

**DREAM
DESIGN
PLAY**

SOMERSAULT

A FAMILY company

As it is often the case, **curiosity** and **craftsmanship** were our driving forces: it all started when our founder Gabriele Cervellini glimpsed at some people “flying” near a neighboring house; they were just jumping on a trampoline. What he saw charmed him to the point that he himself decided to **start building them**.

As he kept manufacturing and selling on the market, his main concern was investigating trampoline flaws to eliminate, increasing product safety, and therefore establishing a continuous **improvement** process. **Meticulousness** was his hallmark.

Nowadays, Somersault is well-known as a **trustworthy** manufacturer of **up-market** playground solutions which is committed to meeting customer’s needs.

Mission & Vision

Somersault has always supported businessmen involved in the industry of attractions, **listening** to each client's needs. By doing this, Somersault can provide **distinctive** solutions.

This is our policy: working in close contact with our customers, in order to better understand their requirements.

Our **vision** is to create a world where playgrounds are different from one another.

The main **values** underpinning our company are reliability, craftsmanship and customization.

DESIGN your own solution

Outdoor mountain park or **retail** play structure?
Pirate ship or **princess** castle?

We shape **ideas** paying close attention to your specific **needs**: we manufacture **up-market solutions** which dovetails with any kind of environment. We design each product **together** with our client, never overlooking the **target audience**.

The offer our team will provide is just a starting point: you can change any aspect of the product, such as **size, design, pattern** or **colors**.

Whether the theme is traditional or extravagant, we guarantee you an amazing result!

*The solution you are looking for is not in a catalogue,
you have to create your own!*

Dream, design, play!

1 2 3 4

Over the years we have always focused on the implementation of systems allowing our brand to stand out from competitors in terms of **reliability** and **endurance**: thanks to our ongoing R&D process, we handcraft solutions able to endure tough use **from one generation to the next**.

The output is a playground where adults and children can train and have **fun** in total **safety**.

QUALITY leap

The **hot-dip galvanized** framework ensures durability for **decades**, both in case of indoor or outdoor usage.

Our research activities allowed us to develop a unique net and anchorage system which improve **elasticity** and **efficiency**, thus providing the **best jump experience** (jumping is definitely “believing” when it comes to our trampolines)!

Furthermore, an **extended duration** is guaranteed by the reduced friction between the net and the clamps.

Our founder filed **patent** for his invention in 1997.

Our **hand-crafted** manufacturing is our strength: by managing the entire production process, we can provide our customers with tailor-made solutions, fitting their specific requirements. Thanks to our expertise, we are able to recommend solutions that enhance the “**playing**” experience!

Whether there is already an idea or you have to start from scratch, our designers will **support** your project all the way through.

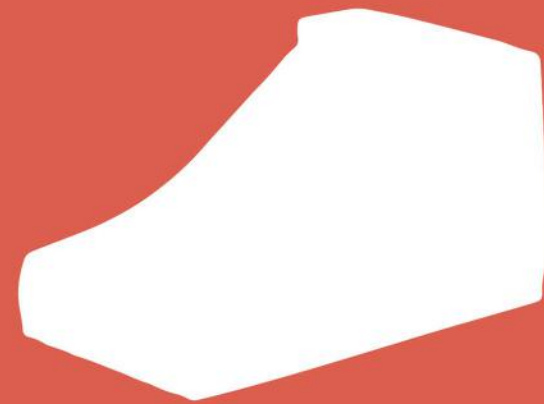

INFLATABLE DESIGN

GIVE it a life

Since our end-users are mainly children, **safety** is our top priority: the inner core of our inflatables is **reinforced** with three double-needle stitchings all the way round the perimeter. This assures strength and **high-performance!**

Production is totally **Made in Italy** and raw materials come from Italy or the EU area. The PVC is fireproof and non-toxic, in line with the UNI EN 11176 standards as well as the inks used for decoration.

Slides, bouncy castles, space shuttles, pirate ships, tropical islands...

All you have to do is **choose your favorite**, or **take them all!**

When a playground is designed properly, it **supports children's** comprehensive **development**: benefits can be observed in the cognitive, emotional, social and physical sphere. This way, kids experience a complete, dynamic growth path. Playground solutions are implemented **together with the customers**, in order to better match their demand.

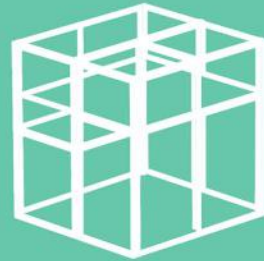

Create your own leisure park suitable for children of different ages and equip your structure with valuable play equipments!

PLAYGROUNDS

CHOOSE your way

360x720x360cm + 840x360x360cm

Electro-galvanization confers to the framework of each module a better product yield and improved stability. The structure is designed to **inspire children's** amusement, supporting the development of spatial and social skills. Raw materials are of Italian and EU origin, guarantee of **longevity** and **reliability**.

Thanks to the modular design, every outcome is adapted to space and style: choose **colors**, **themes** and **upgrade** the basic structure with slides, climbs and ball pits!

The see-through layout allows parents to watch over their kids, while doing otherwise.

Do you want to communicate something? Express your **name** or **values** and people will never forget about it!

This is our brand new creation. Our goal was to come up with something capable of making each park **unique** in style and features, a playground with the “*WOW effect*”.

We did it?!

PLAY ON WORDS

NAME your GAME

Are you tired of seeing the same playgrounds everywhere?
Are you looking for something **different**, something **new**?

Choose the word that best represents your reality and get your **branded playground** area! Your company name, a slogan, you choose what to say. This is the perfect option for place branding but it can be adapted to many different situations.

The wooden structure can offer different challenges: climbing ropes, slides, tunnels... Once defined the letters, we will recommend you all the possible ways. The playground is suitable for outdoor use but also for indoor play areas since it undergoes specific treatments that make it **waterproof** and **fireproof**.

You can already see children play on it, can't you?
