

MAIDU ^{ENG}
PROFESSIONAL
UV & LED GEL PRODUCTS

Haidu

Haidu brand was born with the aim to create a high quality product line guaranteeing the maximum level of satisfaction even to the most demanding customer.

The achievement of this ambitious project led us, over time, to become highly competitive and to acquire a huge market in close contact with important groups of the cosmetic sector with which we plan and develop extraordinary appealing product lines, offering also the Private Label service.

LABORATORI S.r.l.

To obtain these results, **C&C Laboratori** relies on a cutting-edge structure: research and development laboratory, quality control, production, packaging and raw materials and final product's storage. The choice to use only the highest quality raw materials, working exclusively with certified products, the constant investment in cutting-edge machinery, the advice at the service of unique brands and products and the qualified work of a team of professionals, are all elements that make **C&C Laboratori** a leading company in the sector.

PRIMER

ACID PRE-GEL SOLUTION

Liquid solution with acid base; it contains acrylic, it perfectly penetrates natural nails' fibres and it creates an excellent adherence with the gels. It dries to the air and it has a degreasing effect. It contains an antimycotic. Few drops have to be applied.

C9 15ml

PHASE ONE

MEDIATOR OF ADHESION GEL WITHOUT ACIDS

Transparent gel containing keratin. Apply as a nail polish. Ideal for perfect nails and for who does not want acids on the nails.

15A 15ml / 15 30ml

ULTRABOND

NON-ACID PRE-GEL SOLUTION

Non-acid pre-gel maximising the adherence of the UV gel and of the nail polish. Apply a thin layer and let it dry at the air for 30 seconds. For all types of nails

C15 15ml

SUPERBOND

MEDIATOR OF ADHESION GEL WITH HIGH ACIDITY

Transparent gel. It has a keratin base and an acrylic base. Perfect for difficult and complicated nails. Apply a thin layer. The result is the same as if you were using Bonder and Primer together.

O5A 15ml / O5 30ml

POLYGEL BOND

MEDIATOR OF ADHESION POLYGEL

It is a product more elastic than acrylic, more resistant than gel and lighter than gel and acrylic.

G01 15ml

BOND

MEDIATOR OF ADHESION GEL WITH LOW ACIDITY

Transparent gel. It has a keratin base and a small amount of acrylic. Apply with a thin layer

O1A 15ml / O1 30ml

CEMENT
TRANSPARENT DENSE
BUILDER GEL

Transparent builder gel, perfect for structures requiring a particular mechanical resistance. It is very useful for extreme elongations and particular shapes. Excellent pincerability and matt topcoat.

26A 15ml / 26 30ml

SENSITIVE
TRANSPARENT PINK
BUILDER GEL

Lightly pink builder gel without methacrylic acids, perfect for finishing of the French gel on the cuticles. Recommended in case of allergies. Matt topcoat

04A 15ml / 04 30ml

INVISIBLE
TRANSPARENT
BUILDER GEL

Transparent builder gel, it contains UV filters in order to avoid nail's yellowing. Perfect for nail form's reconstruction. During the summer, it works differently because density is lower. Matt topcoat.

03A 15ml / 03 30ml

MAKEUP
BUILDER GEL
FOR IMPERFECTIONS

Dark pink builder gel, fit for covering natural nail's imperfections. Self-levelling and suitable for being used as camouflage. Apply a double layer. Lucid topcoat.

06A 15ml / 06 30ml

PEDIQUE
BUILDER GEL
FOR TOENAILS

Lightly pink builder gel structured and realised for toenails. It has a high adhesion and it contains antimycotic substances in order to prevent skin fungus and mycocites' formation.

14A 15ml / 14 30ml

PINKY
MILKY PINK
BUILDER GEL

Milky pink builder gel, perfect for coverings with porcelain effect. Self-levelling and easy to apply. Lucid topcoat. It becomes milky white after lamp polymerization

02A 15ml / 02 30ml

PHASE TWO

BUILDER GEL
WITHOUT ACIDS

Transparent builder gel with high adhesion. High endurance and resistance for reconstruction with excellent C curves. Perfect gel for curvatures and reconstruction with nail form. It presents a high elasticity and an extreme brilliance. Matt topcoat.

16A 15ml / 16 30ml

WHITE MILK

BUILDER GEL
WITH MILK EFFECT

Perfect for coverings with milky effect. Unique application, self-levelling and easy to apply.

18A 15ml / 18 30ml

WHITE MEDIUM

COVERING WHITE EFFECT
BUILDER GEL

Perfect for realisation of French wall technique

08A 15ml / 08 30ml

COVER 1

FORMING BEIGE
BUILDER GEL

Covering beige builder gel with lucid topcoat and self-levelling. Perfect for covering striated and ruined nail's imperfections. Fit for elongation with papers. Apply a double layer. It can be used before and after moulding or directly used as shaping.

17A 15ml / 17 30ml

COVER 2

FORMING LIGHT PINK
BUILDER GEL

Covering light pink builder gel with lucid topcoat and self-levelling. Perfect for covering striated and ruined nail's imperfections. Fit for nail bed's extension. Apply a double layer. It can be pincered after about 60 seconds.

24A 15ml / 24 30ml

COVER 3

FORMING DARK PINK
BUILDER GEL

Covering dark pink builder gel with lucid topcoat and self-levelling. Perfect for covering striated and ruined nail's imperfections. Fit for nail bed's extension. Apply a double layer. It can be pincered after about 60 seconds.

25A 15ml / 25 30ml

COVER 4

FORMING MID-PINK
BUILDER GEL

Covering mid-pink builder gel with lucid topcoat and self-levelling. Perfect for covering striated and ruined nail's imperfections. Fit for nail bed's extension. Apply a double layer. It can be pincered after about 60 seconds.

28A 15ml / 28 30ml

COVER 5

FORMING PINK BUILDER GEL

Covering pink builder and self-levelling. Perfect for covering striated and ruined nail's imperfections. Fit for elongation with papers. Apply a double layer. It can be used before and after moulding or directly used as shaping. It can be pincered after about 60 seconds.

10A 15ml / 10 30ml

NATURAL

NATURAL WHITE FRENCH BUILDER GEL

White natural and bright builder gel. Perfect for a refined hand with natural effect. Lucid topcoat.

07A 15ml / 07 30ml

PHASE THREE

FINAL SEALANT

For a bright and natural topcoat. Apply a unique and dense layer over the whole surface.

13A 15ml / 13 30ml

EXTREME

EXTREME WHITE FRENCH BUILDER GEL

White extreme builder gel. Perfect for a hand with extreme French effect. Lucid topcoat.

09A 15ml / 09 30ml

HIGH GLOSS

FINAL SEALANT

Vitrifying with extreme brightness. Apply abundantly as a nail polish. It should be degreased after the polymerization.

23A 15ml / 23 30ml

It is a product more elastic than acrylic, more resistant than gel and lighter than gel and acrylic.

MONO COVER

BEIGE MONOPHASIC GEL

Excellent endurance, good covering and perfect workability. Since this product has the colour very similar to the nail, it can be used for obtaining coverings with a complete natural effect. Very useful during the step of filing. Lucid topcoat.

27A 15ml / 27 30ml

CRYSTAL

TRANSPARENT BLUE MONOPHASIC GEL

Transparent blue monophasic gel. UV filter's presence avoids nail's yellowing. Fit for coverings and reconstructions with nail form. Self-modelling, due to the presence of many UV filters you can feel a heat source. Perfect for summer and high temperatures. Excellent adherence and filing. Lucid topcoat.

11A 15ml / 11 30ml

MONO CLEAR

TRANSPARENT MONOPHASIC GEL

Transparent monophasic gel. Fit for coverings and reconstructions with nail form. Self-modelling, due to the presence of many UV filters you can feel a heat source. Excellent adherence and filing. Lucid topcoat.

20A 15ml / 20 30ml

MONO ROSE

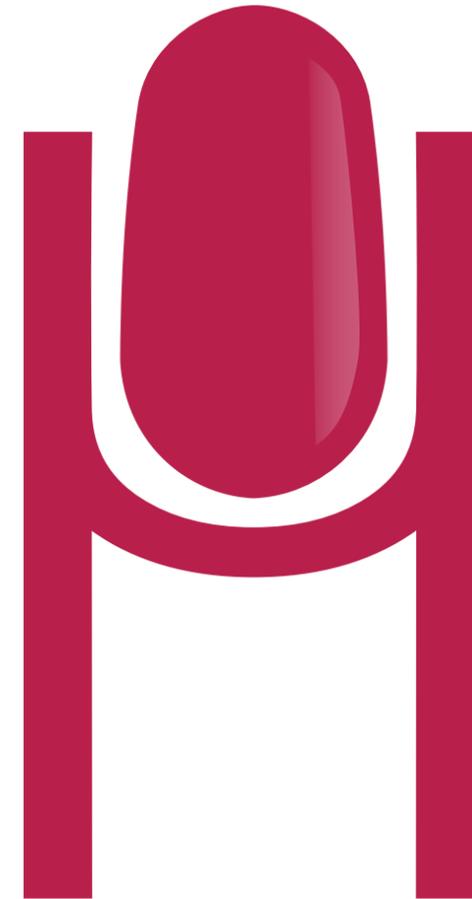

Transparent pink monophasic gel

Transparent pink monophasic gel. Fit for coverings and reconstructions with nail form. Self-modelling, due to the presence of many UV filters you can feel a heat source and you have to work in layers. Perfect for summer and high temperatures. Lucid topcoat.

HAIDU
> THERMO GEL

CRYSTAL

FINAL POLISHING WITHOUT DISPERSION

Applied as a nail polish it results to be very bright. It has not to be degreased after polymerization and it can be used even with the gel polish

C1 15ml

VELVET

SEALANT WITH MATT EFFECT

It has to be applied abundantly as a nail polish for a velvety effect on the nails. It has not to be degreased after polymerization. It should be used also with gel polish

C17 15ml

CUTICLE AWAY

FOR CUTICLES' REMOVAL

Solution that quickly and efficiently removes cuticles; apply a few quantity of the product on the cuticles and let it act for 120 seconds. Remove excess skin with orange stick

C3 15ml

SUNSCREEN

PROTECTIVE NAIL POLISH FROM UV RAYS

High coverage nail polish, UV rays protector; it avoids the nail's yellowing. Perfect for protecting the reconstruction on natural and artificial nails.

C4 15ml

CRYSTAL DIAMOND

SEALING WITH DIAMOND EFFECT

Elegance and 3D ultra-lucid effect. It has to be applied with a thin layer, before the sealing. It could be used as unique sealing and it has to be mixed due to the micro-particles' presence. It has to be applied as a nail polish but it should not be used for cambers

C18 15ml

CRYSTAL BLU

SEALING WITH BLUE EFFECT

It has an incredible resistance and duration. Thanks to UV filter's presence, it avoid nail's yellowing. It has to be applied with a thin layer, before the sealing. It could be used as unique sealing and it has to be mixed due to the micro-particles' presence. It has to be applied as a nail polish but it should not be used for cambers

C19 15ml

SAFE BASE

PROTECTIVE BASE OF THE NAIL

Apply as base coat, especially for reconstruction of damaged, soft and fragile nails

C6 15ml

HARD ROCK

RESTRUCTURING AND STRENGTHENING SOLUTION

Ristrutturante che indurisce, fortifica e cura le unghie fragili e sottili. Deve essere usato per almeno 2 settimane.

C7 15ml

SMOOTH STEP

SOLUTION FOR RUNG

Solution for dissolving and lowering the rung of the tips

C8 15ml

GLOSS&SHINE

EXTRA LUCID NAIL POLISH

Polish with glass effect for nail polish and natural nails. It dries to the air after few seconds

C12 15ml

HYDRATING MANDARIN

MOISTURIZING OIL FOR CUTICLES

Nourishing oil for moisturizing nails and cuticles; it deeply penetrates the nail bed by reinforcing and promoting the growth; perfect after the reconstruction

C2B 15ml

ANTISEPTICUM

TECHNICAL FUNGICIDAL SOLUTION

Solution suited for infections' treatment caused by microscopic skin fungus. Use this solution if the problem involves at most two nails

C10 15ml

DROP&DRY

HIGHLY DEHYDRATING SOLUTION

It has a degreasing and dehydrating function, it is applied with few drops, it dries and degreases the nail. If applied after opacification it highlights untreated areas. It does not contain acids.

C16 15ml

HYDRATING ARGAN

MOISTURIZING OIL FOR CUTICLES

Nourishing oil for moisturizing nails and cuticles; it deeply penetrates the nail bed by reinforcing and promoting the growth; perfect after the reconstruction

C2A 15ml

HYDRATING ALMOND

MOISTURIZING OIL FOR CUTICLES

Nourishing oil for moisturizing nails and cuticles; it deeply penetrates the nail bed by reinforcing and promoting the growth; perfect after the reconstruction

C2C 15ml

CLEANSER

DEGREASING SOLUTION

Product suitable in all reconstruction systems to eliminate the dispersion layer that is created on the nail after curing in lamp. Its gentle formula allows to be used even after the file phase. Excellent glossy and brilliant effect

- 5728-001 250ml
- 5728A-001A 500ml
- 5728B-001B 1000ml
- 5728C-001C 5000ml

ANTISEPT

SANITIZER SOLUTION

Liquid with high alcohol content, useful for cleaning hands and work tools, during all work phases

- 5729-002 250ml
- 5729A-002A 500ml
- 5729B-002B 1000ml
- 5729C-002C 5000ml

FRAGOLINA

MILD SOLVENT WITH OLIVE OIL

Made with a balanced mixture of acetone-free solvents, it is low aggressive and ideal for removing residues from the nails, respecting the nature even of the most delicate ones, it prevents and fights dryness, without compromising their natural elasticity. It does not weaken the tips

- 5748-005 250ml
- 5748A-005A 500ml
- 5748B-005B 1000ml
- 5748C-005C 5000ml

SOAK OFF REMOVER

GEL POLISH REMOVER

Cleaning solution used to gently remove all traces of products such as acrylic, gel polish, glue and nail polish without damaging the natural nail

- 57248-006 250ml
- 57248A-006A 500ml
- 57248B-006B 1000ml
- 57248C-006C 5000ml

SLIP SOLUTION

LIQUID FOR THE PROCESSING OF POLYGEL

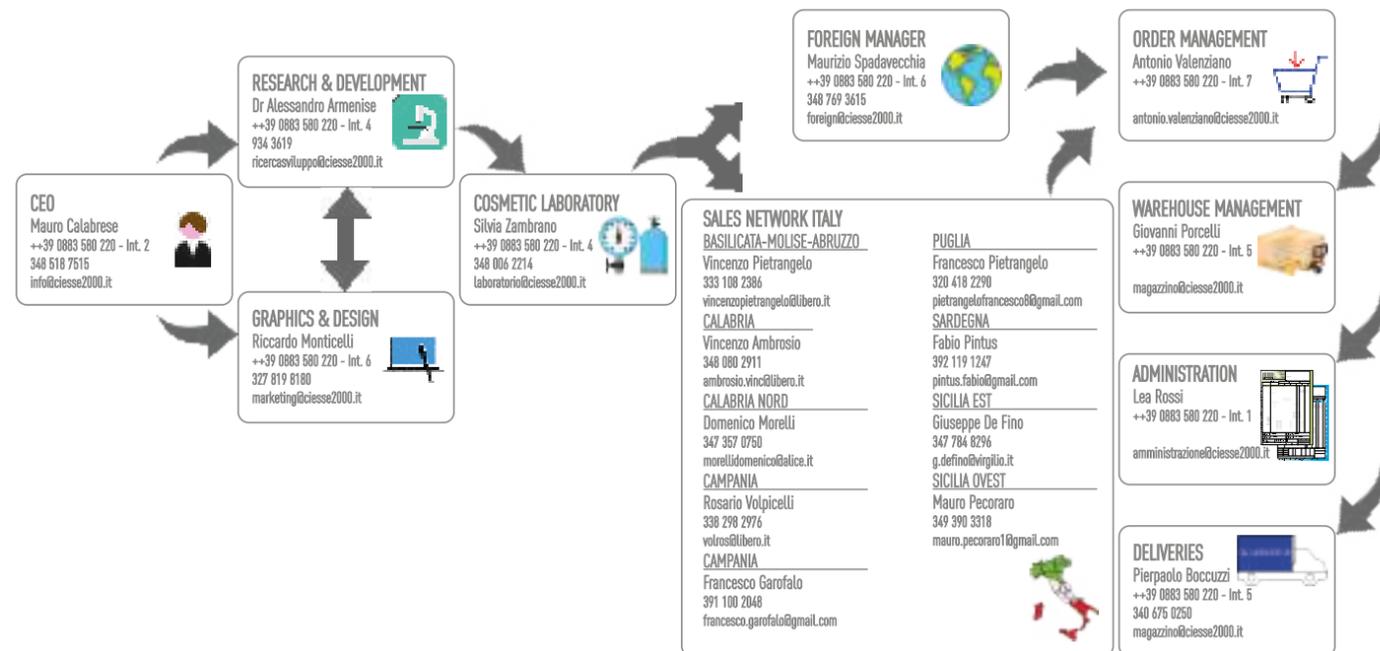

Special liquid, odorless, necessary to facilitate the modeling the Polygel Haidu without sagging; it allows to handle the product until polymerization in the lamp

- 57287-007 250ml
- 57287A-007A 500ml
- 57287B-007B 1000ml
- 57287C-007C 5000ml
