*NRV: nutrient reference values to regulation/EU/N° 1169/2011

**C.F.U.= Colony Forming Units

PROLACTIS® GG PLUS is a symbiotic association containing Inulin, FOS and Lactobacillus Rhamnosus GG for the balance of intestinal flora, with Boswellia, Bromelain, Vitamin D3, Quercetin and L-tryptophan as adjuvant in case of deficiency or increased need of such nutrients.

QUALITATIVE COMPOSITION

A: Inulin; acidifier: citric acid (E 330); Quercetin; Maltodextrin; L- tryptophan; Bromelain 2500 GDU/g (Ananas comosus (L.) Merr., stipites); Boswellia (Boswellia serrata Roxb. Ex Colebr. gummi resina) d.e. tit. 8,5% -10,5% AKBA; aroma; anti-caking agent: silicon dioxide (E 551); sugar substitute: sucralose (E 955). B: short-chain fructo-oligosaccharides FOS; Lactobacillus Rhamnosus GG ATCC 53103; vitamin D3 (Cholecalciferol powder); anti-caking agent: silicon dioxide (E 551).

POSOLOGY AND METHOD OF ADMINISTRATION

1 sachet a day. Open both sides of the T-WIN sachet (1) and pour the contents into a dry glass, (2) add water or other non-carbonated beverage (180 ml) at room temperature, mix until the contents of the sachet have been completely dissolved before drinking (the physical characteristics of the product require a minimum mixing time to reach the dissolution of the powder).

SPECIAL WARNINGS

Do not exceed the recommended dose. The supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light, at a temperature not exceeding 25°C. The expiry date refers to the product properly stored, in full packaging. Keep out of reach of children under three years.

PROLACTIS[®] LT

SACHETS

Food supplement containing microencapsulated probiotics + FOS

- 14 sachets of 2.6 g
- Total net content: 36.4 g

PROLACTIS[®] LT is an innovative symbiotic association based on live microencapsulated* gastroprotected probiotics and prebiotic fibre FOS (fruit-oligosaccharides) developed to maintain the correct balance of the intestinal flora and to support its development and colonization.

A sachet of **PROLACTIS[®] LT** ensures the supply of no less than 2 billion live microencapsulated gastroprotected probiotics equal to 10 billions probiotics in traditional form.

Is certified Allergen Free Patented by Probiotal S.p.A., in other words it is free of ALL allergens according to current legislation (All. II Reg. UE1169/2011).

The following allergens are therefore absent: wheat (including spelt and khorasan wheat), rye, barley, oats or their hybrid strains, crustaceans, eggs, fish, peanuts, soya, milk (including lactose), nuts, celery, mustard, sesame seeds, sulphur dioxide and sulphites at concentrations of more than 10 mg/kg or 10 mg/litre in terms of total SO₂, lupins, molluscs.

QUALITATIVE COMPOSITION

Fruit-oligosaccharides (FOS); microencapsulated probiotic micro-organisms: Bifidobacterium breve BRO3 (DSM 16604), Lactobacillus rhamnosus LRO4 (DSM 16605).

POSOLOGY AND METHOD OF ADMINISTRATION

1-2 sachets a day. It is recommended to take the product on an empty stomach (preferably half an hour before meals), pour the contents of a stick into a dry glass and then add water or other non-alcoholic drink, not carbonated and at room temperature.

SPECIAL WARNINGS

Do not exceed the recommended dose. The supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle. Do not give to children under three years of age.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources, sunlight and avoid contact with water. The expiry date refers to the product properly stored, in full packaging. Keep out of reach of children under three years.

PROLACTIS® START

CAPSULES

Food supplement containing microencapsulated probiotics and B group vitamins.

- 10 capsules of 360 mg
- Total net content: 3.6 g

PROLACTIS® START is a innovative symbiotic association containing live microencapsulated* gastroprotected probiotics developed to ensure the recovery of the balance of the intestinal flora in case of antibiotic therapies or nutritional imbalances. The B group vitamins help to regulate energy metabolism (B1, B2, B3, B5, B6, B12) to modulate the activity of the immune system (B6, B9, B12).

Two capsules of **PROLACTIS® START** ensure the intake of not less than 9 billion live microencapsulated gastroprotected probiotics equal to 45 billion probiotics in traditional form.

Is certified Allergen Free Patented by Probiotal S.p.A., in other words it is free of ALL allergens according to current legislation (All. II Reg. UE1169/2011).

The following allergens are therefore absent: wheat, rye, barley, oats, spelt, kamut and strains thereof, crustaceans and products thereof, eggs and products thereof, fish and fish products, peanuts, soya and soya products, milk and milk products including lactose, nuts, celery, mustard, sesame seeds, lupins, molluscs and mollusc products, sulphur dioxide and sulphites at concentrations of more than 10 mg/kg or 10 mg/l expressed as sulphur dioxide.

QUALITATIVE COMPOSITION

Powder: maltodextrin; microencapsulated probiotic microorganisms: Bifidobacterium breve BR03 (DSM 16604), Lactobacillus rhamnosus LR04 (DSM 16605); Vitamin B3, Vit. B1, Vit. B2, Vit. B5, Vit. B6, Vit. B9, Vit. B12. Capsule: Hydroxypropylmethylcellulose (HPMC); Opacifier: titanium dioxide.

POSOLOGY AND METHOD OF ADMINISTRATION

1 or 2 capsules a day, at least for 10 consecutive days. It is recommended to take the product on an empty stomach preferably half an hour before meals.

SPECIAL WARNINGS

Do not exceed the recommended dose. The supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle. Keep out of reach of children under three years.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources, sunlight and avoid contact with water. The expiry date refers to the product properly stored, in full packaging. Keep out of reach of children under three years.

RHAMNODIR®

DROPS

Food supplement based on *L. Rhamnosus* GG (ATCC 53103) and Zinc

- Total net content: 20 ml

GLUTEN FREE - LACTOSE FREE

RINFODIM 3® is an association of *Lactobacillus Rhamnosus* GG (ATCC 53103) and Zinc for the rapid rebalancing of intestinal flora following diarrhea and intestinal dysbiosis.

QUALITATIVE COMPOSITION

Medium-chain triglycerides; *Lactobacillus Rhamnosus* GG ATCC 53103; vegetable fat; microencapsulated zinc oxide; emulsifying agent: E471.

POSODOGY AND METHOD OF ADMINISTRATION

On first use remove the cap and apply the graduated dropper. Infants and children up to 12 years old: 1 ml a day; after 12 years and adults: 2 ml a day, pure or mixed in non-carbonated drink at a temperature not exceeding 37 °C, ideal is milk or yogurt. Shake well before use.

SPECIAL WARNINGS

Do not exceed the recommended dose. The supplements are not intended as a substitute for a varied and balanced diet and a healthy lifestyle. It contains polyalcohols: excessive consumption may have laxative effects.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources, at a maximum temperature of 25°C. The expiry date refers to the product properly stored, in full packaging. Keep out of reach of children under three years.

CRIOVEN[®] SCHIUMA

CRYOGENIC FOAM

Cryogenic action and "crackling" effect for immediate relief from symptoms related to tired and heavy legs.

- Total net content: 150 ml

DERMATOLOGICALLY TESTED PRODUCT
EXTERNAL USE

CRIOVEN[®] SCHIUMA is an innovative topical solution for the treatment of disorders caused by venous insufficiency.

QUALITATIVE COMPOSITION

Butane, Aqua, Alcohol Denat., Propane, Menthol, Isobutane, Propylene Glycol, Ppg-26-buteth-26, Hydroxyethylcellulose, Peg-40 Hydrogenated Castor Oil, Arnica Montana Flower Extract, Methyl Salicylate, Mentha Piperita Oil, Polyquaternium-4, Troxerutin, Dimethyl Sulfone, Sodium Hyaluronate, Glycyrrhetic Acid, Limonene.

POSOLOGY AND METHOD OF ADMINISTRATION

Apply an adequate amount of foam on the area to be treated, massaging gently with a bottom up approach.

We recommend 2 applications per day, preferably one in the morning and one in the evening.

Treatment cycles of at least 1 or 2 consecutive months, repeatable over time, are recommended.

SPECIAL WARNINGS

For external use only. It must not be swallowed or placed in contact with eyes and mucous membranes. Apply the product with clean, dry hands. Don't use in case of pregnancy or breastfeeding.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources, at a maximum temperature of 50°C. Keep out of reach of children.

CRIOVEN[®] GEL

CRYOPHLEBOTONIC GEL

Cryogenic action for immediate relief from symptoms related to tired and heavy legs.

- Total net content: 120 ml

DERMATOLOGICALLY TESTED PRODUCT
EXTERNAL USE

CRIOVEN[®] GEL is an innovative treatment for the immediate relief of disorders caused by swelling in the lower limbs, obtained thanks to the cryogenic action (of the cold) and to the completeness of the formulation containing Centella Asiatica natural extract (its active constituents - Terpenes and Glycosides - favor the functionality of the microcirculation).

QUALITATIVE COMPOSITION

Aqua, Alcohol, Glycerin, Propylen glycol, Menthol, Carbomer, Triethanolamine, Camphor, Centella asiatica extract, CI 19140, CI 42090

POSOLOGY AND METHOD OF ADMINISTRATION

Spread the gel one or more times a day on the parts concerned: for a more intense action wrap the parts treated with a damp cloth.

Wait until the cryogenic action ("cold effect") is manifested and keep the position for at least 10/15 minutes: and end treatment remove any residual product not absorbed by warm shower.

Treatment cycles of at least 1 or 2 consecutive months, repeatable over time, are recommended.

SPECIAL WARNINGS

For external use only. It must not be swallowed or placed in contact with eyes, mucous membranes, and skin lesions. Apply the product with clean, dry hands.

SPECIAL PRECAUTIONS FOR STORAGE

Keep out of reach of children.

LINFADREN® CREMA

CREAM WITH LYMPH DRAINING ACTION

- Total net content: 100 ml

DERMATOLOGICALLY TESTED PRODUCT
FOR EXTERNAL USE ONLY

LINFADREN® CREMA is an innovative topical formulation with synergistic action on lymphatic and/or venous edematosis states of differentiated etiopathogenesis.

QUALITATIVE COMPOSITION

Aqua, Prunus Amygdalus Dulcis Oil, Propylene Glycol, Glycerin, Ethylhexyl Palmitate, Glyceryl Stearate, Cetyl Alcohol, Phenoxyethanol, Peg-75 Stearate, Menthyl Lactate, Ppg-26-buteth-26, Carbomer, Dimethicone, Peg-40 Hydrogenated Castor Oil, Diosmine, Ceteth-20, Steareth-20, Arnica Montana Flower Extract, Sodium Hyaluronate, Allantoin, Ethylhexylglycerin, Disodium Edta, Melilotus Officinalis Extract, Lecithin, Escin, Sodium Hydroxide, Beta-sitosterol.

POSOLOGY AND METHOD OF ADMINISTRATION

Apply an adequate amount of cream on the area to be treated, massaging gently with a bottom up approach. In case of hemorrhoids (external) LINFADREN® CREAM should be applied from one to several times a day, if possible after each evacuation or at any time when the symptoms are more troublesome.

We recommend 1-3 applications per day, unless otherwise indicated by the doctor.

SPECIAL WARNINGS

For external use only. It must not be swallowed. Apply the product with clean, dry hands. Keep out of reach of children.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources.

UROLOGY & GYNECOLOGY

GYNEDRAL® GEL

VAGINAL SINGLE-DOSE WITH CANNULA

Non-hormonal vaginal gel with moisturizing and lubricating action

- 8 monodoses of 5 ml - Total net content: 40 ml

MEDICAL DEVICE

DERMATOLOGICALLY TESTED ON SENSITIVE SKIN

NICKEL-CHROMIUM-COBALT TEST: < 1 ppm

INTERNAL USE

GYNEDRAL® is a non-hormonal vaginal gel, containing hyaluronic acid and a patented mix of moisturizing and restructuring agents. Its delicate formulation, free from parabens, counteracts vulvo vaginal dryness and related disorders. It acts as an intimate lubricant and moisturizer, favoring the restoration of natural compactness and elasticity.

QUALITATIVE COMPOSITION

Hyaluronic acid (sodium salt), phospholipids, vitamin E acetate, trealose, ceramide NS, hydrogenated lecithin, gelling and stabilizing agents, purified water qb up to 100.

POSOLOGY AND METHOD OF ADMINISTRATION

-For moisturizing and repairing: apply 2 or 3 times per week until resolution of symptoms

-For a lubricating action: 1 application before or during sexual intercourse. Compatible with condom.

Press to apply the entire dose of product into the vagina. Remove the applicator and discard the single-dose tube.

SPECIAL WARNINGS

Single-dose tubes are individually packaged and can only be used once. Make sure your hands are clean. Do not apply to injuries. Do not ingest. Avoid contact with eyes and eye contour. It may cause eye irritation. In case of accidental contact, rinse well the part with plenty of water for a few minutes. There are no data available about the use of **GYNEDRAL® GEL** in pregnancy or breastfeeding or in association with other gynecological treatments.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place away from light and localized heat sources. Keep out of reach of children.

OPHTHALMIC PRODUCTS

IALUSOL®

EYE DROPS WITH HYALURONIC ACID

Helps maintain the natural water balance of the eye.

- Total net content: 15 ml

**MEDICAL DEVICE
PRODUCT IN STERILE ASEPTIC A
EXTERNAL USE ONLY**

IALUSOL® is an innovative formulation containing hyaluronic acid, a polymer present both in the tear film and in the human eye. Hyaluronic acid is highly biotolerate, it is able to relieve irritation of the eye surface and keeps it optimally hydrated.

QUALITATIVE COMPOSITION

Tetra-acetic ethylene diaminol acid EDTA 0.023%, Poli Esa Methylen Biquenide 0.0002%, macromolecular hyaluronic Acid 0.2%, Sodium Chloride, Sodium hydroxide, Sodium Phosphate Bibasic, Sodium Phosphate Monobasic, Purified water.

POSOLOGY AND METHOD OF ADMINISTRATION

Trickle one or two drops per eye exerting a slight pressure on the bottle. You can use the product every day, even several times a day, as needed, even wearing contact lenses. **IALUSOL®** use is simple, safe and free of any side effects. It is suitable for everyone, including children and the elderly. Tests carried out by primary laboratories attest biocompatibility according to European Standards**.

** Standard	IALUSOL®
UNI EN ISO 10993.5	It is not cytotoxic by direct contact
UNI EN ISO 10993.10	It does not cause irritation

SPECIAL WARNINGS

When medicines are prescribed, for ophthalmic use, seek advice from the specialist on the simultaneous use of **IALUSOL®**. The solution must be used within 90 days of opening the bottle. Do not use if the seal is not intact. Never contact the dropper with any surface, including the eye-piece, so as not to pollute the product.

SPECIAL PRECAUTIONS FOR STORAGE

Close the bottle well after use. Keep the bottle away from heat sources and still below 30°C. Do not use after the expire date indicated on the package. Keep out of the reach of children.

IALUSOL[®] MONO

EYE DROPS WITH HYALURONIC ACID

Ophthalmic solution, sterile, without preservatives, based on Hyaluronic Acid.

- 20 resealable micro-containers (each 0.5 ml) - Total net content: 10 ml

MEDICAL DEVICE
STERILE A
EXTERNAL USE ONLY

IALUSOL[®] MONO is an ophthalmic solution based on hyaluronic acid with high molecular weight, with lubricating, moisturizing and stabilizing properties of the tear film.

QUALITATIVE COMPOSITION

Hyaluronic acid (0.2% w/v), sodium dibasic phosphate, sodium monobasic phosphate, sodium chloride, water for injectable preparations.

POSODOGY AND METHOD OF ADMINISTRATION

Open the monodose by rotating and pulling the cap. Administer a drop of product in the eye, exerting a slight pressure on the body of the monodose, once or several times a day, as needed. The solution is filled in foldable single-dose and the remaining product can be used up to 12 hours from the first opening.

SPECIAL WARNINGS

The product is for external ophthalmic use only. Do not use the product after the expiry date indicated on the package. Avoid touching the eye with the tip of the mini-container. After administration, there may be a temporary visual blur that disappears within a few minutes: it is convenient to wait for the disappearance of the blur before undertaking any activity that requires visual clarity. Wait 10-15 minutes between the use of the product and the possible instillation of drugs for external ophthalmic use. Once opened, discard any remaining product after 12 hours from the first opening. Do not swallow.

SPECIAL PRECAUTIONS FOR STORAGE

Keep the bottle away from heat sources and still below 30°C. Do not use after the expire date indicated on the package. Keep out of the reach of children.

REIDRAL[®] OFTA

PERIOCLAR LIPOGEL

Lipogel formulation indicated in case of swelling of the eyelids, dryness of the periorcular area, seasonal allergies, sensitized skin, prone to irritation or dermatitis.

- Total net content: 25 ml

**PRODUCT DERMATOLOGICALLY TESTED ON SENSITIVE SKIN
FOR EXTERNAL USE ONLY**

REIDRAL[®] OFTA is an innovative "lipogel" formulation for daily use for eyelids and periorcular area characterized by sensitive, fragile, hyper-reactive skin, subject to redness, irritation or dermatitis: counteracts the sensation of discomfort, restores the balance of the skin in the eyelid and periorcular area, ensures an action of deep hydration, emollient and soothing, reddening, dermatrophic and regenerating.

QUALITATIVE COMPOSITION

Aqua (water), Glycerin, Sodium Polyacrylate, Propylene Glycol, Peg-40 Hydrogenated Castor oil, 4-Terpineol (Melaleuca Alternifolia leaf oil), Triethanolamine, 1,2-Hexanediol, Caprylyl Glycol, Niacinamide, Tocopheryl Acetate, Sodium Ascorbyl Phosphate, Aloe Barbadensis leaf juice, Disodium Edta, Sodium Hyaluronate, Glucosyl Hesperidin, Tropolone, Chamomilla Recutita oil (Matricaria), Sodium Carboxymethyl Betaglycan, Hydrolyzed Rna, Hydrolyzed Dna.

POSODOLOGY AND METHOD OF ADMINISTRATION

It is recommended to apply REIDRAL[®] OFTA twice a day (normally in the morning and evening) when the symptoms are acute, once a day when the blepharitis is recovering or in prophylaxis phase.

SPECIAL WARNINGS

Do not use after the expiry date indicated on the package. Do not swallow. Do not use if the packaging is damaged.

SPECIAL PRECAUTIONS FOR STORAGE

Store in a cool and dry place, away from light and localized heat sources. Keep out of reach of children.

REIDRAL® GARZE

DISPOSABLE STERILE GAUZE FOR PERIOCCULAR HYGIENE

Indicated for removal from the eyelid and eyelash, of crust, cisma or secretions due to inflammatory and/or infectious phenomena.

- Total content: 20 cotton gauze

DERMATOLOGICALLY TESTED ON SENSITIVE SKIN

STERILIZED WITH GAMMA RAYS. NO PRESERVATIVES AND FRAGRANCES.

EXTERNAL USE ONLY

REIDRAL® GARZE are sterile 100% cotton gauze soaked in a solution of plant extracts and hyaluronic acid sodium salt for a cleansing activity of the perioocular areas: do not leave residues and are to operate an accurate cleansing by removing the secretions or any foreign bodies.

QUALITATIVE COMPOSITION

100% cotton gauze, soaked in a solution containing water, propylene glycol, ammonium glycyrrhizinate, Chamomile recutita glycolic extract, Glycolic extract of Euphrasia officinalis, Hyaluronic acid sodium salt, Sodium bicarbonate, PEG/PPG-20/16 Dimethicone, Capriyl/Capryl Glucoside, grain Coccoaminoacido, Ethylhexylglyceride, 2-phenylethyl alcohol, sodium chloride.

POSOLOGY AND METHOD OF ADMINISTRATION

After cleaning your hands properly, open the sachet and remove the gauze. In case of particularly persistent secretions or occlusion of the lacrimal canal, it is advisable to heat the closed sachet for a few minutes in warm water (about 40°C) and then use the gauze as a warm compress massaging gently. In case of phlogosis it is advisable to cool the sachet closed in the refrigerator for a few hours and then apply the gauze open on the eye, keeping it for a few minutes as a cold compress.

SPECIAL WARNINGS

Disposable gauze. In case of re-use can be a vehicle of infections. In case of infectious states do not use the same gauze for both eyes. External use only. Use on intact skin, avoid direct contact with the eye surface. Suspend treatment in case of irritation or hypersensitivity to the product, consulting your doctor if the symptoms persist. The product has not been tested with other pharmacological therapies or for prolonged use.

SPECIAL PRECAUTIONS FOR STORAGE

Store protected from dust. Keep out of reach of children.

COUGH & COLD

EUKIN®

SYRUP

Cough syrup with natural extracts and honey for dry and fat cough

- Bottle of 150 ml

MEDICAL DEVICE
GLUTEN FREE

EUKIN® syrup creates a protective film that soothes cough, protects the upper airways and promotes protection and hydration of the pharyngeal mucosa. In case of phlegm promotes the hydration of the mucus facilitating its expulsion. In case of dry cough protects the pharyngeal mucosa from irritating agents by performing a soothing action on the irritated mucosa.

QUALITATIVE COMPOSITION

Plantain extract, flower honey, fructose, altea extract, purified water, xanthan gum, aroma, citric acid, potassium sorbate.

POSOLOGY AND METHOD OF ADMINISTRATION

- Children 1 - 2 years: 1 teaspoon 2 times a day.
- Children 3 - 4 years: 1 teaspoon 3 times a day.
- Children 5 - 10 years: 2 teaspoon 2 times a day.

SPECIAL WARNINGS

Before administering to children under three years of age it is recommended to seek the advice of the doctor or pharmacist. Consult your doctor if symptoms persist after a week of use. Close the bottle carefully after use. Do not take if hypersensitive or allergic to one of the components. Do not use the product after the expiry date indicated on the package. Keep the package out of the reach of children. Do not use if the packaging is not intact. The expiry date refers to the product in intact packaging, correctly stored.

SPECIAL PRECAUTIONS FOR STORAGE
