Manifesto

How much can a detail count?

For us, details are everything, they are our hallmark because we want our voice to be heard.

Styles, places, and cultures are fertile soil to play with different souls, change, and become every day someone different who loves to tell the world.

TIGLAMI's spirit is embodied by the Tiger, symbol of fierceness and adventurous character. We put our heart in everything we realize, making every product a little artwork.

Tiglami

About

Tiglami is born from the fusion between Italian creativity, the excellence of our selection of materials and our cosmopolitan style.

All our products stand out for their quality and the flawless attention to detail that make them an icon of style, comfort and uniqueness.

The result is a Brand whose the main strength is the combination between the eclectic style and the finest Quality.

This is what inspired Dario and Lorenza La Micela, the creators of Tiglami, to gather everything they learned during their travels, and combine it into this brand. Cause the best comes from the encounters of cultures, moods and characters that make us unique and unrepeatable.

Products

Durable and long lasting, our Socks are crafted from over 70% cotton and with 3% elastane, giving a superior, stretchy, comfortable fit that will last all day without sagging or bunching up under the heel.

Not only that, these socks are made using high quality cotton, combed cotton, a softer version of regular cotton that offers a tougher wearing fabric.

The result is a pair of high quality socks that are breathable, absorbent and have excellent moisture wicking qualities, so you'll feel comfortable in them no matter your level of activity or lifestyle.

Italian designed, with our signature Tiglami look and feel, our socks are the ultimate accessory.
