*Innovative solutions for the transport
of sensitive and/or ADR goods, armaments
and weapon systems for the military sector*

ABOUT US

TMT Tanks and Trailers is an Italian company with solid roots in the territory and over 50 years of experience in the industrial vehicle market.

We define ourselves as **Tanks & Trailers creators** for our ability to start from zero to create the perfect, tailor-made product and provide our customers with unique, cutting-edge solutions through **continuous innovation**, the search for **high-quality materials**, rigorous **safety controls**, and excellent, meticulous workmanship.

The quality and innovation of our products have been recognized by several awards, including the renowned **Trailer Innovation Award** for the "Body" category, received twice in a row in 2023 and 2025.

- *Versatility*

ADR: what types?

Type "AT - EXII - EXIII"
for the transport of
explosives "in packages"

Type "FL"
for the transport of
flammable liquids

Type "AT - FL - EXII - EXIII"
for the transport of containers
and tank containers

*Designed and manufactured specifically for military purposes,
they are suitable for being equipped:*

for the transport of
dangerous goods of
ADR class 1, i.e.
explosives

with a tank for ADR
flammable liquids
(petrol, diesel, jet A1 -
F34)

for the transport of
ADR dangerous goods
with containers and
tank containers

OUR RANGE OF VEHICLES

*for the transport
of sensitive and/or ADR
goods, armaments and
weapon systems
for the military sector.*

Tank ADR
type FL L4BH

Tank for used oils and
liquids ADR type FL LGBF

Fuel tank ADR
type FL LGBF

Scrigno semitrailer side
opening ADR type AT-EXII-EXIII

Flatbed container carrier
ADR type AT-FL-EXII-EXIII

Drone Full Autonomous Carrier
ADR type AT-EXII-EXIII

Fuel LGBF, Waste L4BH and Used oils LGBF tanks ADR type FL

Designed and built using the most advanced techniques, our tanks and tankers enable the transport of waste, fuels, used oils and dangerous liquids in complete safety, in compliance with ADR regulations.

Thanks to the use of AISI 316 stainless steel, carbon steel and light alloy, they offer remarkable resistance to corrosion and wear.

Scrigno semitrailer side opening ADR type AT-EXII-EXIII

Characterized by the absence of the intermediate column, it therefore offers a total lateral opening of 12,3 m and a continuous loading height of 2,57 m.
Essential for loading and unloading any type of material longer than 6,3 meters.

Flatbed container carrier ADR type AT-FL-EXII-EXIII

Special chassis, equipped with wooden platform and corner blocks for transporting containers and swap bodies 20' - 20'+20' - 40' - 45'.

Drone Full Autonomous Carrier Tactical Use ADR type AT-EXII-EXIII

Fire-safety tested structure, compliant with EN 13501-1:2002 (ADR 9.3), with an opening roof for easier drone operations. Transportable by road, train, or ship. Equipped with a generator axle and solar panels for complete autonomy and the ability to charge drones.

Drone Full Autonomous Carrier Urban Use ADR type AT-EXII-EXIII

Fire-safety tested (ADR 9.3), this semi-trailer features an opening roof and storage compartment to facilitate drone operations. It can be transported by road, train, or ship. It features a generator axle and solar panels for complete autonomy and the ability to charge drones.
