

STAURINO
F R A T E L L I

At the end of 1800,
Natale Staurino opened his first
workshop in Valenza, Italy
and started to
craft jewelry pieces in a studio
at the workshop.
Today, over a hundred years and
four generations later, we continue
this legacy each and every day
with the same spirit;
handcrafting and designing
unique works of jewelry
with passion and pride.

Combining elegance and luxury we create
timeless, state of the art pieces of jewelry using
the purest of gems mounted with impeccable
craftsmanship and attention to detail.
