

The logo for ACE PACKAGING is centered within a white square with a dark blue border. The word "ACE" is written in a large, bold, dark blue sans-serif font. Below it, the word "PACKAGING" is written in a smaller, all-caps, dark blue sans-serif font. The background of the entire image is a blurred, blue-tinted photograph of a corrugated metal surface, likely part of a machine or a large roll of material.

# ACE PACKAGING

---

*Ace is synonymous of highest quality product.*

*Our film are recognized and appreciated by the plastic market since it responds to high-level technical characteristics.*

---

## La nostra Storia

**ACE SRL** was founded in 2018 to collect the heritage of a well-established company in the transparent plastic, technical and food packaging market since the 1960s.

Our young reality has accepted the challenge of continuing the business of our predecessor and improving it, with the introduction of new operational dynamics, national and international business openings.

Since July 2020 ACE Srl ,in collaboration with **RL PLASTPROJECT** has decided to invest in the future, purchasing a new latest generation extruder.

RL Plastproject has been the undisputed leader since 1970 in the production of extrusion lines for films, in PVC, and partner of ACE Srl in innovation and improvement of production performance.

This new machine not only guarantees significant advantages in terms of production and delivery times, but allows greater precision in terms of product quality control.

It allows to increase the performance of final use, also obtaining a greater personalization of the product based on the real needs of customers.

## La nostra Mission

Guaranteeing customers assistance in choosing the best product, following all the phases of the choice up to the complete satisfaction of final expectations, is the Mission of ACE Srl.

The propensity for innovation and the ability to satisfy customers by customizing our products, based on real needs, support our Mission.

ACE's technical and managerial know-how is characterized by in-depth market analyzes that lead to constant control of production, management and organizational processes, continuously improved and implemented in order to ensure quality and results.

Those who choose ACE choose products of the highest quality and punctual services, which respect the highest sectorial standards.

## I nostri prodotti

### LIGHT BLUE FILM

For technical use, with excellent stability and adaptation performances. The characteristic blue color is combined with a real transparency, brilliance and clarity. It offers a wide range of applications: technical packaging, cosmetics and publishing.

### LIGHT WHITE FILM

Film very resistant and stable, perfectly adaptable to any type of processing. Thanks to the high transparency and brightness, it is perfect to give visibility to the product, so for the publishing industry, therefore in publishing, external food packaging, textile packaging or brushes.

### SPARKLE WHITE FILM

Suitable for food contact, in accordance with European regulations, does not contain phthalates and guarantees protection and safety to the product. Excellent for its transparency and resistance to light, it is ideal for optimal presentation of food.
