and women

elegant and casual since
1954.

Moreal is the workshop
of Graziella and Sergio,
opened for the first time
in 1954 in

Rome in the area

Appia. Together

they built a unique story,
made of fabrics, colored
threads and a lot of

passion.

GREEN COLLECTION MOREAL 2020

We at Moreal Roma also felt the need to do something concrete for the environment and we started the production of a series of sustainable Eco shirts. For the realization of these shirts we only used natural materials: linen and double twisted cotton. We applied buttons in coconut or corozo (material obtained from the seeds of a palm tree, the *Phytelephas macrocarpa* that grows in the rainforest of South America.) Sewn with cotton thread. We have eliminated any metal accessory so no pins or clips to keep the shirt still. We have not inserted any plastic elements to support the neck. No internal paper to give the shirt greater thickness. No cellophane bag for the final packaging, but a recyclable paper box. The subjects for the prints of our cottons have all been chosen to "remind" the end consumer of the importance of eco-sustainable behavior and have been created with natural colors.
