THE ORIGINS

Our winery was founded in 2007 with the aim of producing genuine high quality wines. From the very beginning, we had been dedicating a special care and attention to sustainability of entire production chain. Until we reached a turning point in 2015.

PLACES

Our place is the country village of Codognè, land of quince, situated in Treviso plain at the feet of the Conegliano hills, north of Venice. The vineyards, about 14 hectares (35 acres), are partly adjacent to our winery and partly 1 km from it.

THE TURN TOWARDS BIO

In 2015 we introduced the organic farming method, which is as demanding as stimulating. The organic management of the vineyards has brought a total change regarding systems we were used to until that moment: we have re-evaluated the rural hedges as an integral part of the company, rediscovered the function of the grassy lawn and insects in the vineyards, as well as eliminated herbicides and started using 100% natural fertilizers.

BEYOND ZERO RESIDUES

We guarantee zero chemical residues in our wines and limit sulphites use. To optimize our carbon footprint, we built a photovoltaic system with storage, allowing the Cellar to be almost energycally indipendent. More over, we got using recycled consumables for the packaging.

THE PERSPECTIVES

Always looking for a lower impact on environment and new systems for reducing water and soil consumption, we try to implement cultural practices to extend the life of our vineyards, as the bester wine comes from the older vines!

ONLY BIO & VEGAN

The wines we produce in our cellar:

THE VARIETIES

AmiRèsi
Pinot Grigio
DOC delle Venezie

Bio&Vegan

LeMicèe
Chardonnay
DOC Venezia

Bio&Vegan

IoTomìo
