IT FOR DEVELOPMENT

We don't believe in **Information Technology** as a *Goal*, but as a *Tool* to deliver *efficient and sustainable answers to our clients*.

Who

Born in 2015, **DEV4U** is a *small consulting company* working in the field of Information Technology and Communication.

The **reduced size of our company** allows us to be very **competitive** and **flexible** so as to offer **top quality services tailored** to the needs of our clients.

What

We offer expertise, services and technologies to improve data management.

Our Goal is to **help our clients to transform 'Data' in 'Information'**.

Our Scope covers all steps of the **data management cycle**: Form Design; Data collection; Data entry and Validation; Data Analysis and dissemination; Training.

How

We do believe in the **Agile methodology** and we value more:

- **Individuals and interactions** over processes and tools;
- **Working software** over comprehensive documentation;
- **Customer collaboration** over contract negotiation;
- **Responding to change** over following a plan.

Why

Our **solutions** are always based on **simple interfaces** that hide the complexity of the technical solutions that are adopted, thus imposing on our clients a very small learning curve.

Our **capacity to answer client's needs** and the **professionalism of our technical support** are the key to our success.

DEV4U is involved in several fields of activity for which it provides its clients with a set of complementary services.

Development

We design and develop:

- Knowledge and Document centers
- Decentralized Database management system
- Intranet and Internet
- Web-sites with and without e-commerce, multi-languages, dynamic

Technical Assistance

We offer Technical Assistance mainly in the following fields:

- Needs assessment
- Monitoring and Evaluation
- Statistical Analysis (focus on Food and Nutrition Security)
- Market and Epidemiological surveys (Health, Nutrition, socio-economic, food security) with and without the use of OCR software (we use Teleform)

Training

We deliver training courses only for groups (5-10 persons) in our offices or at client site.

- Web development (HTML, Javascript, Coldfusion - ADOBE)
- Statistical Analysis using SPSS

We indicate **three solutions** that we often implement in the field of european international cooperation:

M&E SYSTEMS

Monitoring and Evaluation Systems for international projects

MIS

Management Information Systems for public and private partners

EXPERT CV WEB

Collection, storage and management of expert curricula

Want to find out more about **our solution?**
