PALAGINA, the best way to protect yourself!

For over 40 years, Palagina has been designing and delivering **insect screen solutions and solar shading systems**, aiming at providing the highest quality service and solutions to customers.

A new chapter has started in november 2022, entering into IN&OUT Holding that aim to be an european player, with a presence in more than 10 countries.

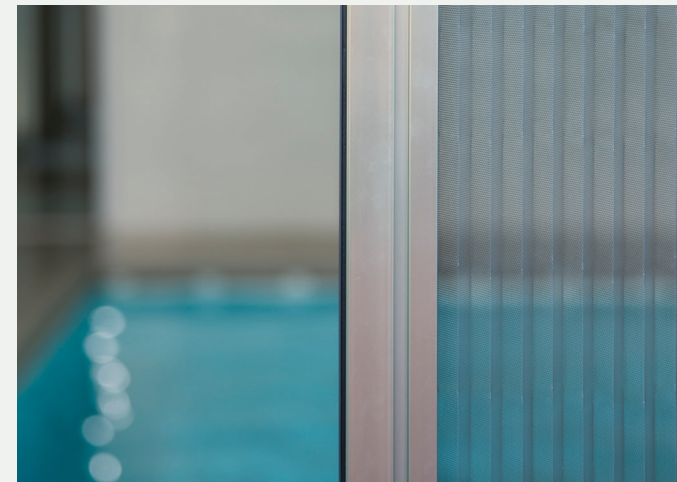

A new chapter has started in november 2022, entering into IN&OUT Holding that aim to be an european player, with a presence in more than 10 countries. Quality, technological innovation and customer commitment represent the beating heart of our products always driving the industry forward and shaping it for the future.

Custom-made solutions for your business: **from the bespoke manufactured product to the bar, self-assembly systems that can be easily customised and put together by our partners.** The exclusive patents, dies and moulds allow us to suit the exact business needs.

INSECT SCREENS

An high quality product line designed to be **easy to use**, offering maximum protection for your home. A variety of **rapid installation systems** combines technical know-how with an innovative and modern design, with no visible screws.

PLEATED INSECT SCREEN

Palagina completes its product range with the new Pleated line. **Six different sizes** for guaranteeing maximum practicality: from the 50 mm profile that protects openings up to 8m wide to the 13mm one, perfect if the space for installation is very reduced.

SINTESI LINE

Sintesi® summarizes the productive and innovative experiences of Palagina, redefining industry standards for mosquito nets suitable for doors.

No wires and no needs to adjustments are combined with simple, reliable and safe mechanics over time, thanks to its system with S-shaped chain and dimensions up to 2.30 meters for a single module, using the Extrema version.

OUTDOOR K.ZIP BLINDS

We are today one of the most acknowledged vertical solutions manufacturer, also thanks to our best-selling **K.zip system**; using our Know-how we have optimized the zipper ribbon blind and through new components of highly exclusive design we managed to reach **Class 6 wind resistance**. K.zip blinds are the perfect choice to cover wide openings, thanks to the **wide range of screen, darkening and mesh fabrics** they provide great functionality to control sunlight, heat and privacy.
