SINCE 2001 A SUCCESS STORY

COMPANY HISTORY

L:A:S was born in 2001 by the brothers **Fabio and Daniele Lattanzi**, united by their interest in technology, fashion and art.

They initially started their business, working in the footwear and leather goods sector. Through the years, they became a consolidated partner of the biggest brands.

With their strong entrepreneurship, they have successfully introduced the **laser** technology in the Automotive Interior and **Home Décor** sector, by focusing on design and contemporary.

TEAM

Enthusiasm and inventiveness are the hallmarks of every L:A:S worker.

A winning, **young** and specialized team: from the brilliant designers, through skilled **craftsmen** and decorators, until technical experts of laser machine.

Everybody offer their valuable input, creating the exclusive L:A:S creations, which are traditionally appreciated worldwide.

LOOK TO THE FUTURE SAVING TRADITIONS

TRADITION

Each L:A:S creation has inside the prestigious award of “**Artistic Handicrafts**”, because our production combines handicraft and artistic skills, with creativity and innovation.

Artworks that include the priceless value of handwork by master craftsmen.

Furnishings, pictures, wall vases, mirrors and wall clocks devised for the space, the taste and the demands of those people which live the house.

INNOVATION

10 **laser** machines on 2 operational units, with a total area of 3000 square meters.

A company structure designed following the most modern and smart technology (MES and CRM, first and foremost), that make L:A:S a real **Industry 4.0**.

Finally, thanks to our **know-how** in techniques of cut and engraving laser, the design and the fashion trends revive in the L:A:S collections.

QUALITY

All our company processes are performed in our workroom, from the design to the manufacture.

So each product comes with its 100% **Made in Italy** certificate. In fact L:A:S is enrolled in the National Register of Italian Producers (ITPI), in accordance with IT01 – 100% Original Italian Quality System.

L:A:S is also a member of the trade association **FederlegnoArredo** (FLA), which is the heart of the Italian wood and furniture field.

CORPORATE STRUCTURE ALL ABOUT CUSTOMER SERVICE

TAKE GOOD CARE OF YOUR L:A:S

MATERIALS

Each L:A:S creation is made of **MDF** (Medium Density Fibreboard).

The fibreboard is cut and engraved by laser, creating the L:A:S masterpieces.

We also use veneered MDF with **oak** wood, in "natural wood" and "grey wood" finishes.

In some product lines, there are certain elements made in **stainless steel** or in **iron**; other are hand-decorated using acrylics and three-dimensional mortar.

Finally, each L:A:S creation is varnished, with water-soluble paint, high-performing with a low environmental impact.

PLACEMENT AND CLEANING

Following advice like this, you can preserve the charm of each L:A:S creation.

In order to prevent the deformation of the MDF and the deterioration of the lacquerings and decorations, we advise against the placement:

- in wet rooms (e.g.: bathroom)
- in the vicinity of heat source (e.g.: fireplace, radiator)
- in outdoors(e.g.: arbours, balconies)

We advise you instead:

- to clean with a feather duster and to dry with care
- to avoid use of hard detergent and spray
- don't absolutely use products containing solvents (e.g.: acetone, ammonia)
