TRACTION SOCKS

Technical Traction sock designed to support the performance of dancers.

Features:

- Technological microfibre: by exploiting the heat emanating from the dancer's body, it converts it into FIR RAYS and reflects it onto the skin tissues.
- Soft sponge on the inside: protects and generates comfort at the most sensitive points of a dancer's foot and, thanks to the fabric it is made of, helps to soothe minor skin abrasions.
- Plantar grip on the forefoot and heel
- Available in black, white and natural colours
- Composition : Microfibre , Spandex
- Sizes 35/37 - 38/39 - 40/42
- Made in Italy

Benefits for the dancer:

- More stability in turns.
- Support in jumps and perfection in lines.
- Helps stabilise pirouettes and control movements.
- Excellent grip and control of the foot on the floor, without compromising the need to slide the foot when needed while performing.
