

Kopafood Srl

The great tradition of italian dressings

Company Profile

Company History

Kopafood srl was founded in 2016 in Lodi city, from a great entrepreneurial team of professionals in the agro-food sector. The company is specialized in the production of food dressings.

Our fundamental values of passion, experience, intuition and foresight helped us to immediately understand what products in future would have recorded significant growth on international markets.

Our values

- Genuineness
 - Research
 - Tradition

Our intent is to bring back to light forgotten old scents and flavors, surprisingly timeless, for a modern Mediterranean dietetics, always more attentive to the authenticity.

The company pays attention to the research of guaranteed suppliers and to the selection of each ingredient, to offer to its customers the certainty of an extremely healthy and genuine product from all points of view.

Kopafood is now recognized locally and internationally and is proud to make worldwide Lodi area's tradition be appreciated through its own products.

Made In Italy

Essence

Made in Italy is a worldwide concept proposing itself fine quality, authenticity, elegance and creativity.

Italian manufacture has always been recognized as a synonym for its excellence and craftsmanship.

We pay great attention to the details that make the difference. We have always aimed at differentiation to expand our market niche, focusing on medium-high segments. We protect our clients using *ad hoc* resources (such as specific knowledge or new materials for processing) for granting high quality products.

Vision

To be preferred business partner to the entire suppliers by providing them products and services of outstanding value for mutual satisfaction.

Mission

Raise customer awareness to the importance of high quality of raw materials, encouraging the local tradition in order to promote authentic Italian food culture.

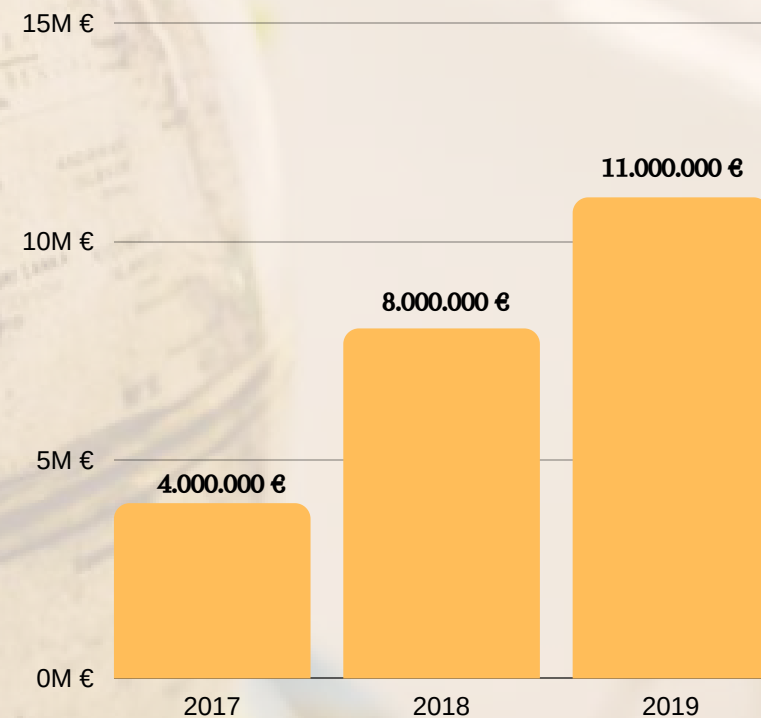

International growth

Our latest business turnover has been supported by careful market analyses and continuous investments not only in local fairs but especially in international trade fairs such as Anuga (Cologne), PLMA (Amsterdam), Bellavita (London), PLMA (Shanghai).

In June 2018 Kopafood decided to acquire a business unit of the company **GranSapori srl**, already known and appreciated worldwide by many operators for its line of flavored condiments, balsamic vinegars and glazes.

The improvement of the production capacity and the acquisition of the *know-how* have allowed us to enter new markets, such as Japan and the United States.

Company Business Turnover

Manufacturing Department

Kopafood can rely on well-organized manufacturing department, in which every single process is carried out using specialized equipment and highly trained personnel.

- **Stock** : raw materials - finished product
- **Blending Machine** controls automatically dosage and blending of raw materials to guarantee the quality of production batches.
- **Cleaning in Place (CIP)**: food safety is our priority. We use the CIP cleaning method to control the cleaning parameters with very high accuracy.

Bottling Department

Final step before finished product.

In this department we have:

- **Automated Line** for glass bottle
- **Automatic Dedicated Line** for special size bottle and balsamic glaze bottle.
- **Quality Control System:** label position, production batch, EAN code.

Our personnel constantly organizes production planning in order to meet our customers' requirements promptly.

We create your private label

Are you looking for innovative skills, private label know-how and creative solutions?

Kopafood as customer-oriented company offers this service to its clients. Our purpose is to transform your specific demands into high quality products respecting all applicable regulations. We create your exclusive customized line of condiments with your own brand and logo. Private labeling allows you to create your personal identity.

Be exclusive, not only different.

Employee Support Team

In employees we trust. We believe that business and productivity are closely related to employees motivation.

If employees cooperate in order to achieve goals together, both them and the company will benefit.

This is the reason why we have decided to add new external commercial collaborators to our staff, experts in the agro-food sector. Their technical soft skills have allowed us to access in the pan-European and extra-EU market, crucial for our business development.

Certified Quality Products

Our production is certified according to IFS Food and BRC voluntary standards and it is also submitted to the biological quality control system by Bioagricert, Institution body authorized for organic certification.
