

COMPANY PROFILE

acetaia
guerzoni

WHO WE ARE

Acetaia Guerzoni produces Traditional Balsamic Vinegar of Modena PDO, Balsamic Vinegar of Modena PGI, Wine and Apple Vinegars, Condiments, Grape Musts and Saba (cooked grape must), all coming from the family farm and the surrounding territories, from organic and biodynamic cultivation.

HISTORY AND CULTURE

The company born in 1970 by its founders Felice Guerzoni and Iride Bardeschi, who decided to focus, ahead of their time, on organic and biodynamic cultivations, not as a marketing strategy but out of conviction and sensitivity to the environmental sustainability and consumer health.

Today, the son Lorenzo Guerzoni, CEO of "Acetaia Guerzoni", carries on this important cultural legacy with dedication and modernity.

MISSION AND VISION

Our mission is “the natural tastiness”:

To produce products faithful to tradition with the aim of transmitting to everyone the taste of the past and the spirit of our territory;

Do not bend nature to our will, but listen to it and be guided by it.

We aspire to become the reference partner for all those who decide to share our values.

OUR VALUES

Our values are passion for product and tradition, care for quality and continuous attention to sustainability, in every business process.

We have expanded our offer with various condiments created by us, but after all, what is tradition if not a successful innovation?

OUR PRODUCTS

OUR BRAND ARE:

Guerzoni

S A N T A
CATERINA

We are also present on the market with various private labels.

Our packaging is in different formats, including bottles, tanks, drums and bag-in-boxes, to meet the needs of different distribution channels, such as specialized organic shops, Ho.Re.Ca., Retail and Supermarkets.

WHY CHOOSE US

We use only very high-quality raw materials, controlled and selected with a short supply chain.

Our processes are carried out following the rules of tradition, using direct fire and open-air cooking processes.

We do not use dyes or preservatives in any of the production phases. Our products are free of allergens, such as sulphites, thanks to fresh raw materials processing.
