# ITALIAN PALISSANDRO MARBLE

A P P L I C A T I V E   S C E N T E D   A R T

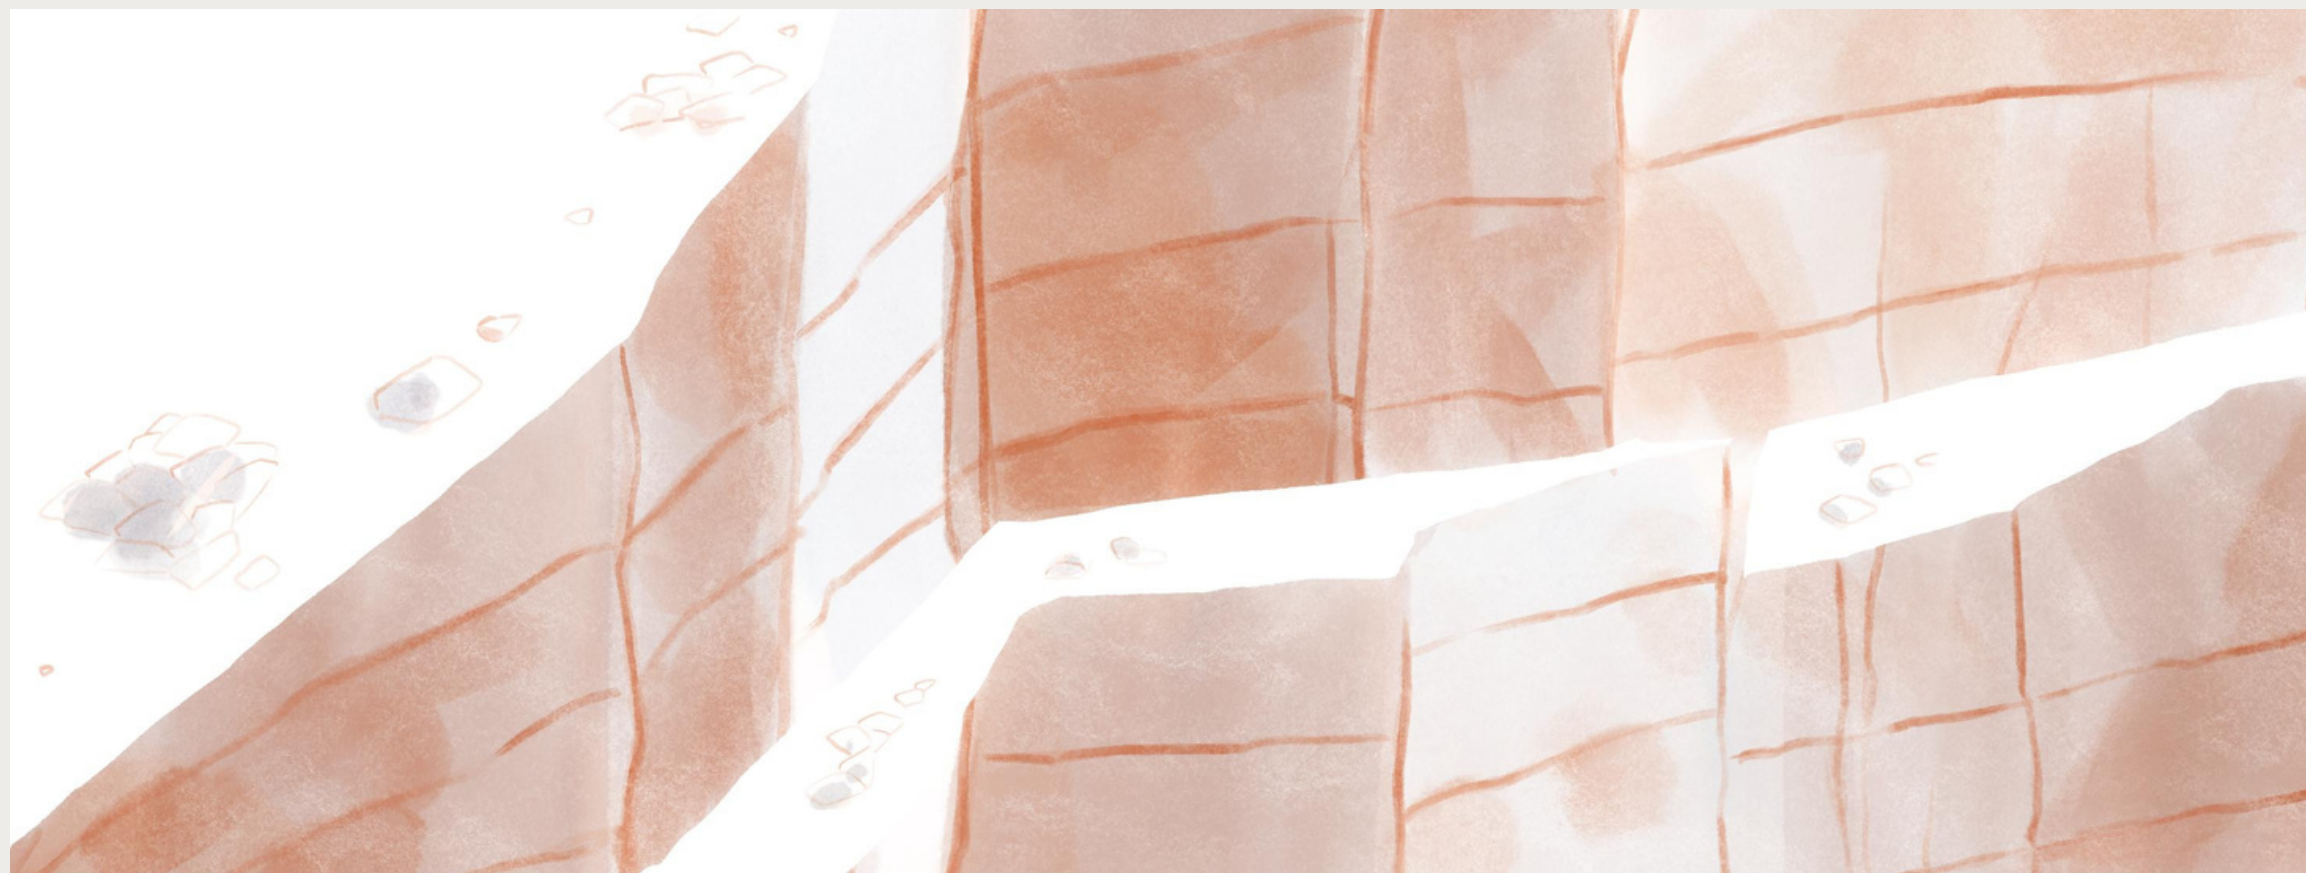

Palissandro marble is a stone of extraordinary beauty. Its highly pure material is dotted by minuscule bright crystals which shine like a shower of diamonds.

Mesozoic Era.

This wonderful marble only comes from the Crevola quarry, an age-old deposit in the heart of the Ossola Valley.

Also known as Crevola marble, Palissandro marble is unique in the world.
