

CADINI

MADE IN ITALY

LOOKBOOK

FALL-WINTER 2023/24

Opulence, nature and flexibility are the keywords of the new Cadini Fall/Winter 2023-24 Collection. Three terms with an important meaning that represent the stylistic sense of the new season, highlighting the core values of the brand: quality, sustainability and versatility.

The Made in Italy identity is reflected in the meticulous research of the perfect raw materials, models and nuances. In fact, it is the attention to detail that makes the quality of a garment and Cadini is fully aware of this.

With a well-defined, but delicate colour palette, the new collection re-proposes its essence in every shade. Brilliant lavender colour, symbol of luxury and well-being, dusty red, which refers to space, cobalt blue, an indication of innovation and modernity, sage green, which brings us back to contact with nature, an unusual apricot color which, with its eccentric touch, are all the new colours of the collection that give originality to Cadini formality.

This is how the new collection develops, finding a perfect balance between garments that no longer have a single reason for living. Indeed, the new Cadini trend is precisely this: proposing garments for multiple occasions of use, entrusting its customers with the freedom to wear them as and when they prefer.

New style concepts are born, relying on the brand's extraordinary versatility. Thus, for Fall/Winter 2023-24, we see, as protagonist the so-called Overshirt, which overturns the idea of a formal shirt, transforming it into a garment that can combine with any type of look, for a modern and elegant style. We have also introduced the formal-cargo trousers and the iconic Safari jacket, revisited and re-proposed in a completely innovative style, velvet, which highlights the incomparable quality and uniqueness of the garment, the perfect combo for the typical Cadini man, who does not give up comfort even in the office.

But this is not all! After years of research, Cadini re-proposes a new Outwear line and presents the new Sport line, to complete the look of its ideal man.

With a wide range of models and styles, Cadini outerwear is made in genuine leather, such as the luxurious Plungè leather, and in 100% Made in Italy fabrics which, once again, confirm their indisputable quality. Similarly, the Sport line introduces 100% cotton fleece garments to the brand's offer, for an elegance suitable for everyday comfort.

It is now clear how Cadini manages to combine balance, harmony and elegance together with functionality, practicality and the highest quality of materials, making each garment unique and timeless.

Since 1970, Cadini has successfully designed and produced men's garments and accessories, combining innovation and craftsmanship through the experts hands of Italian artisans. Based in Florence, the brand embodies the values and supreme quality that distinguish the Made in Italy, blending modern creativity and ancient skills.
