Il Cestino di Pane

Eat me up..!
The Bread Basket

“EAT ME UP” is the slogan we use to promote the bread-made basket.
As of today, available in retail sale packs of three pieces.

DELICIOUS TO EAT

IFS food certified as symbol of Quality and Safety Standard. The bread-made basket is what can be defined as a “BREATH OF FRESH AIR”. Sold in practical boxes of three bread-made baskets. It's a PRACTICAL, VERSATILE product. Thanks to its 019 cm diameter format and to its particular baking process, it can be also used for cooked food making a simple tomato pasta something SPECIAL..

Ingredients: Wheat flour (71%), water, rapeseed oil.
Humectant: glycerol; salt, dextrose. Emulsifier: mono-diglycerides of fatty acids, acidity corrector, malic acid.

Nef Pallet Weight (Kg) 66
Gross Pallet Weight (Kg) 122

AFTER MANY YEARS IN THE FOOD SERVICE FIELD,
WE WANTED TO CONTRIBUTE TOO TO MAKE CHANGES IN THE HO.RE.CA. SECTOR;
WITH AN EYE TO THE ENVIRONMENTAL SAFEGUARD AND TO AESTHETICS.

SO, WE REALISED A LINE OF EDIBLE, COMPOSTABLE AND BIODEGRADABLE PLATES.
THE NATURAL ASPECT OF BREAD, THE COMPACTNESS OF ENDURANCE
AND VERSATILITY IN THE UTILISATION RENDERS THEM THE CHOICE OF INTERNATIONAL CHEFS
AND ALL THOSE WHO ARE ENVIRONMENTALLY FRIENDLY.

PARTICULAR ATTENTION WAS GIVEN TO:
VEGETARIANS, VEGANS, INTOLERANTS TO MILK AND EGGS AND WITH THE ADDITION OF
VEGETAL GLUTEN FREE "CUPS", WHICH CAN BE HEATED IN THE OVEN TO 240° IT CAN INCLUDE
A PATHOLOGY THAT OFTEN FINDS IT DIFFICULT TO SEEK PRODUCTS.

THE VEGAN, BIO AND IFS CERTIFICATIONS OBTAINED IN 2018,
WHICH IMPLIES CONTROL ON SAFETY IN THE VARIOUS WORKING STEPS WITH A SHELF LIFE
OF 12 MONTHS, HAVE ALLOWED OUR COMPANY TO POSITION ITSELF AT THE FIRST PLACES
IN THE INTERNATIONAL PANORAMA THANKS TO THE PRODUCTION OF COMESTIBLE,
COMPOSTABLE AND EDIBLE GOODS FOR THE HO.RE.CA. SECTOR.

ONE OF THE LAST EFFORTS WHICH UNICA IL CESTINO DI PANE MADE HAS BEEN
LISTENING TO THE SOUND OF THE SEA AND CONTRIBUTING TO ITS SAFEGUARD WITH
GLUTEN FREE STRAWS MADE OF BIO PASTE.

CHALLENGES FOR THE SAFEGUARD OF THE ENVIRONMENT HAVE JUST STARTED,
WE ARE ALREADY WORKING ON NEW GOALS.

TOGETHER WE CAN REACH BIG OBJECTIVES!!!

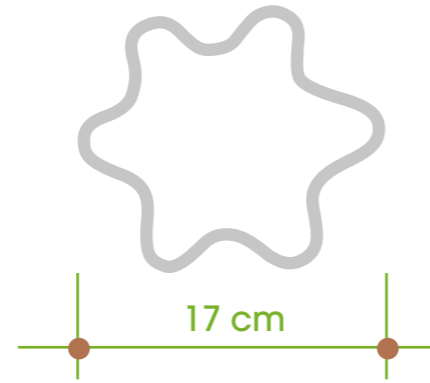

The Bread Basket

"Small" Bread Basket

The small bread basket is by far the most versatile product within our range and can be used to contain anything from antipasti to risotti right through to desserts.

The small bread baskets have a diameter of 17cm and a capacity of 0.40cl. They are approximately 5cm in height and weigh 40gr.

Packaging: 16 heat-sealed pieces in cylinder to maintain freshness and make it easier to conserve (6-cylinder cardboard).

From antipasti to risotti

Small Basket

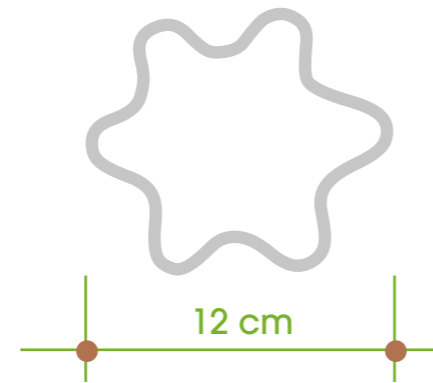

“Mini” Bread Basket

The mini bread basket was developed around the middle of 2015 after participating in Expo Riva Hotel on Lake Garda in Italy, where we received many requests for a smaller sized basket that would be appropriate to use for finger food and for high level catering.

The mini bread basket has a diameter of 12cm and a capacity of approximately 0.12 cl. It's approximately 5cm in height and weighs 35grs.

Packaging: 18 heat-sealed pieces in cylinder to maintain freshness and easier to conserve (6-cylinder cardboard).

For high level catering

Mini Basket

The straw of "Pasta"

The fight against plastic and disposable products has always been a priority in our company which in its few years of activity besides the creation of 100% compostable/biodegradable products has made an agreement with groups having the same sustainability policies and a low environmental impact.

The straw made of biodegradable Gluten Free paste is obtained from organic corn and rice flour, with no GMOs; it resists cold beverage, it does not alter flavours and it is very captivating for its colour.

Usage: in whichever place it is requested, it is trendy and satisfies people with celiac disease too.

Let's help our Seas.

Diameter: 9 mm
Length: 170 mm
Gluten Free

100% compostable
