“Emilio came here in 2001 and did all the design, installation and commissioning. He did it well. But what is more important is that for the last 12 years we are asking him for spare parts, new equipment and everything in between. I can count on him and his team to deliver so I can focus on other issues.”

“On behalf of Emirates Airlines, we would like to appreciate your team contribution to complete the JW Marriott Marquis project to the highest quality standards and make it the world tallest hotel building. Nevertheless to say that without your team dedication and focus we would not have completed this project as per the agreed timeline. Once again we would like to thank you for your team for the good job done and wish you good luck for future endeavors.”
