

electric and solar boats

electric and solar boats

New horizons to develop a business that focuses on respect for man and the environment.

"Looking forward we designed a boat to conceive a new way to experience navigation. Simple and reliable to draw tourists of all languages and of all ages, eager to experience unforgettable moments." Welcome on board: from the rivers, lakes

and the sea, water creates natural trails and is indispensable for sport, entertainment, culture and tourism, we are ready and our project investor has had no regrets and is reaping the benefits.

GOGOs are electric and solar powered boats, silent and recyclable, solid and reliable, safe for navigation in protected areas, perfect for experiencing them in different situations.

Enjoy the future, enjoy the GOGO

TECHNICAL FEATURES

no nautical licence

COMFORT

4 people sit comfortably in the GOGO boat; the ergonomic seats will provide you with maximum comfort.

RECHARGE

All versions are charged thanks to the charging cable.

SECURITY

The hull is a trimaran, therefore it is very stable and does not produce waves. The Gardenergy electric motor ensures safety and durability.

SOLAR BIMINI

Solar bimini and solar roof available with photovoltaic options.

RECYCLABLE

The GOGO can be clad with a totally recyclable eva (ethylene vinyl acetate) coating.

STEREO

There cannot be enjoyment without music!

JOYSTICK

The GOGO boat is simple and intuitive to steer thanks to the comfortable joystick.

STERN PLATFORM

The stern platform with folding ladder is a perfect platform for relaxing on the GOGO boat.

ELECTRIC MOTOR

Silent and high efficiency electric motor with permanent magnets technology.

On request a boat trailer is also provided to safely transport the boat to the water.
