

Collection 23/24

CUSTOM BUSINESS®

My name is Vito Di Lorenzo, and in December 2020, amidst the pandemic, I brought **CUSTOM BUSINESS** to life based on a meticulous market analysis and a clear, well-planned vision extending until 2030. This idea revolves around three key pillars:

- **100% Made in Italy**
- **Personalization**
- **Social and environmental sustainability**

Drawing inspiration from the captivating tales of American startups, I embarked on this journey in my garage located in the province of Verona, Italy, armed with my trusty sewing machine. Within just two years, this idea transformed into a thriving company, garnering over thirty interviews, reviews, and articles in both print and online fashion publications. Additionally, we were honored with the prestigious **Excellence Artisanal award**, presented by the President of Camera Moda at the Milano Fashion **Global Summit 2022**.

Furthermore, our accomplishments extended to three television interviews on **TVMODA, Digital Terrestre and Sky**.

We make leather bags and accessories, customized
and
certified 100% Made in Italy.

Certifications
