LEONORI

GIOIELLI

*At the hearth of every Leonori piece is a fine craftsmanship.
Being entirely handmade, Leonori jewels are unique.
The colour and size may slightly vary from one creation to another.*

HERITAGE

Founded in Italy in 1962,
Leonori Maison creates exclusive jewels with
coloured gemstones of the highest quality.
Leonori has embraced these characteristics from the start,
when his founder Agostino Leonori transformed intense
chromatic explosions and elegant tonal
nuances into a house specialty.

His love for art, for craftsmanship and
goldsmith led him to a rigorous study and a
careful search for the rarest and most precious
gems such as emeralds, sapphires and rubies,
which can be found at the heart of every jewelry piece.

After more than half a century,
Italian Maison Leonori, run by the third generation of the family,
is synonymous with excellence in high jewellery.

Highly skilled craftsmanship, cutting-edge savoir faire
in continuous evolution, a constant experimentation with
the rarest of stones influences all of Leonori's
collections and unique pieces.

Leonori puts the most precious gems at the center
of all of its creations and gets inspiration from modern women,
from their boldness and sensuality,
to create pieces that are elegant, timeless and ultra-feminine.

LOVE FOR COLOURS

For nearly sixty years Leonori has been selecting precious, coloured stones for every creation.

It realises unique jewels with original and constantly evolving design, with the aim of creative works of art that will gain value over time.

SAVOIR FAIRE

Leonori Maison is among the few which can proudly attest to its Italian roots: from start to finish, each jewellery piece honours traditional craftsmanship by harnessing the technical skills typical of the Italian craftsmen of the past.

After sourcing the most precious gems from all over the world, the jewellery creation process begins with a sketch that depicts the original design idea, which is followed by a detailed drawing representing the stones' proportions and measurements.

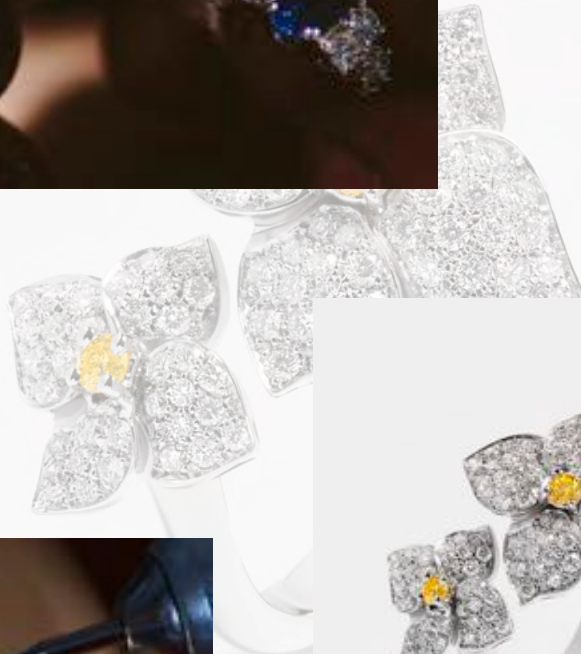

Using the creativity and manual skills of the jeweller, the next production stage involves the creation of the jewel's structure in precious metal.

Finally, the setter positions the precious stones with meticulous precision before the jewel is polished and rhodium-plated to enhance its brilliance.

The end result consists in an unmistakably unique masterpiece to be passed down from one generation to the next.

"The love for jewelry and art, the creativity and the manual skills are part of my genetics. My father, Agostino, passed on these values to me and I passed on the same passion for the craft to my daughters."

Cesare Leonori, Chairman

VICTORIA COLLECTION

A unique collection of High-end Jewelry
is the latest creation by Leonori.

A precious embroidery of white diamonds
that enhances the design of each piece.

Victoria collection celebrates the beauty and takes
the name of the last newborn in the Maison Leonori:
Baby Victoria.

VICTORIA COLLECTION

ORTENSIA COLLECTION

ORTENSIA COLLECTION

This Collection is inspired by the blossom
of the Hydrangeas flowers also called Hortensia.

As romantic as it sounds,
this is a unique collection,
where the difference of each petal exalts
the Italian craftsmanship
of the creation.

As a flower in a garden,
the two flowers in the ring
do not touch each other, but they
are rather intertwined to exalt their beauty.

PEONIA COLLECTION

The Peony Collection mirrors nature's beauty found in the Peony flower.

A symbol of good luck, the Peony embodies love, affection, peace and nobility of mind.

The volume of the precious stones used to recreate the inclination of the petals and the detail of the setting of the pink or blue sapphires with the diamonds make this piece a true work of art.

PEONIA COLLECTION

LEOFLOWER COLLECTION

A new Leonori Collection is blooming:
the LeoFlower Collection.

Born from the spring vibes, this sparkling
new line is a combination of the five-petal
flower motif and the uniqueness
of the coloured gemstone.

The precious carved flower crafted
with white diamonds intersects a diamond
in the shape of a dewdrop.

An alluring design to enhance female beauty
and blend the timeless with the contemporary.

The LeoFlower Collection can be customized.
On request in white gold and yellow gold
and with a different coloured gemstone.

VIOLETTA COLLECTION

Pink sapphires, rubellites and rubies are the new protagonists of Leonori new High Jewelry collection, Violetta.

Their chromatic combination, sometimes opulent and sensual, is one of the distinctive features of Leonori Maison which, since the 1960s, transforms stones into treasures to make women sparkle.

A signature of the brand that in this collection wants to reflect the warm tones of floral landscapes so dear to the Maison.

A stunning one-of-a-kind ring that pays tribute to women and their natural elegance.

This unique piece narrates the union
of two opposites that complement one
other with the distinctive touch of Leonori:

the unequivocally Italian understated design
and the exuberant irregularity of the gemstones.

A ring with a Tanzanite cabochon
that pays tribute to the 70's.

VICTORIA COLLECTION

Ring in 18k white gold with 244 diamonds (1,20 G ct.) and a central fancy diamond (1,01 ct.)
