ROTHEN AUTOMOTIVE**05 PLUS Total all-season diesel protection**

Protective: protects against corrosion and oxidation

Detergent: dissolves combustion deposits. Unlocks pumps and injectors

Lubricant: excellent wear protection

Antibacterial: avoid bacterial proliferation

Antifreeze: optimal at low temperatures

Suitable for COMMON RAIL/PDE/HDI

MULTISTAGIONALE**24 X 200 ML - COD 031193****OCTANE PLUS additive to increase all petrol engines OCTANE: 98/100**

Octane booster: additive to increase the octane number, more power, higher engine speed.

N° OTTANI : 98/100**24 X 400 ML - COD 031334****OLI FUEL ECONOMY**

(5w30-5w40-10w40-20w60)

Enhanced oils with technologically advanced additives that attribute to the product less oxidation with high temperatures and, at the same time, less fuel use. With this exclusive formule the anti-friction and anti-wear properties are improved and the engine noise is reduced.

FORMULA ESCLUSIVA ROTHEN**12 x 1L****STOP LEAK Self – sealing for radiators and sleeves**

This sealant ensures a strong and lasting seal able to stop quickly small losses even in the most modern cooling circuits equipped with radiators with micro-pass. It's compatible with all cooling fluids used for closed circuits. No damage to sleeves, gaskets and any kind of metal inserted in the circuit.

24 X 200 ML - COD 071152**CLIMAX AEROSOL**

Aerosol for air-conditioners and car interior .

Sanitizing , Refreshing, Deodorant, Effective against viruses. Suitable especially in this time for CORONAVIRUS

IGIENIZZANTE ONE SHOT**12 X 150 ML - COD 071137**

ROTHEN CLIMAX AEROSOL

Aerosol for air-conditioners and car interior .

In this period of health emergency due to the spread of Covid-19, many precautions are taken to try to limit the infection. Correct cleaning of the passenger compartment of your car should not be an exception, where we are obliged to return to driving for work or other needs, even transporting people who are not part of your family.

For this reason, Rothen has studied a sanitizer for the passenger compartment and air conditioning that is also effective against **VIRUS**.

ROTHEN CLIMAX AEROSOL is a specific product to neutralize odors of an organic nature, foul-smelling volatile substances deriving from bacterial proliferation, etc. from any type of surface and environment, it refreshes the treated areas leaving a pleasant scent.

It purifies all surfaces, extending the life and operation of the air conditioning system.

Harmless to the materials, including precious ones, of the dashboard and passenger compartment of cars.

The use of **ROTHEN CLIMAX AEROSOL** is recommended for cars, trucks and buses....

METHOD OF USE

With the engine running and after shaking the cylinder, place it on the passenger side mat of the car. Turn on the air conditioner in the recycling position and act on the dispenser button, which, when opened, will automatically and finely release the product in about 2 minutes, distributing the active ingredients contained with an effective penetrating action and leaving a pleasant fresh scent. Let it act for a few moments, then air the passenger compartment for about 5 minutes.
