MADE IN ITALY

LOOKBOOK

SPRING-SUMMER 2023

The Cadini Spring/Summer collection 2023 draws attention to colors and nuances that evoke emotions and pleasant feelings.

The collection is an elegant blend between the colors of the moment: Digital Lavander, sign of stability and healing; Sundial, emblem of authenticity and community; Lucious Red that reflects energy; Tranquil Blue that recalls a sense of calmness and clarity and finally Verdigris, a color that aims to bridge the gap between the retro nostalgia and the digital era.

With this new collection, Cadini celebrates its vision of timeless elegance while glimpsing at the future.

With a fresh touch, but still taking to heart its rooted values of quality, gracefulness and style, Cadini presents a selection of products that perfectly adapts to the various occasions and settings.

A combination of colors and patterns and a balance between formal and casual is what makes this collection original, giving to the Cadini man the possibility to adapt to any situation.

The Etruscan horse is at the centre of the attention on the T-shirt with a colorful shade range for casual occasions, but with the possibility to be paired with an elegant jacket for more sophisticated environments.

The iconic symbol of Cadini is represented as well on the back pocket of the Jeans, making it an elegant yet modern piece.

The versatility of all the products and the various range of patterns, fabrics and colors make this collection a passepartout to let the Cadini man stand out in every occasion.

Since 1970, Cadini has successfully designed and produced men's garments and accessories, combining innovation and craftsmanship through the expert hands of Italian artisans.

Based in Florence, the brand embodies the values and supreme quality that distinguish the Made in Italy, blending modern creativity and ancient skills.
