BABY®

OLCELLI FARMACEUTICI

nce upon a time...

...in a faraway country, lived a grandmother called Mariuccia, who, with her great tenacity and patience, decided to found a small medicine company to alleviate the suffering of others, but especially, of her little granddaughter Maria Elena. Today, the little granddaughter is a young mother committed to grandmother's beautiful tradition by creating, like magic, a range of products dedicated to her children: Margherita Angelica, Giacomo and Giovanni.

Linea MammaBaby is a range of products designed for the daily hygiene of children and the whole family, natural cosmetics with extracts of organic farming, simple but effective formula with plant based ingredients.

The entire production cycle is **MADE IN ITALY**.
