# BONBON COLLECTION

## The *Sweetest* Thing

Thanks to its playful temperament, the "**BonBon**" collection wants to suggest sweet suggestions, reminding us that after hard times we need to find some tenderness and happiness in life.

The bags in the "**BonBon**" collection are full of references to the sweet world of candy. Bright colours, translucent surfaces, soft lines and strong contrasts create reminiscences of candy shop counters, funfairs, candyfloss and lollipops, as well as all that kaleidoscopic aesthetic imagery of the first decade of the 2000s, characterised by fluorescent tones, translucent materials and boldly geometric shapes.
