THE DREAM

IT IS THE DREAM OF A LIFETIME, THE DREAM OF ALL OF US. BEAUTY IN SYMBIOSIS WITH THE FRESHNESS OF THE BRIGHT, TONING DAWN AND THE TRANQUILLITY OF EVENING, A TIME WHEN EVEN THE RADIANCE OF OUR SKIN NEEDS ESSENTIAL REST AND PROPER NOURISHMENT. TWENTY-FOUR HOURS OF REVITALIZING ENERGY TO MEET THE NEW DAY WHILE THINKING INTELLIGENTLY OF TOMORROW. THE DREAM OF MAKING THE BEAUTY OF OUR SKIN LAST LONGER BY CONSIDERING, ABOVE ALL, ITS HEALTH AND ITS INTEGRITY.

ANTI-AGE/ANTI-WRINKLE ACTION

“Remodelling and firming from within”

European research has produced JALACYN C57[®], the functional proto-biopeptide complex with a remodelling/anti-age action that protects the structural proteins of the dermis (proteoglycans) with a focused action on the collagen fibrils, making them stronger and longer lasting over time.

The primary objective of Jalacyn cosmeceutical: to give support and strength to collagen proteins.

The secondary objective: to stimulate the formation of neo-collagen.

Results: skin that's tauter, better toned, more moisturised and above all more pliant. Radiant right from the first application.

LIFTING ACTION

“5-cyclopeptide, the trendsetting peptide”

5-cyclopeptide is a peptide with an anti-age action that produces a reduction in wrinkles, an improvement in tone and an increase in the elasticity of the skin. It stimulates the production of the proteins in the cellular membrane while protecting the dermal structure from the enzymatic deterioration responsible for the depletion of collagen, day after day. Right from the first application, treatment with 5-cyclopeptide leads to skin that's smooth and lifted and with a reduction in wrinkles, which seem less noticeable and less deep.

NOURISHING, ENERGIZING, MOISTURIZING ACTION FOR A PERFECTLY NOURISHED SKIN.

*“Botanical science and modern
formulation techniques”*

Butters and oils from the most time-honoured traditions: Mediterranean, African, and the most highly-sought-after substances from the Amazon. Botanical science has given modern cosmetology ingredients that have a great affinity for the skin and an effectiveness that's unique and masterly. Açai, Buriti, Cupuaçu, Murumuru: all support the powerful JALACYN C57® complex with toning and remodelling action.
