ABOUT US

Argan De Vie was born following the trip to Morocco undertaken by Silvia Sacco, Founder of the company. Always passionate about natural products with beneficial properties for the skin. Intrigued by the precious elixir, she transformed the discovery of this treasure and other unique ingredients in a brand that embodies our vision of beauty, enriched by the power of Made in Italy.

VISION

We believe that each of us deserves to feel the best in their own skin.

MISSION

We work every day to offer effective and sustainable beauty solutions, and transform the beauty routine into a unique gesture of the day with all the power of Made in Italy.

NATURE MEETS INNOVATION

Argan oil deeply moisturizes thanks to fatty acids and vitamin E.

← DEEP
HYDRATION →

Low molecular weight **hyaluronic acid** delivers moisture to the deeper layers of the skin.

Argan oil reduce wrinkles and maintains the luminosity of the skin.

← ANTI
OXIDANT →

A **peptide complex** stimulate collagen synthesis, slowing down the aging process.

Argan oil improves skin elasticity, thanks to omega-3 and 6 fatty acids.

← ELASTICIZES →

Hyaluronic acid in HIGH PCT/QTY retains water, making the skin elastic and firm.

Argan oil protects the skin from external factors, reducing damages.

← PROTECTS →

Phenoxyethanol, maximize film-forming properties, acting as a protector against external agents.

PRODUCTS

CLEANSING

Five solids that meet every skin need. Three are specifically formulated for facial cleansing (PureWash), with targeted actions: exfoliating, moisturizing and gentle. The last two (Exfolia), however, are dedicated to scrubs, one for the body and one for the face.

FACE

Water Tank envelops the skin creating a precious water reservoir that keeps it plump and radiant all day long. Overnight Restore works overnight, refining texture and reducing imperfections. When you wake up, your face is radiant and rebalanced.

BODY

Silky Shot offers an advanced formula with 40% oil, which restores the skin's lipid film and protects it from external aggressions. Its balm-to-lotion texture blends and creates a silky effect without leaving a trace. Perfect for rehydrating the skin after sun exposure.

ANTI-WASTE TECHNOLOGY

Inside our bottles, there is a pouch positioned along the inner walls of the container that holds the product. As the product is dispensed, the pouch gradually retracts upwards until it reaches the top, ensuring optimal use of the contents. This innovative system prevents any residue from remaining at the bottom of the bottle, allowing every drop to be utilized and minimizing waste. This innovative system is all MADE in ITALY.

SUSTAINIBILITY

We buy Argan oil directly from a women's cooperative near Essaouira. This choice allows us to guarantee the maximum purity and sustainability of the raw material, supporting local communities, and to encourage fair trade practices. We promote the values of female entrepreneurship and a culture inclusive and responsible business.

OUR VALUES

We choose extraction methods that keep the characteristics of the raw material intact.

We work and study every day to develop cutting-edge products, always in step with the latest cosmetics trends. We are acutely aware of the importance of protecting our planet; for this reason, we choose recycled glass bottles and formulas with more than 56% natural ingredients.
