**LegnoMArt**, an artisanal woodworking company founded in 1978, specializes in the design and production of high-performance wooden fixtures, custom furniture, and bespoke furnishing accessories. Its strength lies in the ability to combine a historic artisanal tradition with cutting-edge innovation (through the use of smart home and IoT systems as well as biometric devices), while maintaining meticulous attention to detail and a focus on individual and environmental well-being. These creations “*open to beauty.*”

Since 2021, it has been recognized as a *Bottega Scuola* (Artisan Workshop School), following the owner’s recognition as a *Master Artisan by the Veneto Region.*

## DOOR AND WINDOW FRAMES

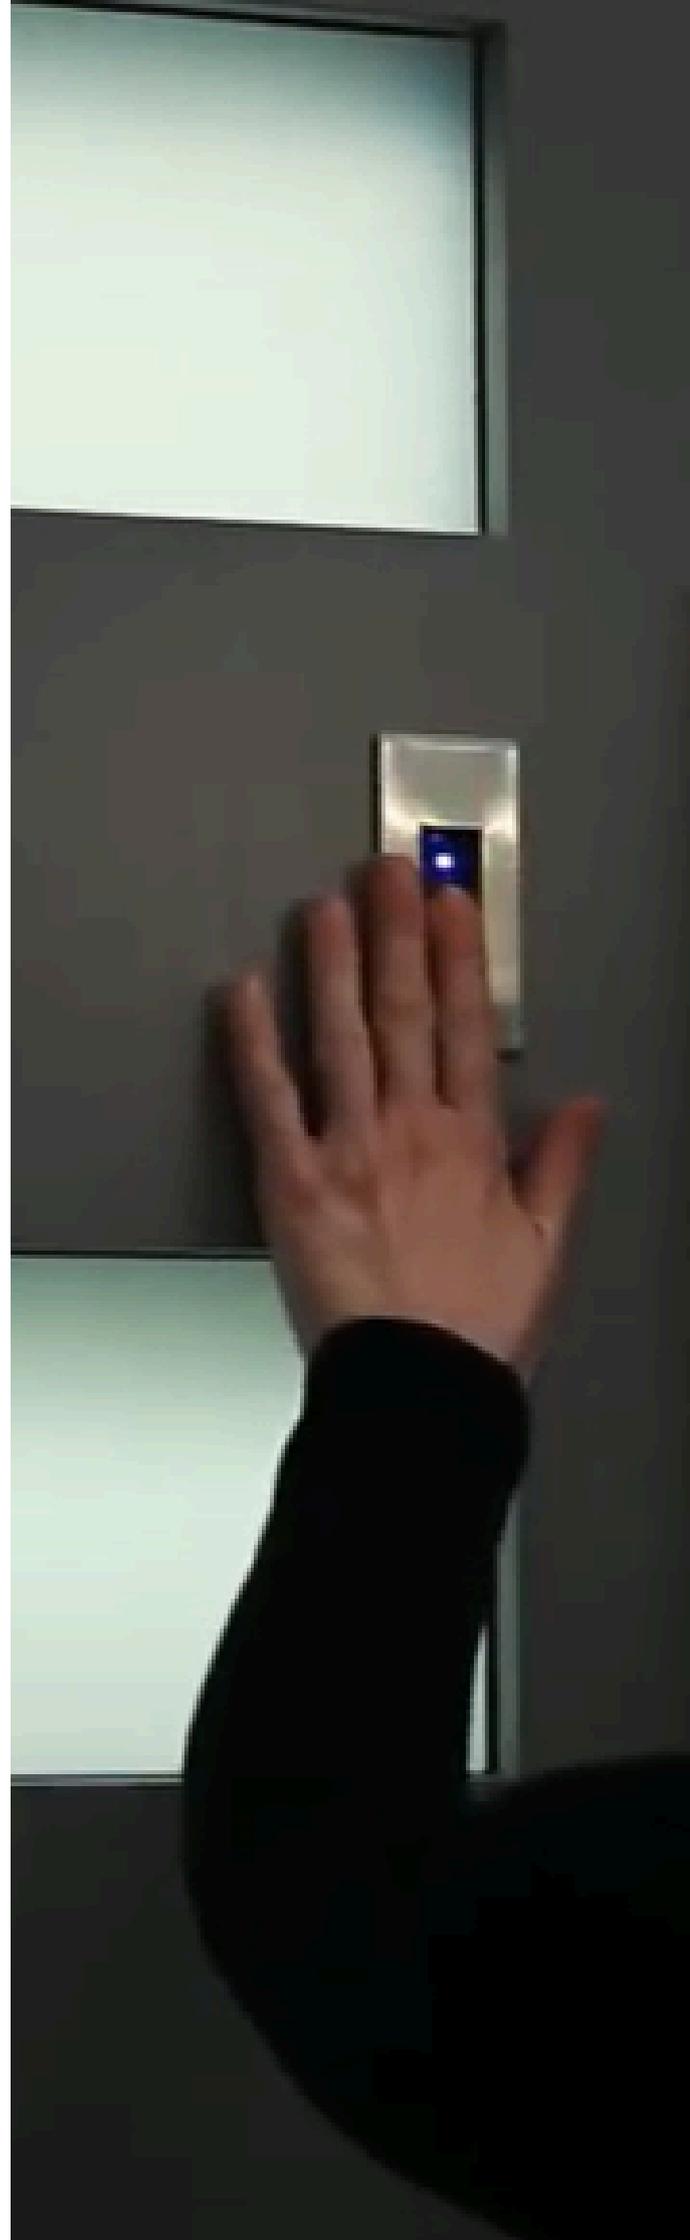

---

*"Knowledge is a treasure, but practice is its key."*

EMANUELE MARTINELLO

The large number of installations of window and door frames in new homes and in high-end renovations, both in Veneto and throughout Italy, demonstrates how LegnoMArt is gaining increasing attention from those who appreciate quality, while being attentive to details and final costs. A winning mix of strengths on which the company has built its ongoing growth.

The custom-made productions of Security Doors, Doors, Windows, and Glazed Units by LegnoMArt represent a wide range of solutions for window and door frames, both from a technical and architectural perspective. Cutting-edge materials and products, innovation, and attention to detail translate into a broad selection of high-quality products.

*Architecture is truly well-being. I believe that people want to feel good in a space... On one hand, it is a shelter, on the other, it is also a pleasure."*

ZAHA HADID - architect

It is our place of experimentation, where we combine our craftsmanship with innovation and design to create unique creations. It is the place for special projects, developed together with Architects, Designers, and other companies because we believe that only through collaboration can we create virtuous paths that enhance people, the territory, and the cultural heritage of which we are ambassadors.

## SURFACES

---

The wooden surfaces of LegnoMArt represent the perfect blend of **traditional craftsmanship** and **innovative research**. An exclusive collection of wood panels, developed by our in-house team.

These panels, available in natural, matte, or metallic finishes, offer refined aesthetics and unique versatility. Perfect for wall coverings, they are equally suitable for creating custom furniture, table tops, and design objects.

Each surface is designed to enhance the inherent quality of the wood, transforming it into a distinctive element for residential, commercial, and prestigious environments.

Thanks to attention to detail and continuous research for innovative solutions, LegnoMArt's wooden surfaces stand as an excellent choice for those seeking high-quality materials and timeless design.
