

Biography GG

Gianluca owns field-proven competences and 20+ years of experience in Sales and Business Development, Strategic Market Planning, Program Management and Engineering.

He has taken on roles at increasing responsibility across large multinational Corporations and Engineering Service Providers (ESP) operating in the fields of Aerospace & Defence, Air and Naval Traffic Management and Automotive. He played key roles in a string of high-profitable program wins and partnership agreements across Europe, USA, India, China and Russia.

Since 2018 Gianluca serves as Sr. Advisor to the Office of Corporate Executives of High-Tech Companies and Engineering Service Providers by taking on critical roles in their company's organisation to expand and grow their business and defining with them disruptive market strategies.

Gianluca holds a Master's degree in Electronics Engineering from "La Sapienza" University of Rome.
