

ELIGROUP
naval service network

YACHT DIVISION

COMPANY

ELIGROUP® IS EXCELLENCE IN MARITIME INDUSTRY FOR 70 YEARS.

Specialized in maintenance and installation of electrical and electronic systems, it has been strongly appreciated by the maritime market also as a distributor and installer of a variety of equipment for navigation, communication and safety.

We offer our customers the highest level of service H24.

ELIGROUP® YACHT DIVISION was established in 2000, in response to the increasing market demand for bigger and bigger yachts, that are more and more comparable to ships in terms of size, complexity of the systems, and degree of automation.

The latest born in Eligroup, the **INTERIOR DESIGN DIVISION** has already been appreciated as one of the leading companies in the yacht furnishing sector.

WHERE WE ARE

ELIGROUP® facilities cover an area of approximately 2000 sqm that includes offices, workshop, warehouse and electronic laboratory.

Strategic is also the geographical position of the company that is located at central area of Port of Naples.

It is one of the oldest and largest seaports of the entire Mediterranean Sea having an annual traffic capacity of around 25 million tons of cargo and 500,000 TEU's.

It is a port that lives every day an intense maritime traffic, with the departure and the arrival of large cruise ships, many ferries and a great deal of hydrofoils to the islands of the gulf of Naples (Ischia, Capri and Procida).

Eligroup's services extend also to customer support on site.

PRODUCTS

CCTV SYSTEM

The integrated Eligroup control system is designed to be fit to our clients, to meet their specific surveillance needs. Our systems are compliant with the required legislative and technical standards. Thanks to the user-friendliness of our systems, one single operator in the cabin can view the function of the entire yacht and control the cameras through clear and immediate commands. Our systems are a scalable harsh environment marine CCTV suitable for a variety of high performance yacht.

PRODUCTS

NIGHT VISION SYSTEMS

Starlight Italia is the manufacturer of the PREDATOR series of day and night vision camera systems installed worldwide on superyachts, workboats, high-speed craft, Coast Guard ships, fast patrol vessels and research vessels. Starlight NVs are used for night navigation, searching of small targets, rescue, anti-piracy. Since 2005 we have been exclusive suppliers of Starlight solutions for maritime safety and marine intelligence. Some of the technologies include: HD resolution, focus stacking, 360 surveillance, automatic target detection, tracking, shape estimation, image stabilization, image recognition.

PRODUCTS

PUBLIC ADDRESS - INTERCOM SYSTEM

ELIGROUP® sound management solution, integrates emergency and general purpose broadcast functions, enables background music and general or zone calls. The system has all the functional features provided by more expensive competitors, including an emergency microphone, class D power amplifiers and a message generator. Specifically designed by Eligroup for use by megayachts, it supports prioritized communication of public announcements, alarms, emergency and safety messages. The system has recently been updated, tested and installed on over 200 yachts and the ICS has received approval from R.I.NA. with no. ELE174604CS.
