials, randomized and controlled that demonstrate a reduction of the duration, of the quantity and frequency of the diarrhea.

# ERGON

CAPSULES

## Ergon capsules

### INSTRUCTIONS

Ergon capsules is a dietary supplement of Iron, Vitamin C, Vitamin B12 and Folic Acid useful to fill nutritional deficiencies or increased needs of these nutrients.

### DOSAGE

Take one capsule a day. Do not exceed the recommended daily dose.

### INGREDIENTS

20 mg of Iron, 100 mg of Ascorbic acid (Vit. C), 6 mcg of Cyanocobalamin (Vit. B12), 400 mcg of Folic Acid.

### PACKAGING

20 capsules.

# ERGON

VIALS

Gluten  
Free

## Ergon vials

### INSTRUCTIONS

Ergon vials is a dietary supplement of Iron, Folic Acid, Vitamin B12 and Vitamin C, useful to fill nutritional deficiencies or increased needs of these nutrients. Iron contributes to normal transport of oxygen in the body, folic acid and Vitamin B12 contributes to the normal formation of red blood cells and to the maternal tissue growth in pregnancy, vitamin C increases iron absorption.

### DOSAGE

The recommended intake is 1 vial per day during meals, according to need. Do not exceed recommended dose.

### INGREDIENTS

20 mg of Gluconate Iron; 400 mcg of Folic Acid; 6 mcg of Vitamin B12 and 100 mg of Vitamin C, 1500 mg Acacia Honey.

### PACKAGING

10 monodose vials of 10 ml.

### CHARACTERISTICS

Normally our organism loses from 1-2 mg of Iron per day to 10-30 mg per day especially in women because of her menstruations. Here comes the importance of maintaining the Iron amount in our organism ever constant, with an appropriate food intake. Ergon vials is a complete anti-anaemic product. Banana taste.

**eucolin<sup>®</sup>**  
drops

## Eucolin drops

### INSTRUCTIONS

Eucolin is a dietary supplement made from glycerine macerate of Tilia and Tamarisk, with dry titrated extracts of Fennel and Chamomile. Thanks to its composition appositely studied for a rapid and effective action, Eucolin drops results useful in states of the infant's gaseous colic and in the abdominal pains of spastic nature.

### DOSAGE

**Infant's gaseous colic:** 20 drops 2 times per day half an hour before eating.

**Abdominal pain of the child:** 20 drops 3 times per day.

### INGREDIENTS

Tilia tomentosa Moench. Gems M.G., Foeniculum vulgare Mill. Seeds E.S.; Tamarix gallica L. gems M.G.; Matricaria chamomile L. flower heads E.S.

### PACKAGING

30 ml bottle.

### CHARACTERISTICS

The used vegetal extracts have anti-metoric, anti-spastic and carminative properties. Eucolin drops presents an excellent palatability and a high tolerability profile.

# FBM

vaginal gel

## FBM Vaginal Gel

### INSTRUCTIONS

Adjuvant in the treatment of vaginal mucosal involvements of bacterial origin (such as Vulvovaginitis) or mycotic (such as Candida) that cause dryness, redness, itching and burning. It creates a protective barrier on the vaginal mucosa that gives immediate relief, thanks to a soothing and lubricating action. The product contributes to the maintenance and stabilization of the physiological pH by favoring the well-being of the vaginal mucosa.

### HOW TO USE

We recommend a daily application for 6 days, changing applicator every time. The treatment maybe prolonged according to the needs and/or upon medical advice.

### INGREDIENTS

Aloe Vera (Aloe Barbadensis), Dry Grapefruit Extract, Salvia Glycolic Extract, Salvia Essential Oil, Vegetable Hyaluronic Acid.

### PACKAGING

1 tube of 40 ml + 6 disposable cannula in single bags.

### CHARACTERISTICS

FMB vaginal gel is water-based, it leaves no residue even on clothes.

# FBM

vaginal ovules

## FBM vaginal ovules

### INSTRUCTIONS

FBM vaginal ovules is a medical device coadjuvant in the symptomatic treatment and prevention of the vaginal mucosa disease of bacterial origin (as vulvovaginitis) or fungal infection (such as candida). Indicated to relieve burning, itching and redness. Also useful as a preventive treatment in cases subject to frequent diseases.

### DOSAGE

**Symptomatic Treatment:** 1 ovule per day, in the evening, before going to bed lying down, for at least 10 consecutive days. Associate a morning Lavender, in order to rebalance the vaginal flora.

Prevention: 1 ovule a day, in the evening before going to bed lying down, for at least 10 consecutive days, cyclically.

– Do not use the medical device for more than 30 consecutive days.

### HOW TO USE

Open the package and wash hands before use.

Carefully wash the genital area with a very mild detergent and withdraw from a blister single ovule.

Place the ovule into the vagina gently trying to get deep and avoiding occasional spills, preferably in the evening before bedtime.

### INGREDIENTS

Polysaccharides from Aloe Vera, Essential Oils of Sage, Tea tree oil and Grapefruit seed extract, lactic acid, mixture of triglycerides.

### PACKAGING

Pack of 10 ovules of 2 g.

**DROPS****FERROSIL<sup>®</sup>**Gluten  
Free

## Ferrosil drops

### INSTRUCTIONS

Ferrosil drops is a dietary supplement of Iron useful to fill nutritional deficiencies or the increased needs of such nutrient. The Iron contributes to the normal formation of red blood cell and the hemoglobin and to the normal oxygen transport body.

### DOSAGE

Take 2 drops (1 mg of elemental iron) / kg per day up to a maximum of 60 drops per day equal to 30 mg of iron.

### INGREDIENTS

Gluconate Iron (Fe<sup>++</sup>).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

The iron-deficiency anemia is the most common micronutrient deficiency disorder in childhood in relation to a high demand for iron. This period is witnessing a rapid growth (high demand) and a concurrent dietary intake of bioavailable iron sometimes reduced.

**SOLUTION****FERROSIL<sup>®</sup>**  
**PLUS**Gluten  
Free**Ferrosil Plus solution****INSTRUCTIONS**

Ferrosil Plus solution is a dietary supplement of iron highly absorbable and pleasant taste because microencapsulated in liposomes. Iron absorption is increased by the presence of Vitamin C. The iron used is pyrophosphate iron transported within a double phospholipidic membrane. The technique of encapsulation of the bivalent iron in liposomes allowed a considerable improvement in taste and palatability with consequent increase in product compliance.

**DOSAGE**

Take 5/10 ml of Ferrosil Plus solution equal to 20/40 mg of elemental iron daily as needed preferably with meals, unless otherwise specified by the Doctor. Shake before using.

**INGREDIENTS**

Iron and Vitamin C.

**PACKAGING**

200 ml bottle with measuring cup.

**CHARACTERISTICS**

Iron is a micronutrient essential for the human body. Indeed it is, as an essential component in some basic biological mechanisms such as DNA replication, cellular energy processes and the utilization and transport of oxygen throughout the body. Also it contributes to the normal formation of red blood cells and hemoglobin. Vitamin C facilitates the reduction of the iron and therefore its absorption.

Vitamin B12 used in this product is derived from a fermentation process and it has KOSHER and HALAL certification. Folic acid it has "Suitable for vegans" certification.

# JO18<sup>®</sup>

## Soothing cream

### JO 18 soothing cream

#### INSTRUCTIONS

Jo 18<sup>®</sup> fluid soothing cream for sensitive and hyper-reactive is the treatment-emollient moisturizer ideal in subjects responsive to common creams: in fact, thanks to its formula without perfumes and parabens and to innovative delivery system BOV<sup>®</sup> to keep the product from external contaminants, is able to reduce to a minimum the risk of allergic reactions.

#### HOW TO USE

Tilt the bottle and press the cap to dispense the product and apply on face and / or body. In the case of very sensitive skins, apply a thin layer on the affected part of the emulsion without massaging.

#### INGREDIENTS

Jojoba oil and 18-beta glycirretic acid.

#### PACKAGING

100 ml bottle.

#### CHARACTERISTICS

Jo 18<sup>®</sup> allows an activity:

- soothing due to the presence of echinacea, bisabolol and 18 beta-glycirretic acid;
- minimizing some annoying rashes when irritated by external agents due to polidocanol;
- stimulating the physiological defenses of the skin due to beta-glucan.
- reinforcing the functionality of the skin barrier due to the presence of a high concentration of Jojoba oil which provides a ratio of fat of vegetable origin and vitamin E.

# JO OIL<sup>®</sup>

## Oily Bath

## JO OIL oily bath

### INSTRUCTIONS

JO OIL oily bath is the ideal detergent for sensitive, dehydrated or atopic skin. JO OIL is no-occlusive and can also be used on irritated and hypersensitive skin. The composition of JO OIL is rich in substances of vegetable origin such as Jojoba oil, and can be used daily on the delicate skins for maintaining a correct skin hydration.

### HOW TO USE

Press the dispenser cap and apply directly on wet skin gently massaging and then rinse using a soft sponge or the shower. JO OIL can also be dispersed in the baby bath.

### INGREDIENTS

Jojoba oil with fatty acids Omega 6 and Omega 3 of Evening Primrose oil and Linseed Oil with Vitamin E.

### PACKAGING

250 ml bottle.

### CHARACTERISTICS

Sensitive is a type of skin characterized by an exaggerated reactivity to common stimulation (hot, cold, etc.), usually well tolerated by "normal" skin. Also, a sensitive skin is more susceptible to allergies, redness, irritation, itching and skin burns.

# K START<sup>®</sup> drops

Micellar Solution

## K Start drops

### INSTRUCTIONS

K Start is a dietary supplement of Phylloquinone useful to fill nutritional deficiencies or increased needs of this nutrient. Phylloquinone (Vitamin K1) contributes to normal blood clotting. Vitamin K deficiency bleeding prophylaxis. (VKDB)

### DOSAGE

Take 10 drops (50mcg) per day for 2 bottles. For the use of the product it is recommended to seek the opinion of the doctor.

1 drop contains: 5 mcg of Vitamin K1.

### INGREDIENTS

Vitamin K1 (Phylloquinone).

### PACKAGING

17 ml bottle.

### CHARACTERISTICS

Micellar solution in aqueous phase, easy to be mixed with all liquids or foods. Tasteless and odorless.

# Lioflor<sup>®</sup>

## capsules

GlutenFree

## Lioflor capsules

### INSTRUCTIONS

Lioflor caps is a dietary supplement of probiotics, useful to help the balance of intestinal flora, also indicated as an adjunct in the prevention of relapsing forms of vaginosis, vaginitis and infections of the lower urinary tract.

### HOW TO USE

**In diarrhea and to restore the balance of the intestinal bacterial flora:** 1 or 2 capsules a day between meals.

**In restoring the balance of vaginal flora:** 1 capsule a day for 4 weeks.

**As adjuvant in the treatment of infections:** 2 capsules per day for 4 weeks.

**In the prevention of relapsing:** 2 capsules a day for 2 weeks.

The dose may be varied on the advice of the doctor. Swallow the capsule as it is, or open it and disperse the contents in water or other cold liquid and consume immediately after preparation.

### INGREDIENTS

Lactobacillus reuteri 2 mld, Lactobacillus rhamnosus 2mld, Bifidobacterium animalis ssp lactis BLC1 2 mld.

### PACKAGING

10 capsules of 500 mg.

### CHARACTERISTICS

Lactobacilli in Lioflor capsules are an essential constituent of gut microbiota and play a primary role in the balance of the bacterial flora and the immune system function.

**Lioflor<sup>®</sup>**  
DROPS

Gluten  
Free

## Lioflor drops

### INSTRUCTIONS

Lioflor<sup>®</sup> drops is a dietary supplement based lactic species Bifidobacterium animalis ssp lactis BLC1, probiotic belonging to the family of Bifidus, present in the intestinal flora of man. The Bifidobacterium animalis ssp lactis BLC1 is able to colonize the intestine and promote the balance of intestinal flora, to reduce the incidence and duration of diarrhea of different etiology, and to decrease gastrointestinal disorders and infections.

### DOSAGE

We recommend taking 10 drops per day. 10 drops added Bifidobacterium animalis SSP lactis BLC1 5 bln of live lactic ferments.

### INGREDIENTS

Bifidobacterium animalis ssp. lactis BLC1

### PACKAGING

6 ml bottle, oral use.

### CHARACTERISTICS

New technology: suspension water-dispersible. Ready to use. Scientific studies have shown that Bifidobacterium animalis ssp lactis BLC1:

- 1) is safe and has no contraindications;
- 2) is active and vital in the environmental conditions present in the 3) intestine;
- 3) is resistant to gastric juice, bile and pancreatic juice;
- 4) is able to colonize the human intestine to perform its beneficial action.

# Lioflor

vaginal douche

## Lioflor vaginal douche

### INSTRUCTIONS

Lioflor vaginal douche is a medical device constituted by a solution of Acid hyaluronic, Tea tree oil and calendula and a mixture of lactobacillus (*Lactobacillus acidophilus* and *Lactobacillus rhamnosus*). Particularly indicated for restoring of the vaginal physiological conditions (rebalancing of the vaginal bacterial flora and pH), which can be altered as a consequence of infections, prolonged antibiotic treatments and / or other genital affections of woman. Adjuvant in the treatment and prevention of vaginitis and bacterial vaginosis. Protective / lenitive in the irritation of the vaginal mucosa.

### HOW TO USE

**In case of infections or irritations:** 1 application per day, preferably in the evening for the first 5 days; then continue with 1 application a week for the next 5 weeks.

**For the prevention:** 1 application at the end of every menstrual cycle, unless otherwise prescription or Medical directions.

### COMPOSITION

The vial contains: Hyaluronic Acid, Tea tree Oil and Calendula.  
The fuel cap contains: *Lactobacillus acidophilus* LA14, *Lactobacillus Rhamnosus* SP1."

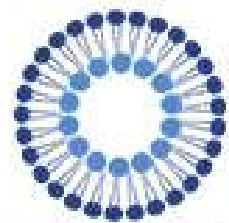

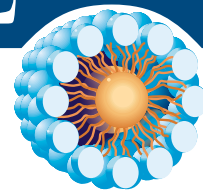

### PACKAGING

100 ml single use vials and 350 mg of powder.  
5 disposable cannulas enveloped.

### CHARACTERISTICS

Powder and solution are mixed before use thanks to the innovative packaging system patented **RewCap®**.

**LIPOVIT***Micellar Solution*

## Lipovit drops

### INSTRUCTIONS

Vitamin A, Vitamin D3, Vitamin E and Vitamin K1 dietary supplement. Useful to fill the nutritional deficiencies or the increased needs of these nutrients. Liver disease and malabsorption.

### DOSAGE

5 drops per day unless otherwise medical advice.

5 drops contain: Vitamin A = 1 mg (= 1000 RE = 3333 I.U.)

Vitamin D3 = 10 mcg (400 I.U.)

Vitamin E = 6 mg

Vitamin K1 = 100 mcg

### INGREDIENTS

Vitamin A, Vitamin D3, Vitamin E and Vitamin K1 (Retinol, Cholecalciferol, Tocopherol, Phylloquinone).

### PACKAGING

15 ml bottle.

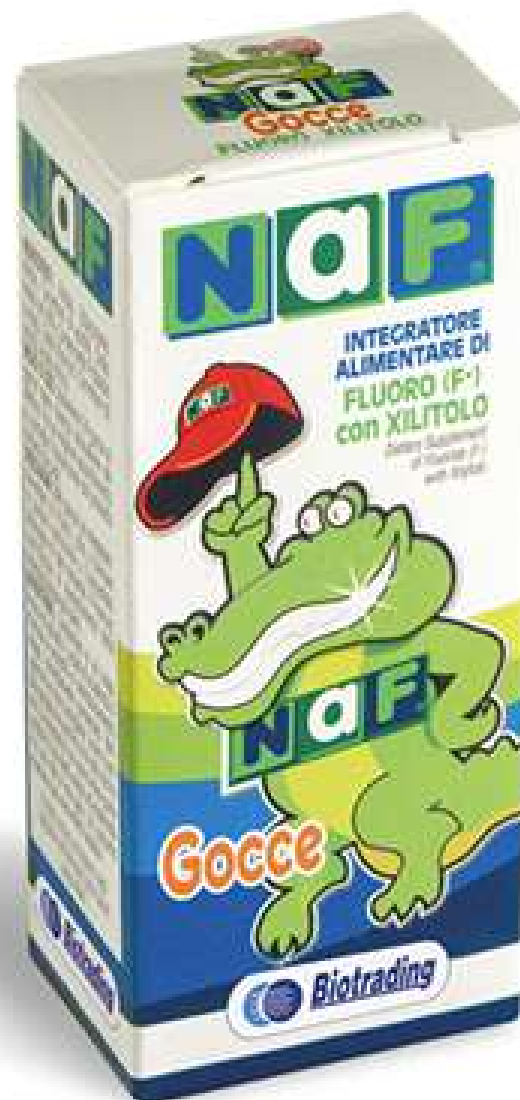

### CHARACTERISTICS

Fat-soluble vitamins are incorporated inside micelles (micellar solubilization). The micellar formation in watery phase is a refined pharmaceutical technique that allows a better absorption of the vitamins even when the organism shows difficulties. The micelles, by incorporating the fat-soluble vitamins inside water-soluble spheres that make easy the transport and the absorption, cross the aqueous layer that coats the intestinal microvilli and they are absorbed inside the enterocyte even if there is a low concentration of bile salts.

Gluten  
Free

## Naf drops

### INSTRUCTIONS

Naf drops is a dietary supplement of Fluoride with Xilytolo indicated to Fluorine prophylaxis of the dental caries.

### DOSAGE

If, in the water used, there is a quantity of Fluoride less than 0.3 mg/liter (the least diffused mineral water) the recommended dosage is:

**from 2 weeks to 2 years:** 8 drops a day (0.25 mg of F- ions)

**from 2 to 4 years:** 16 drops a day (0.50 mg of F- ions)

For the best absorption of NAF Drops for neonatal administration do not dissolve the drops in milk. After each use reclose the bottle carefully.

### INGREDIENTS

Fluorine + Xylitol.

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

Fluorine and Xylitol in watery solution, easy to be mixed with all liquids or foods. Tasteless and odorless.

**Naf**  
**SPRAY**

## Naf spray

### INSTRUCTIONS

Naf Spray is dietary supplement with an innovative patented method that makes easier the daily administration of Fluorine and Xylitol effective amounts.

### DOSAGE

If, in the water used, there is a quantity of Fluoride less than 0.3 mg/liter (the least diffused mineral water) the recommended dosage is:

- **from 2 weeks to 2 years:** 1 spray a day (0.25 mg of F- ions)
- **from 2 to 4 years:** 2 spray a day (0.50 mg of F- ions)
- **from 4 years and pregnant:** 4 spray a day (1 mg of F- ions)

### INGREDIENTS

Fluorine + Xylitol (Sodium Fluoride and Xylitol).

### PACKAGING

20 ml bottle spray.

### CHARACTERISTICS

At the same time, Naf Spray exploits the Fluorine and Xylitol's local and systemic action by taking part both in the teeth's mineralization and in the plaque's bacteria. It inhibits the production of the acids that promote the caries.

# NebuRED<sup>®</sup>

**Spray** oral use

## Nebured spray

Micellar Spray Antioxidant Micellar solution of vitamins C and E acting scavenger, able to transform the oxygen free radicals in compound without reactivity and consequently toxicity. The effective activity of Nebured is due to the combined and synergistic action two vitamins: vitamin C, which performs its protective action in aqueous medium and is able to pass the blood brain barrier, and vitamin E, which carries out its activity in lipid environment. Vitamin C has the ability to regenerate oxidized Vitamin E.

### WE RECOMMEND NEBURED MICELLAR SPRAY:

To protect the cardiovascular and osteoarticular system (collagen synthesis), retina (prevention of cataratta) and kidney. While taking antibiotics and anti-inflammatory drugs in convalescence and after surgery. In combination with anticancer drugs (MDB) and as chemoprotective. Stress, hyperactivity and all conditions in which an increased metabolism causes excessive production of free radicals. Decreased absorption due to old age.

### 2 SPRAY CONTAIN

Ascorbic acid (Vit. C) 50 mg. Tocopherol (Vit: E) 20 mg.

### HOW TO USE

Spraying one or more times as needed directly into the mouth of the animal directing the spray preferably under the tongue.

### DOSAGE

Puppy: 1 spray a day.

Adults and seniors: 2 spray a day all year long, preferably during the winter.

# NebuVIT<sup>®</sup>

**Spray** oral use

## Nebuvit spray

In some phases of growth of animals, to compensate the increased metabolic and energetic needs, it is advisable to integrate nutrients easily assimilated to a healthy diet. Nebuvit spray contains fat-soluble vitamins into micelles for a complete absorption, and balanced amount of water-soluble vitamins according to the latest scientific. The innovative premeasured spray bottle simplifies and facilitates the daily administration of effective amounts of vitamins making the product safe and handy.

### **WE RECOMMEND NEBUVIT MICELLAR SPRAY:**

- Pregnancy
- Puppy
- Development/Growth
- Old age

**Also it is useful** in organic stress situations such as: liver disease and malabsorption, infectious diseases, surgery for a speedy recovery, vigorous exercise, prolonged fasting, failure to thrive, convalescence.

### **HOW TO USE**

Spraying one or more times as needed directly into the mouth of the animal directing the spray preferably under the tongue.

### **DOSAGE**

**Puppy:** 1 spray a day.

**Adults and seniors:** 2 spray a day all year long, preferably during the winter.

**Pregnant and lactating:** 2 spray a day.

**Performance and working dogs:** 3 spray a day during the period of intense work, then 2 spray a day of maintenance.

# Normociclo

tablets

GlutenFree

## Normociclo tablets

### INSTRUCTIONS

Normociclo is a dietary supplement based on plant extracts (pilosella, turmeric, agnocasto and ortosifon), with Magnesium and bromelain. Pilosella and ortosifon are useful for draining body fluids; turmeric and chaste counteract disorders of the menstrual cycle, while Magnesium contributes to electrolyte balance. Bromelain is an enzyme with draining and anti-inflammatory activity useful in the treatment of cellulite.

### DOSAGE

It is recommended to take 1 tablet in the morning and 1 tablet in the evening, between meals. Do not exceed the recommended daily dose.

### INGREDIENTS

Pilosella, Curcuma, Agnocasto e Ortosiphon, with Magnesium e Bromelain.

### PACKAGING

30 tablets in blister.

### CHARACTERISTICS

Normociclo tablets is a dietary supplement with strong diuretic activity to counteract water retention and cellulite, and regulatory activity of the hormonal balance of the woman to improve disorders related to premenstrual syndrome and menopause (hot flushes).

# Normuril<sup>®</sup>

## SOLUTION

Gluten  
Free

## Normuril solution

### INSTRUCTIONS

Normuril solution is a dietary supplement of Cranberry and Propolis useful for the physiological function of the urinary tract with a pleasant taste of berries.

### DOSAGE

**Daily dose:** 20 ml diluted in a glass of water.

**Impact dosage:** 20 ml diluted in a glass of water preferably in the morning after clearing the urine of the night, for at least 10 days.

**Dosage to prevent relapse:** 10 ml diluted in a glass of water in the morning.

### INGREDIENTS

Cranberry titrated tit.2,7% in proanthocyanidins titrated with method BL DMCA 1333 mg equal to proanthocyanidins 36 mg; Propolis solvent free tit. 12-15% total flavonoids as galangin 50 mg equal to total flavonoids as galangin 6.7 mg.

### PACKAGING

200 ml bottle.

### CHARACTERISTICS

In this solution is utilized synergistic and potentiating the action of Cranberry and Propolis in the prevention of recurrent urinary tract infections according to the most recent and authoritative scientific studies.

# Ovogin

sachets

GlutenFree

## Ovogin sachets

### INSTRUCTIONS

This sachet is a dietary supplement of Vitamin D3 and folic acid, magnesium, myo-inositol, N-acetylcysteine and dry extract of Maca. Folic Acid contributes to the growth of maternal tissues during pregnancy and to the normal metabolism of homocysteine; Vitamin D3 contributes to the normal absorption and use of calcium and phosphorus; Magnesium contributes to reducing fatigue; Maca performs tonic and metabolic support. Myo-inositol helps to correct endocrine-metabolic disorders related to PCOS, while N-acetylcysteine is a potent anti free radicals.

### HOW TO USE

Pour the contents of a sachet into one glass, add water, mix well and consume it immediately after preparation. It is recommended to take 1 sachet per day, during the morning away from meals. Do not exceed the recommended daily dose.

### INGREDIENTS

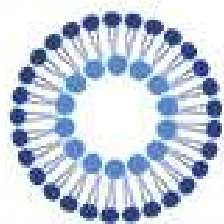

Vitamin D3 and folic acid, magnesium, myo-inositol, N-acetylcysteine and dry extract of Maca.

### PACKAGING

Pack of 14 sachets of 4.6 grams.

**Panavit<sup>®</sup>**  
**+ zinc**  
**DROPS**

Micellar Solution

**Panavit drops + Zinc**

**INSTRUCTIONS**

Panavit Solution contains a balanced quantity of liposoluble and water soluble vitamins according to the newest scientific findings and proposing such as the multivitamin of the last generation.

### DOSAGE

Take 5 – 10 drops per day unless otherwise advised by doctor. Do not exceed the recommended daily dose.

### INGREDIENTS

VITAMINS	5 ML
Cholecalciferol (Vit.D3)	5 mcg (200 U.I.)
Retinol (Vit.A)	400 mcg
Tocopherolo (Vit. E)	6 mg
Pyridoxine (Vit. B6)	0,7 mg
Thiamine (Vit. B1)	0,55 mg
Riboflavin (Vit. B2)	0,7 mg
Pantothenic acid (Vit. B5)	3 mg
Cyanocobalamin (Vit. B12)	1,25 mg
Folic Acid (Vit. B9)	200 mcg
Biotin (Vit. H)	25 mg
Ascorbic acid (Vit. C)	100 mg
Niacin (Vit. B3)	8 mg

### PACKAGING

150 ml bottle.

### CHARACTERISTICS

Fat-soluble vitamins are incorporated inside micelles ( micellar solubilization). The micellar formation in watery phase is a refined pharmaceutical technique that allows a better absorption of the vitamins even when the organism shows this difficulties. Strawberry Taste.

**patux**  
solution

Gluten  
Free

## Patux solution

### INSTRUCTIONS

Patux solution is a dietary supplement of Altea, Drosera, Red poppy, Grindelia, with Propolis and Honey. Altea is useful for functionality of the musculoskeletal system respiratory and for the well-being of the throat; Drosera plays a positive emollient action and soothing on the oropharyngeal mucosa and tone of the voice; red poppy is useful for fluidity of bronchial secretions; the Grindelia has a balsamic effect.

### DOSAGE

It is recommended to take 10 ml for **adults** four times a day. For **children** 10 ml twice a day.  
10 ml is equal to one tablespoon. It is recommended to take the last administration before bedtime. Do not exceed the recommended daily dose.

### INGREDIENTS

Altea, Drosera, Red poppy, Grindelia, with Propolis and Honey.

### PACKAGING

200 ml bottle.

### CHARACTERISTICS

No Alcohol, Gluten Free, Naturally Lactose free and without preservatives.

# Preflu

## Sachets

## Preflu Sachets

### INSTRUCTIONS

Preflu is a dietary supplement of Vitamin C, Vitamin D3 and Zinc, with dry extract titrated of Echinacea, useful to fill nutritional deficiencies or increased needs of these nutrients. Vitamin C, Vitamin D3 and Zinc contribute to the normal function of the immune system.

### DOSAGE

We recommend taking 1 sachet per day as needed or after medical advice. Do not exceed the recommended daily dose.

### INGREDIENTS

Ascorbic acid (Vit. C), Cholecalciferol (Vit. D3), Zinc, Echinacea E.S..

### PACKAGING

30 sachets of 5 g.

# PROTOFER<sup>®</sup>

## FERROUS SULFATE DROPS

Gluten  
Free

## Protofer drops

### INSTRUCTIONS

Dietary supplement of Iron, useful to fill nutritional deficiencies or increased needs of this nutrient.

### DOSAGE

It is recommended to take 1 drop per kilogram of body weight per day up to a maximum 30 drops per day, preferably during meals diluted in a little water. Shake before use. 1 drop contains 1 mg elemental iron.

### INGREDIENTS

Ferrous sulphate.

### PACKAGING

30 ml bottle.

### CHARACTERISTICS

The iron intervenes in the process of cell division and contributes to the normal formation of red blood cells and haemoglobin, to the normal transport of oxygen in the body, to the normal energy metabolism, normal function of the immune system and normal cognitive function, reducing fatigue and fatigue.

# Proton<sup>®</sup>

## 30 sachets

## Proton 30 sachets

### INSTRUCTIONS

Proton<sup>®</sup> sachets is a dietary supplements of Cholecalciferol (Vitamin D3) useful to fill the deficiencies or the increased needs of this nutrient. The cholecalciferol contributes to normal absorption and use of calcium and phosphorus, the normal function of the immune system and the maintenance of normal muscle function.

### DOSAGE

Take 1 sachet a day especially in the winter months. Dilute the contents of the sachet in a glass of milk or water and mix well. Proton<sup>®</sup> sachets has a very pleasant strawberry aroma that perfumes the milk in a new and delicate way making it more palatable.

### INGREDIENTS

Cholecalciferol (Vitamin D3).

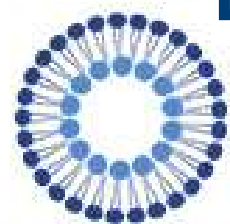

### PACKAGING

30 sachets.

### CHARACTERISTICS

The latest scientific research give great importance to the metabolic functions of vitamin D on many other tissues and systems such as muscle and nervous tissue, cardiovascular system, immune system, growth and cell differentiation, regulation of insulin secretion, progression of osteoarthritis.

# Proton<sup>®</sup> dk50 DROPS

Micellar Solution

## Proton DK 50 drops

### INSTRUCTIONS

Proton dk 50 is a food supplement of Cholecalciferol and Phylloquinone. Cholecalciferol follows the normal absorption and use of calcium and phosphorus and the normal function of the immune system, while phylloquinone works at normal blood clotting. Rickets prophylaxis and Vitamin K deficiency bleeding (VKDB).

### DOSAGE

6 drops per day until the bottle is empty.  
6 drops contains 400 I.U. of Vitamin D3 + 50 mcg of Vitamin K1.

### INGREDIENTS

Vitamin D3 (Cholecalciferol) + Vitamin K1 (Phylloquinone).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

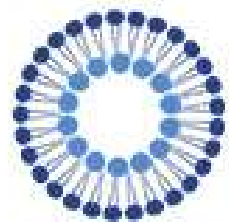

Micellar solution in aqueous phase, easy to be mixed with all liquids or foods. Tasteless and odorless. Oral use.

\*The vial, at a dosage of 6 drops per day, lasts exactly 84 days and covers the entire period of prophylaxis of vitamin K.

# Proton<sup>®</sup>

### INGREDIENTS

Cholecalciferol (Vitamin D3).

### PACKAGING

30 tablets of 2.000 I.U.

### CHARACTERISTICS

The latest scientific research give great importance to the metabolic functions of vitamin D on many other tissues and systems such as muscle and nervous tissue, cardiovascular system, immune system, growth and cell differentiation, regulation of insulin secretion, progression of osteoarthritis.

# REDOX<sup>®</sup>

## drops

## Redox drops

### INSTRUCTIONS

Redox drops is an antioxidant, it performs a protective action against free radicals. Vitamin C contributes to the normal functioning of the immune system, to cells protection from oxidative stress and it improves iron absorption.

### DOSAGE

Take 10 - 20 drops per day ( 100 - 200 mg of Vitamin C ) unless otherwise indicated by the doctor. The product can be taken on its own or it can be diluted in one tablespoon of water.

1 drop contains: 10 mg of Vitamin C

### INGREDIENTS

Vitamin C (Ascorbic Acid).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

Vitamin C stabilized in water solution, easy to be mixed with all liquids and food.

# REDOX<sup>®</sup>

## Immuno

**GLUTEN FREE  
LACTOSE FREE**

## Redox Immuno

### INSTRUCTIONS

Vitamin C and Vitamin D contribute to the normal function of the immune system. Vitamin C contributes to normal energy-yielding metabolism and increases iron absorption. Vitamin D is necessary for normal growth and bone development in children.

### DOSAGE

**Children from 4 to 10 years:** 1 stickpack per day.

**Over 10 years and adults:** 2 stickpacks per day.

The powder should be dissolved in a glass of water.

### INGREDIENTS

Vitamina C 500 mg, Vitamina D3 600 I.U..

### PACKAGING

16 stickpack of 2 g.

### CHARACTERISTICS

Peach tea taste. Gluten and Lactose free.

# SISONAL<sup>®</sup> SOLUTION

## Sisonal solution

### INSTRUCTIONS

Sisonal solution is a dietary supplement based Acacia Honey, Propolis and Extracts titrated dried of Echinacea angustifolia and Rosehip. Echinacea angustifolia may be useful for the body's natural defenses, while the Rosehip can play a supportive role and tonic.

### DOSAGE

**Adults:** 5 ml 3 times a day.

**Children from 3 to 10 years old:** 5 ml 2 times a day.

Do not exceed the recommended daily dose.

### INGREDIENTS

Echinacea angustifolia DC roots E.S. tit. Min. 4% in echinacoside, Propolis minced powder tit. Min. 2,5%, Rosehip L. fruit E.S. tit. Min. 10% in Vitamin C.

### PACKAGING

150 ml bottle.

### CHARACTERISTICS

Taken in advance, it can reduce the number of the infective episodes or the high or low respiratory systems; taken during the infective episode, it can reduce the fever days and the duration of the illness itself. Sisonal solution has a good palatability.

*viaLattea*  
Tablets

Gluten  
Free

## Via Lattea tablets

### INSTRUCTIONS

Via Lattea is a dietary supplement based on dry extracts of Galega, Fenugreek and Fennel. Galega is useful for its galactogoga function (a stimulating action on the production of breast milk).

### DOSAGE

Take 1 tablet of Via Lattea per day before main meals with plenty of water during the entire period of breastfeeding. Do not exceed recommended daily dose.

### INGREDIENTS

Galega, Fenugreek and Fennel.

### PACKAGING

20 tablets.

Vigor Drops consist of pure fresh Royal Jelly dispersed in a glucose solution and dispensed by an included dropper. Careful production process adopted for the preparation of Vigor Drops, the ease of dosing and low volumes of administration, make this dietary supplement suitable for all ages, from infants to adults and even in the elderly. Fatigue, loss of appetite, convalescence, increased demand.

### DOSAGE

**from 0 to 2 years:** 1 ml (20 drops) per day;

**over 2 years:** 2 ml per day;

**adults and seniors:** 2 ml to 6 ml per day.

1 ml of product contains 250 mg of fresh Royal Jelly.

Take the product as such by pouring drops directly into the mouth or with the aid of a teaspoon. The product can be mixed with other liquids not very hot.

### INGREDIENTS

1 ml is 250 mg Fresh Royal Jelly.

### PACKAGING

30 ml bottle with dropper cap.

### CHARACTERISTICS

Due to its characteristics and composition perfectly balanced, this food, natural and totally harmless, assumes an important value in supplementing the normal diet at different stages of life.

**Vigor<sup>®</sup> forte  
vials**

## Vigor forte

### INSTRUCTIONS

Vigor Forte consists of pure Royal Jelly in a solution pleasant taste of honey and orange. Composite energy biocatalyst natural food supplement indicated for Asthenia, anorexia, loss of appetite, convalescence. New composition, new package, more efficacy!

### DOSAGE

We recommend taking 1 bottle per day. For a better assimilation of nutrients is recommended to take the vial orally in the morning on an empty stomach. Shake before use.

### INGREDIENTS

Fresh royal jelly 1500 mg on vial.

### PACKAGING

Box containing 8 vials of 10 ml.

# VISIONIT drops

## Visiovit drops

### INSTRUCTIONS

Dietary supplement Lutein and Zeaxanthin based from *Tagetes erecta* which has an antioxidant action and is useful for the well-being of sight.

### HOW TO USE

Ready to use product. We recommend taking 5 drops a day to be administered directly into the mouth or by using a teaspoon. Shake before use.

### COMPONENTS

Lutein and Zeaxanthin.

### PACKAGING

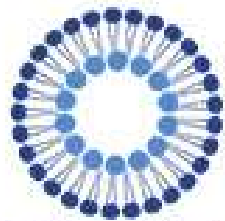

6 ml bottle.

### CHARACTERISTIC

The activities ascribed to Lutein and Zeaxanthin are multiple and among these the main ones include the antioxidant – antiradical action and the protection of the ocular structures from harmful light radiations. Lutein and Zeaxanthin are widely used and seem to play an important role in protecting the newborn's eyes from intense light damages.

# VISPO<sup>®</sup>

## drops

Micellar Solution

## Vispo drops

### INSTRUCTIONS

Vispo drops is a dietary supplement of Vitamin A used to fill a nutritional deficiency or to increase the requirements of this nutrient. Vitamin A intervenes in the process specialization of cells and maintained to maintenance normal vision.

### DOSAGE

Take 10 drops per day unless otherwise medical advice.  
1 drop contain: 100 U.I. (30 mcg) of Vitamin A.

### INGREDIENTS

Vitamin A palmitate (Retinol).

### PACKAGING

15 ml bottle.

### CHARACTERISTICS

Micellar solution in aqueous phase, easy to be mixed with all liquids or foods. Tasteless and odorless.
