SINUOSITY, ELEGANCE, BALANCE

**TRANSFORM OVER TIME.
MODIFY YOUR BODY.
CHANGE THE PERCEPTION OF YOUR LIMITS.
UNDER THE SUNLIGHT,
A GLASS SHAPE MOVES IN A STONE STRUCTURE,
SOFT AND SINUOUS.
IT AWAKENS, DEVELOPS, FREES ITSELF
LIKE A “COCHLEA”, A SNAIL
COMING OUT OF ITS SHELL.**

Coki Barbieri

Inspired by the life cycle of land snails and the sinuous shapes of their bodies, the Cochlea vase collection expresses the transitory phases of both human and animal life through the brilliance of glass and the earthy tones of stone. The concepts of balance and unity are conveyed through interlocking shapes that connect without permanent unions. Each vase consists of three parts: two made from stone and one from glass, simply placed together to form the final shape. The handcrafted borosilicate glass is created without molds and is painted on the external surface. This method requires each stone element to be handcrafted to fit the glass perfectly, making each piece unique.

Patented Design, traceable series by a serial code from 2020.

BLENDING THE BRIGHTNESS OF BOROSILICATE GLASS, SKILFULLY HAND-FOLDED AND SHAPED, WITH THE WARM, EVOCATIVE QUALITIES OF THE STONE, A TRIBUTE TO ITALIAN CRAFTSMANSHIP, METICULOUSLY CREATED USING ONLY RAW MATERIALS SOURCED FROM THE REGIONS OF THE PENINSULA.

UNIQUE PIECES

EACH STONE PIECE IS HANDCRAFTED TO MATCH ITS CORRESPONDING GLASS PART THROUGH MULTIPLE SCULPTING STEPS.

Coki Barbieri personally crafts each stone piece using a unique composite developed in our laboratory, called Anthologia, derived from the Latin term for “flower collection.”

This composite is made by combining the finest fragments of Coki's favorite stones. Importantly, the compound contains no cement, glue, or industrially derived aggregates. The entire production process follows the ancient techniques of the Romans and the Middle Ages, including the 100% plant-based treatment applied to the external surface. The process involves eight types of handwork, including solar drying and manual tools, with minimal use of electrical tools to reduce preparation time.

- Any differences in the shape of the stone and glass are considered normal.
- Due to the absorption of the natural treatment given to the surface, the stone will become slightly lighter and brighter over time, maintaining its basic color.
- Each piece is traceable by a serial code and accompanied by a written guarantee signed by Coki Barbieri.

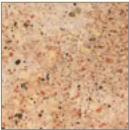

COCHLEA DELLO SVILUPPO · VASE FOR FLOWERS

MATERIALS	BOROSILICATE GLASS, ANTHOLOGIA HANDCRAFTED STONE
PRODUCTION AREA	NORTHERN ITALY
DIMENSIONS & WEIGHT	W 24 x D 8 x H 30 cm · 4,4 kg / W 9,4 x D 3,2 x H 11,8 · 9,8 lb
ASSEMBLY	no. 3 COMPONENTS, NO PERMANENT CONNECTION
PACKAGE DIMENSIONS	W 45 x D 31 x H 18 · 4,1 kg / W 17,7 x D 12,2 x H 7,1 · 9,2 lb
SUGGESTED RETAIL PRICE	€ 870,00

PRODUCTION TIMES	4-6 WEEKS
