AZIENDA AGRICOLA FRAGALE

Masters of Extra Virgin Italian
Oil

ABOUT US

We are an Italian Extra Virgin Oil manufacture located in Calabria, Southern Italy. Our core business is the production of Italian extra virgin olive oil. Production and bottling of our Extra Virgin Olive Oil take place in our Company. Every single day of the year we personally take care of our secular olive trees, which are in our sunny fields next to our oil manufacture. It's a very typical area to produce olive oil with a perfect climate state.
