

PRENDAS DE MARGANAI

# MIDA - Saffron Liqueur

The most precious spice in the world is used to obtain a refined liqueur produced using only and exclusively saffron.

The union between saffron and cereal alcohol is MIDA, a golden yellow liqueur packed in elegant bottles: MIDA is produced using 100% pure saffron.

Once tasted, one is fascinated by the explosion of persistent and highly aromatic scents, a sensation equal to that experienced by the mythical King.

MIDA, tasted fresh, goes perfectly with all the Sardinian traditional desserts.

Available formats: 50 CL or 10 CL bottles.

Ingredients: water, alcohol, sugar, saffron

PRENDAS DE MARGANAI

# Habanito - Habanero Liqueur

Habanito is a pepper liqueur made only of habanero peppers cultivated in our farm. It's a brand new liqueur in which its spicy character is balanced by its persistent flower-like flavour (in fact, the caribbean peppers - the habaneros - are more aromatic than the mediterranean ones).

My firm is one of the first that have produced a liqueur like this in Italy. Habanito means fun and party, its hotness can ignite immediately every kind of cocktail.

Best serving: (very) cold, accompanied by dark chocolate or orange and cinnamon.

Available formats: 50 CL bottles.

Ingredients: water, alcohol, sugar, habanero pepper
