The company

Modul Point Srl is a company born in 2017 from the meeting of entrepreneurial figures from different fields of the world of construction, hospitality and tourism design.

The goal was to produce **prefabricated structures** to be allocated to various sectors:

- Tourist accommodation
- Food
- Public sector (toilets, etc.)

FUNCTIONALITY BUT ALSO AESTHETIC CUSTOMIZATION.

This choice has positioned Modul Point Srl on one **medium-high segment** of the sector, connoting the structures as a quality and design product.

STEEL FRAME

- More and more sustainable

Thanks to the constant research of the development department, Modul Point decides to become a pioneer in the world of **sustainable prefabrication** with the use in the realizations of the CFS system, Cold Formed Steel, offering structures with a high content of technological and design.

CFS is the commonly used term to identify profiles produced by profiling or bending cold of thin steel sheets.

The use of cold formed galvanized steel structures in the construction of civil buildings presents enormous advantages not only in terms of living comfort but also in terms of **energy saving**.

After the first years of prefabrication alone, in 2020 the internal Contract sectors have also consolidated and the production of prefabricated bathroom units, Turkish bath, etc.. to serve the **HOTELLERIE** market.

Modulpoint also arrives in the tourism sector with the **ISEO LINE** with a variety of products designed for seaside and tourist areas:

- Beach cabins
- Removable bar kiosks
- Showers
- Toilet modules
- Turrets

ALUMINUM STRUCTURES AND RECYCLED PLASTIC MATERIAL.

A major part of the production of prefabricated modules of the company has as its destination **PUBLIC ENTITIES** and in particular it is served this market through **toilet solutions** for public outdoor use.

MODUL POINT GROUP IN THE WORLD

New horizons

Today the Modul Point Group Srl brand, with two different divisions has further broadened its horizons by starting the construction of a first **4 STAR TOURIST VILLAGE** in the island of Curacao in the **Caribbean** with the total supply of 54 Suites of **45 sqm.**

ModulPoint Patent

The flagship of the company is the **SANIT 0 PORTAL**, certified sanitation gallery for people, designed and built by Modul Point Group, unique in trade to boast aspects of completeness and technological innovation.

SANIT 0 is a registered patent by Modul Point Group.
