

PIEDMONT's **WINES** since 1952

www.arescavini.it

A FAMILY. A TEAM.

Aresca is a **family-owned winery** founded by Luigi Aresca back in 1952: two winegrowers who have turned a passion, born among the rows of **Mombercelli**, into a family business that has never left these places again.

We have never lost sight of our origins. Now the winery is running by the **second and third generation**.

ARESCA WINES is located halfway between Monferrato and Langhe.

OF WINE**

The Activity focused on the
production of Wine, a modern
bottling lines installed in the Winery

GRWTH

The Winery continues to invest
in technology: The facility area
and production capacity are
expanded to meet market demands

White, red, sweet and sparkling **wines**: our wines are the result of a careful selection in full respect of the land of origin, of only **autochthonous Piedmontese varieties**. Our vineyards are located between Langhe-Roero and Monferrato, a unique land recognized by **UNESCO** as a **World Heritage Site**. Here the hilly slopes covered with vineyards testify to the ancient tradition of grape production on a land that soon revealed itself in the great quality of its products.

OUR STYLE.

The vineyards are being **cultivated with respect and care** so that quality wines can be obtained, respecting the territory of origin. The spontaneous grassing in the inter-row areas, treatments limited to the minimum necessary and hand-harvesting are just some of the prerogatives we have chosen for the management of our vineyards. All the stages of vinification are under the **constant supervision** of winemakers. The wines are produced with the respect of tradition and represent the quality and uniqueness of the territory.

We have expanded the vineyards and built over time a close network of **local grape growers** with whom we have a deep bond of **mutual respect and trust**.

IN THE WINERY.

In the **cellar** every stage of winemaking has the aim of bringing to the bottle, preserving and expressing the elegance and harmony of the grapes obtained in the vineyards up to the glass. To achieve these results, traditional practices are applied using the techniques oered by the most modern technology.

AWARDS.

Over the years, our products have received several national and international **awards** of which we are very proud. Being recognized for the quality with which we work is an incentive to continue on the path of improvement, always looking for the **satisfaction of our customers and their palates**.
