

## Arabs

### Caponata, Pesti and Garnish

*Let me introduce myself?*

*My aim will be to make known to the Sicilians and to the Italians all the secrets and goodness of this kitchen, which always stood out for the variety of ingredients and for the particular taste that they counted among the most original existing in the world.*

*Maybe you tacerete of presumption, it may be true, but I think the presumption is my only flaw.*

*Sughi del Principe  
Artigiani del gusto*
