# OUR STRENGTHS

---

# RANGE OF PRODUCTS

---

We pledge to provide customers with **flexible** and **innovative solutions**

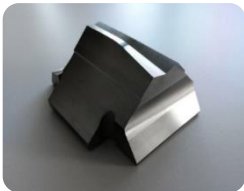

## 1. Metal Cutting Tools

## 2. Gauging Instrument

## 3. Clamping Systems

## 4. Forging Hammers and Mandrels

# AN INTERNATIONAL SALES NETWORK

---

## ► OUR MAIN CUSTOMERS

- Worldwide equipment manufacturers
- Wheels original manufacturers
- Aftermarket sellers
- Local agents and distributors

# PRODUCTION CAPACITY

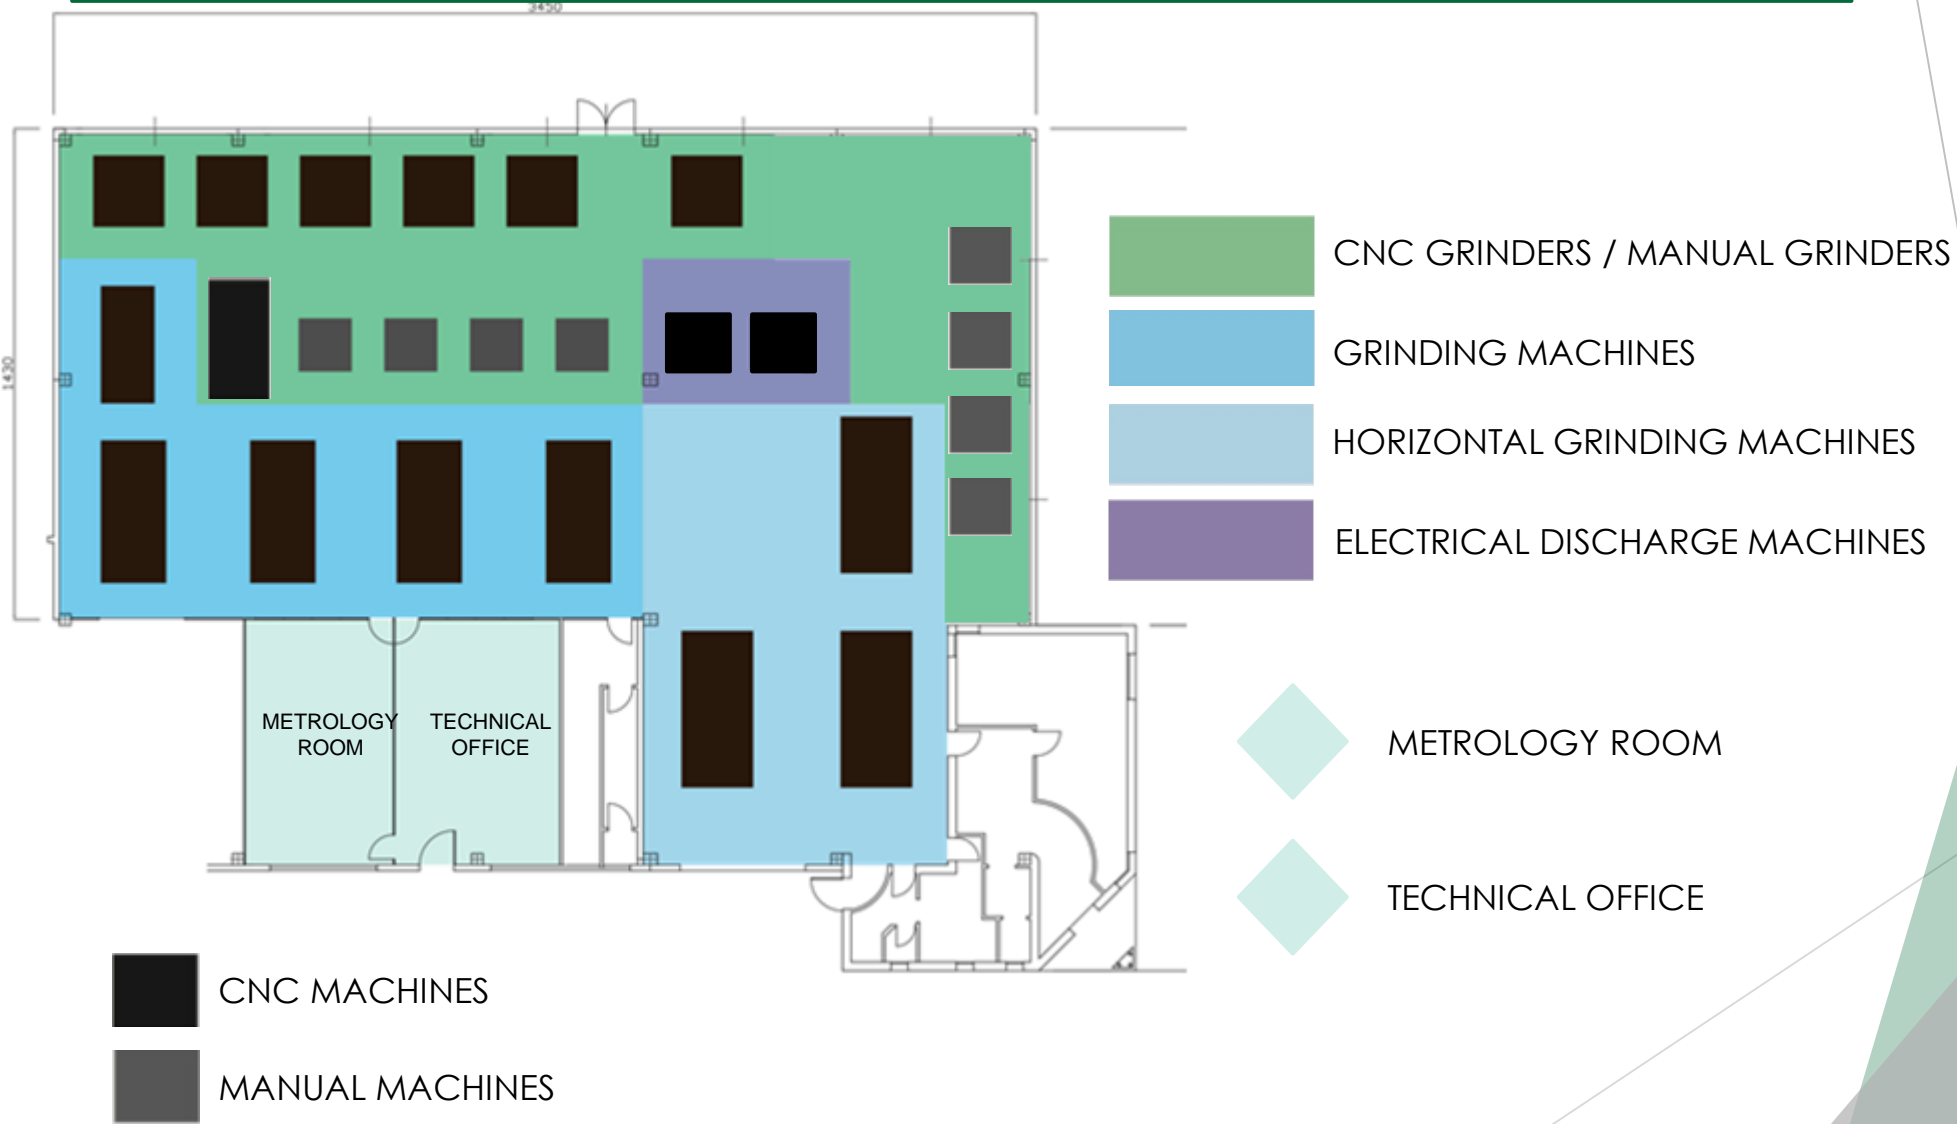

---

## ► PLANTS

**Two production facilities** occupying a covered area of **over 5,000 sqm.**

# PLANT 1

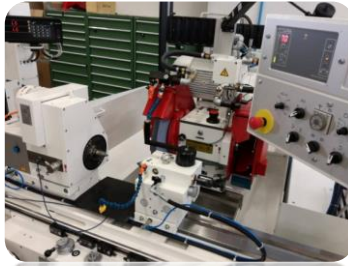

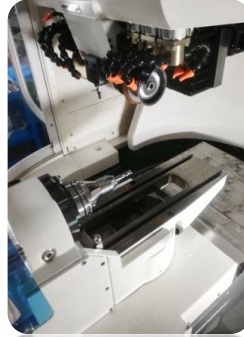

# EQUIPMENT

## ▶ PLANT 1

- CNC grinders
- Manual grinders

- CNC grinding machines
- Horizontal grinding machines

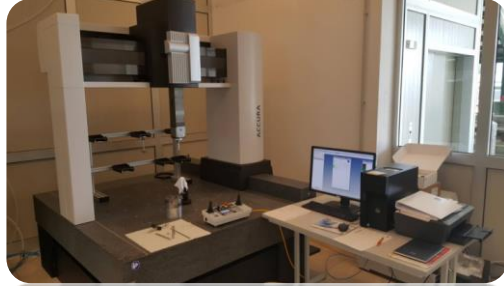

- Sinker electrical discharge machines
- Wire electrical discharge machines

# EQUIPMENT

---

## ▶ PLANT 1

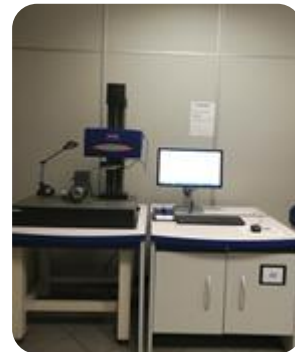

- Bridge Coordinate Measuring Machines

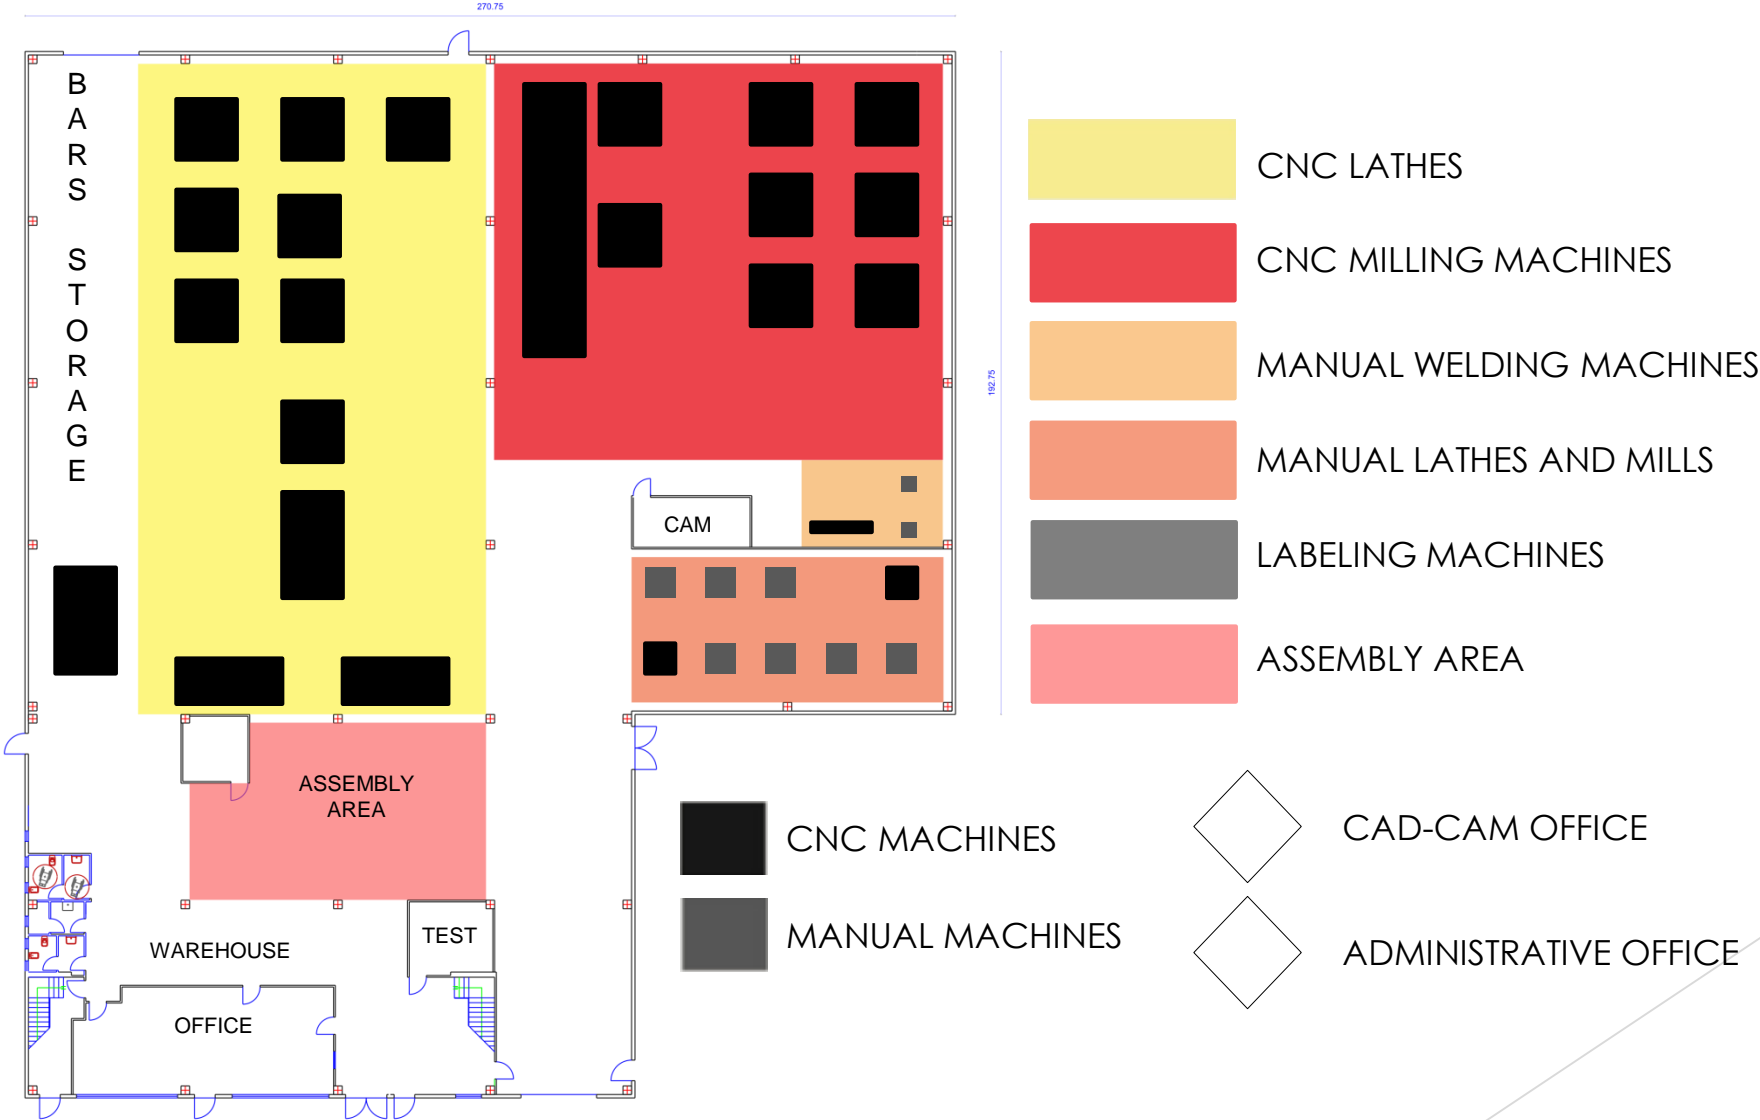

- Measuring machine for macro ranges

- Surface profilers
- Roundness profilers

# PLANT 2

# EQUIPMENT

## ▶ PLANT 2

- CNC lathes
- CNC milling machines

- Manual lathes and mills
- Welding machines

- Assembly area

# STRUCTURE & SERVICES

---

PRODUCTION  
80 workers

SALES DEPARTMENT

- Quotations
- Prices
- Customer care

INTERNATIONAL SALES

- Foreign quotations and contracts
- Customer care
- Foreign shipments

WAREHOUSE

- Goods delivery
- Goods acceptance
- Shipping information

# STRUCTURE & SERVICES

---

## TECHNICAL OFFICE

- Faisability studies
  - Technical drawings
  - Technical assistance
- 

## METROLOGY

- Test reports
  - Compliance certificates
- 

## PURCHASING OFFICE

- Purchase of materials
  - Sourcing new parts for equipment
- 

## QUALITY SYSTEM MANAGEMENT

- Non-conformance management
  - Compliance management
-

# RESEARCH AND DEVELOPMENT

---

Valentini Utensili Speciali Srl invests in innovation: 10% of the company's turnover is committed to R&D projects every year

- **2002**

Valentini Utensili Speciali obtains its first patent concerning a new tool for chip-forming machining of workpieces made of light alloys

---

- **2008**

Valentini strengthens its production capacity and creates a second plant for turning and milling operations

---

- **2016**

Valentini works for the Italian Institute for Nuclear Physics to develop a small mechanical component to be used on medical probes measuring radiations of cancer therapies

---

# RESEARCH AND DEVELOPMENT

---

- **2016**  
Valentini strengthens its business partnership with Marposs Italia Spa and creates the Unimar – Marposs assembly area
- 

- **2019**  
Valentini successfully implements the quality management system ISO 9001:2015
- 

- **2019**  
Valentini obtains a second patent relating to a metal structure for performing machining operations finding beneficial application in the manufacture of cutting tools for chip removal machines
