

## KI-PON HAT

KI-PON RAIN HAT is made with the same high- quality technical fabric used with KI-PON raincoats, in the same patterns and colours of the collection.

The wide brim, in the style “Northern Seas Sailormen”, broader in the rear side of the hat, gives a better protection thanks the inner PCV layer, and the comfortable ear flaps are a great shield from the wind.

KI-PON HAT can be rolled up and put in its own sachet; it takes very little space, allowing you to carry it along, even when it is wet, ready to face every single change of weather.

Suitable also for traveling.
