

A classic bag, but re-imagined in a contemporary way. Its trapezoid shape is refined by the Nappa leather softness. The single main compartment with a quick-access card holder is protected by a metal zipper closure. Ideal for free time and work, it is perfect during the day but, thanks to its unfailing elegance, can be smartly worn at night, too. It swiftly turns into a crossbody bag, thanks to the leather strap, which can be attached to the proper karabiners.
