

SCIENCE RESEARCH HEALTH

EACH OF US IS UNIQUE

HUMAN WELL BEING WITH
THE RIGOUR OF SCIENCE

HISTORY

We are an **Italian company**, based in the province of Como, one of the first to present **natural products** to the Italian medical community. Since 1995 we are committed in the development and delivery of nutraceuticals and medical devices for the people health and well-being.

Thanks to our Research and Development Department we **produce carefully formulated and highly concentrated products** in order to get the best performance from the **synergy of the different components**.

MISSION

Each and every one of us is unique and, as such, has special needs. Our mission is to meet everyone's needs, respecting their uniqueness.

In our portfolio of more than 35 products with titrated and standardized extracted principles, selecting the most qualified partners for production, checking every step of supply chain to **ensure total patient's safety**.

**High functional
content products**

INNOVATION IS TO GROW

PROJECT

Collateral activities to research, production and marketing provide an **intensive program of scientific updating** for Healthcare Professionals. Our commitment is also extended with the **support of the most important specialized congresses** of the reference areas, thus contributing to the **scientific education** and the **constant updating of the medical class**.

STRATEGY

Our widespread network of medical information allows us to spread the culture of nutraceutical products among medical specialists. Our **medical-scientific representative team, made up of highly qualified people**, guarantees support from the product presentation to the advice and support on projects of clinical confirmation of the characteristics of our preparations.

We constantly work to be a reference point for the **nutraceutical market** in terms of **quality, innovation and science**.

SCIENTIFIC APPROACH

To support our Medical Reps who visit Doctors, we constantly produce scientific papers. Furthermore, most of our products are backed by clinical trials.

STEADY GROWTH FROM 2015 TO 2021

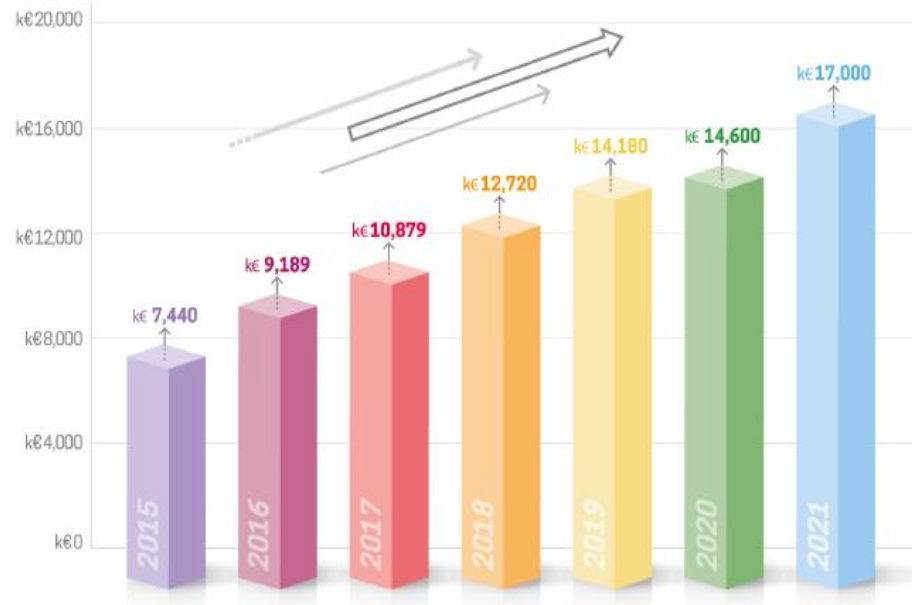

Omega Pharma is alert to market changes and projected into the future, but always proud of the values that are the basis of its business philosophy.

Professional skills, collaboration at every level and ethicality are the core values of the company spirit that allow us to respond to internal and external challenges always quickly and effectively.

CONSCIOUS CHOICE

In 2018 in Italy there were 26 million prescriptions of dietary supplements (+28% vs 2016). The market share in pharmacy and drugstore is 95% while 5% only in organized distribution (GDO).

Doctor and then pharmacist are the main information channels of Italians and play a key role in the choice to use dietary supplements.
