

**MARULO**  
pregiata pasta di Torre Annunziata

ENGLISH VERSION

Bite into Pasta for the first time

### A new story in your plate

There are some universal values that push people to strive for excellence, whatever they do. That's what happened to the Marulo family and their love for their native land. After achieving great results in the medical and catering industries, in 2016 they decided to bring back to the town of Torre Annunziata its **dried pasta-making tradition**.

The product development started by hiring master pasta maker **Sebastiano Storzillo**, in order to define a higher quality standard for pasta making.

After three years of improvements, the result is a product with texture and traditional taste, a unique blend of medical and nutritional expertises, cooking skills and a deep knowledge of pasta.

## Made with water and semolina

Your first encounter with our pasta starts with its fragrance. Just open the pack and let the **perfume of 100% Italian wheat** surround you.

The coarse texture of our pasta shows a determined and audacious personality, created by our very own master pasta maker, who guides his dough through a bronze die. The pasta is then dried at no more than 52° C, to preserve its color and texture.

## Together in a new bite

It just takes a small taste to disclose the secret of our Master of Pasta, a rich wheat flavor where tradition meets a **bold and thick nerve**, that stays even while blending.

### For a new pasta experience

Pasta Marulo is made for those who don't compromise and for those who give the right value to time.

Add it to your creations and see how its bold personality, unique taste and texture stand out and enhance the flavors, all at the same time.

### Shapes

#### Short-cut pasta

Our all-time classics and special shapes are ready to meet both rich and minimal sauces.

#### Long pasta

The one and only icons of Italian food. Our long pasta is hand-boxed to preserve the most savory part, known as *heads*.

## All our shapes are:

100% Italian durum  
wheat

Bronze die cut

Slow dried at  
low temperature
