

959 NINEFIVENINE

AW_2026

SUSTAINABLE BAGS

MADE IN ITALY

959 NINEFIVENINE®
is a concept, style
and project which links design,
functionality, aesthetic and
sustainability through
a creative philosophy
in line with the current themes
of contemporary living.

A woman with dark hair pulled back, wearing a dark ribbed sweater and a grey scarf, stands on a rocky cliffside. She is holding a green handbag with a white geometric pattern. The background shows a clear sky and the rugged texture of the rocks.

MADE
IN
ITALY

SUSTAINABLE BAGS MATERIALS

Upcycled SeatBelt

Recovered from car wreckers, washed, sanitized and divided according to their different textures.

Apple Waste

A vegan material with a low environmental impact, made with apple waste from the agrifood industry. Through a coagulation process that replaces 50% of fossil derivative with 50% of product coming from apple peels and cores from food industry discards.

Vegan, durable and waterproof material.

Recycled Plastic

Recycled polyester and recycled nylon are a more environmentally sustainable fibers than their virgin equivalent. The more we recycle, the less garbage ends up in our landfills. We can reduce our dependence on oil and natural resources, save on production and energy costs, and reduce the negative impacts of extracting and processing virgin materials.

AW2026

A woman with dark hair pulled back, wearing a textured brown coat, stands on a rocky coastline. She is holding a small, rectangular camera bag with a green and white geometric pattern. The background shows the ocean and a cloudy sky.

Designed to be carried both as a crossbody and as a handbag. The detachable handle can be converted into a wristlet strap when needed. Featuring an internal open pocket for your smartphone, it perfectly accommodates all your daily essentials.

Available colors: black, burgundy, chocolate, dark green.
