

## RN 80 - Green

SOCCORSO / RECOVERY

Equipment for the forced applied removal fixed on trucks from 3500 to 7500 Kg. of Total ground weight. - **Methane and/or gas feeding.** Loading area covered with corrugated aluminium sheets. - N° 4 Oil Hydraulic Outriggers Whit Automatic Independent Descent Manual Extension. - Telescopic Crane Boom With Two Rotating Hydraulic Boom At 240° On Double Bearing Disc, Activated By A Hydraulic Self Breaking System - Oil tank complete with filter, pump, p t o, pipes and fittings. - Direct Oil Hydraulic Lever Commands With Light - Adjustable Rocker Arm - N° 4 Nylon Straps. - N° 2 Bars For Vehicle Lifting - Spacer Traingle Convertible Into Adjustable Towing Bar - Rear Mud Guards With Splash Guards - Tool Box. - Spare Wheel Holder - Varnishing On Request - In Compliance With Ec Rules And Regulations CE

### ACCESSORI

'American' lighting equipment - Winch With Rope And Rope Press, Rope Round Up 25mt. Diam. 10mm, Towing Capacity 2700 Kg - Double trolley. 3 / 4 telescopic extension - REAR FORK DOUBLE SLIDE OIL DINAMIC. - Certification I.S.P.E.S.L. - M.C.T.C. Test

## HS DG I 20 RS - Green

SOCCORSO / RECOVERY

### SERIAL OUTFITS

Equipment for Road Emergencies, sliding / tilting and applicable on trucks 10000 to 12000 Kg. of total ground weight. - **Methane and/or gas feeding.** Loading Platform Mouveable Covered With Steel. - Winch With Rope And Rope Press, Rope Round Up 30mt. Diam. 12mm, Towing Capacity 4500 - Oil tank complete with filter, pump, p t o, pipes and fittings. - Direct Oil Hydraulic Lever Commands With Light, - Hand Accelerator In Rear Position On Command Console (Where Possible). - N° 2 Fixed Front Wedges, N° 2 Belts With Turnbuckle And Rear Ramps. - White Working Light, Rear Mud Guards With Splash Guards, Tool Box, Spare Wheel Holder. Lateral Foot Boards, Return Pully For Deflected Tows, Varnishing On Request, In Compliance With Ec Rules And Regulations. CE

### OPTIONAL

'American' lighting equipment - Traslazione idraulica del verricello (dx/sx) - Remote Control - Sliding hydraulic winch - Hydraulic boom on platform - 2 telescopic extensions - rear hydraulic stabilizers - rear hydraulic platforms - double level for the transport of a second car. - Towing set up with homologated sphere hook - Covered in Zinc. M.C.T.C. Test) - **Street cleaning kit.**

## ROSPO 1/2

SOCCORSO / RECOVERY

### SERIAL OUTFITS

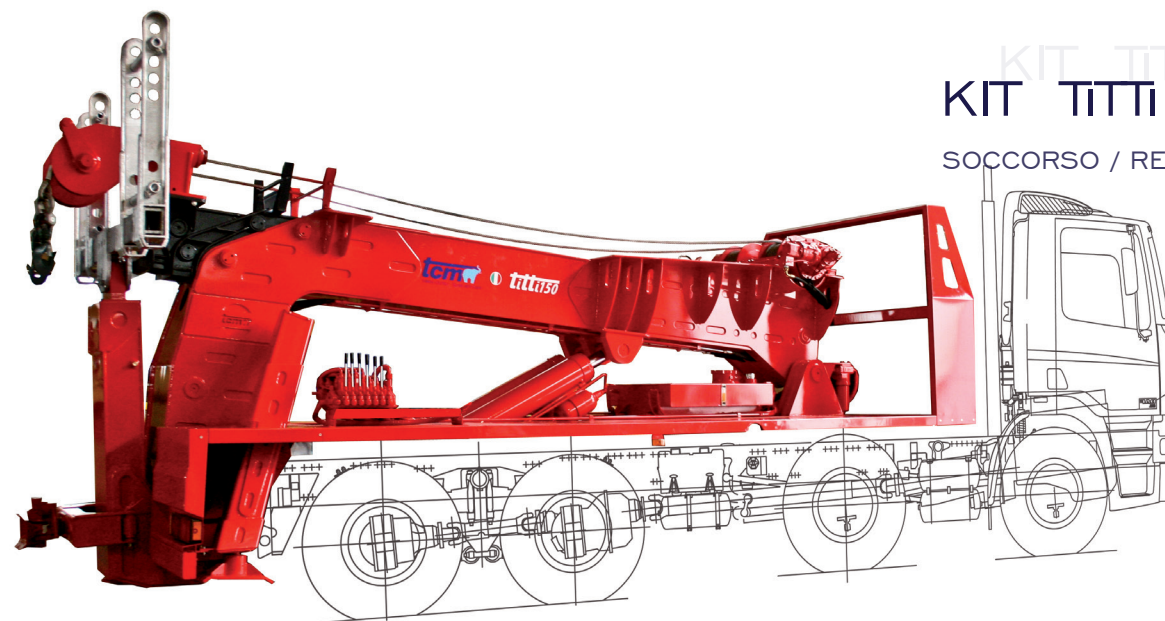

Rospo equipment has been designed to tow damaged heavy vehicles, lifting them both from the front or rear axle. When placed on rest position, it doesn't prevent from using the original towing bell of the vehicle. It can be mounted on 3- 4 axles chassis, with the presence or not of the lifting crane. Varnishing on request - N° 2 orange swivelling lights - N° 2 rear working lights - Kit Tool box - Compliance with CE regulations. Towing winch with 18 mm rope 15000 Kg tow

### OPTIONAL

Heavy towing bar 'eye-eye'. Idraulic block rear suspension. - Towing bell - 'American' lighting equipment - Pneumatic ON /OFF towing winch - 6 function radiocomand for fork - M.C.T.C. Test

## KIT TITI I 50

SOCCORSO / RECOVERY

### SERIAL OUTFITS

The **TITTI 150** equipment in kit is applicable on cab trucks with 3 or more axles. - central mounted crane with hydraulic lifting - 1 or 2 winches 20t with 50m of steel wire rope with hook - control distributor with levers - side marker lamps - ON-OFF radio remote control.

### OPTIONAL

Electronic accelerator or manual use with pulleys and cable. positive / negative jack, **Street cleaning kit,** box kit - rear stabilizers.

## TITI I 50

SOCCORSO / RECOVERY

### SERIAL OUTFITS

The **TITTI 150** equipment is applicable on cab trucks with 3 or more axles. Thanks to the ease use, it is suitable for the recovery and transport of heavy vehicles by lifting the axles. the special movement of the arm of the fork makes easy recovery of vehicles with very limited ground clearance. to allow towing without reducing the axis (or axes) of the towing vehicle, the equipment is equipped with self-steering wheels. Central crane arm with hydraulic lift - 2 rear hydraulic stabilizers - 1 or 2 winches from 20t with 50m of steel wire rope with hook - control distributor with levers - side marker lamps - ON-OFF radio remote control.

### OPTIONAL

Electronic accelerator or manual use with pulleys and cable. positive / negative jack, **Street cleaning kit,** box kit - rear stabilizers.

## C 400 ROSPO 1/2

SOCCORSO / RECOVERY

### SERIAL OUTFITS

The oil-hydraulic crane can be C 400 ROSPO 1/2 installed, by means of the interposition of an adequate chassis, on commercial vehicle truck chassis. 2 Control boxes with shutter - 4 Outrigger support plates in steel - Varnishing on request - Movable ladder for access to cabin - Rear mud guards in anti-skid aluminium - Anti-skid covering in aluminium on beam boxes of outriggers - Heating in cabin - Tool box - 4 Obstruction lights on the sliding beams of the outriggers - 2 Orange revolving lights on the driving cabin - 2 Rear working lights - 1 Working light on crane manoeuvre cabin - In compliance with CE norms

### OPTIONAL

Heavy towing bar 'eye-eye', Rocker arm, adjustable in width, capacity 30 ton, 'American' lighting equipment, Pneumatic ON /OFF towing winch, Camera with video in driving cabin - Camera with video for winch control

FLORIDA

SOCCORSO / RECOVERY

#### SERIAL OUTFITS

Preparation for Road Emergencies, trucks, hook up's are applicable for cab's with 5000 kg. of total ground weight.- Loading Platform Mouveable Covered With Alluminium Panels And Central Strip In Steel - Winch With Rope And Rope Press,Rope Round Up 25mt. Diam.10mm,Towing Capacity 2700 Kg - .Direct Oil Hydraulic Lever Commands With Light - Hand Accelerator In Rear Position On Command Console (Where Possible) - N°2 Fixed Front Wedges - N°2 Belts With Turnbuckle And Rear Ramps - White Working Light,Rear Mud Guards With Splash Guards - Tool Box,Spare Wheel Holder - Lateral Foot Boards,Return Pulley For Deflected Tows, - Varnishing On Request, - In Compliance With Ec Rules And Regulations.

#### OPTIONAL

"AMERICAN" tipe revolving lights - Swing set up for winch (dx/sx) - Remote Control - Hydraulic boom on platform - 2 telescopic extensions - rear hydraulic stabilizers - Hydraulic Rear Fork - Platform completely covered in steel.- Towing set up with homologated sphere hook - ZINCATURA a caldo dell'allestimento. - M.C.T.C. Test.

#### SERIAL OUTFITS

Equipment for emergency road service  
DEPANNAGE can be installed, through the inter position of a suitable counter chassis, on truck chassis; it can be particularly used for rescue, and towing of damaged/ broken down vehicles.  
Elegantly Plated Body, With Tool Boxes On The Sides For Technical Assistance - Rear Fork With Lifting Boom In Highly Resistent Steel With Double Hydraulic Extension - Crane Boom Hidden On The Platform With Oil Hydraulic Functions - Two Rear Hydraulic Outriggers - Towing Winch With Rope Guide With Rope Press Positioned At Rear Rope Wound Up 20 M., Diam. 10 Mm., Towing Capacity 2000 Kg - Oil Hydraulic Commands Level Controlled For All Functions - Hand Accelerator In Rear Position Of Command Console (Where Possible) - "American" Type Lights With 4 Flashing Orange Lights - Rear Mud Guards With Splash Guards - Lateral Foot Boards - Varnishing Of Equipment On Request - Compliance With Ec Rules And Regulations

#### SERIAL OUTFITS

Equipment for Road Emergencies, tilting and applicable on trucks 35000 Kg of total ground weight. Loading Platform Overturnable And Slideable Covered With Steel Panels - Direct Oil Hydraulic Lever Commands With Light - Accelerator In Rear Position On Command Console (Where Possible), - N°2 Fixed Front Wedges - N°2 Belts With Turnbuckle And Rear Ramps - White Working Light - White Working Light - Tool Box - Spare Wheel Holder - Lateral Foot Boards,Varnishing On Request - In Compliance With Ec Rules And Regulations.

#### OPTIONAL

"AMERICAN" tipe revolving lights - Swing set up for winch (dx/sx). Remote control - Rear fork with double slide function - Rear outriggers - Hydraulic rear - Towing set up with homologated sphere hook - Galvanizing - Certification M.C.T.C. (Special use o Specific use)
