WHY

Valorizziamo gli scarti di lavorazione delle principali filiere del Made In Italy, per creare consumatori più consapevoli e responsabili delle loro scelte sia di acquisto che di utilizzo del tempo

We valorise the processing waste of the main Made In Italy supply chains, to create consumers who are more aware and responsible for their choices both in purchasing and in the use of time

HOW

Sviluppare elementi di arredo ecologici riscaldanti di design **irripetibili**, utilizzando tecnologie innovative a basso consumo e ad impatto Zero

*Develop designer and **unrepeatable** furnishing heating ecological elements, using innovative low-consumption and zero-impact technologies*

MATERIE PRIME

Residui di lavorazione delle filiere del made in Italy (marmo, vino, ortaggi, vetro)

The processing residues *from the Made in Italy supply chains (marble, wine, vegetables, glass)*

MATERIA PRIMA

IL TEMPO

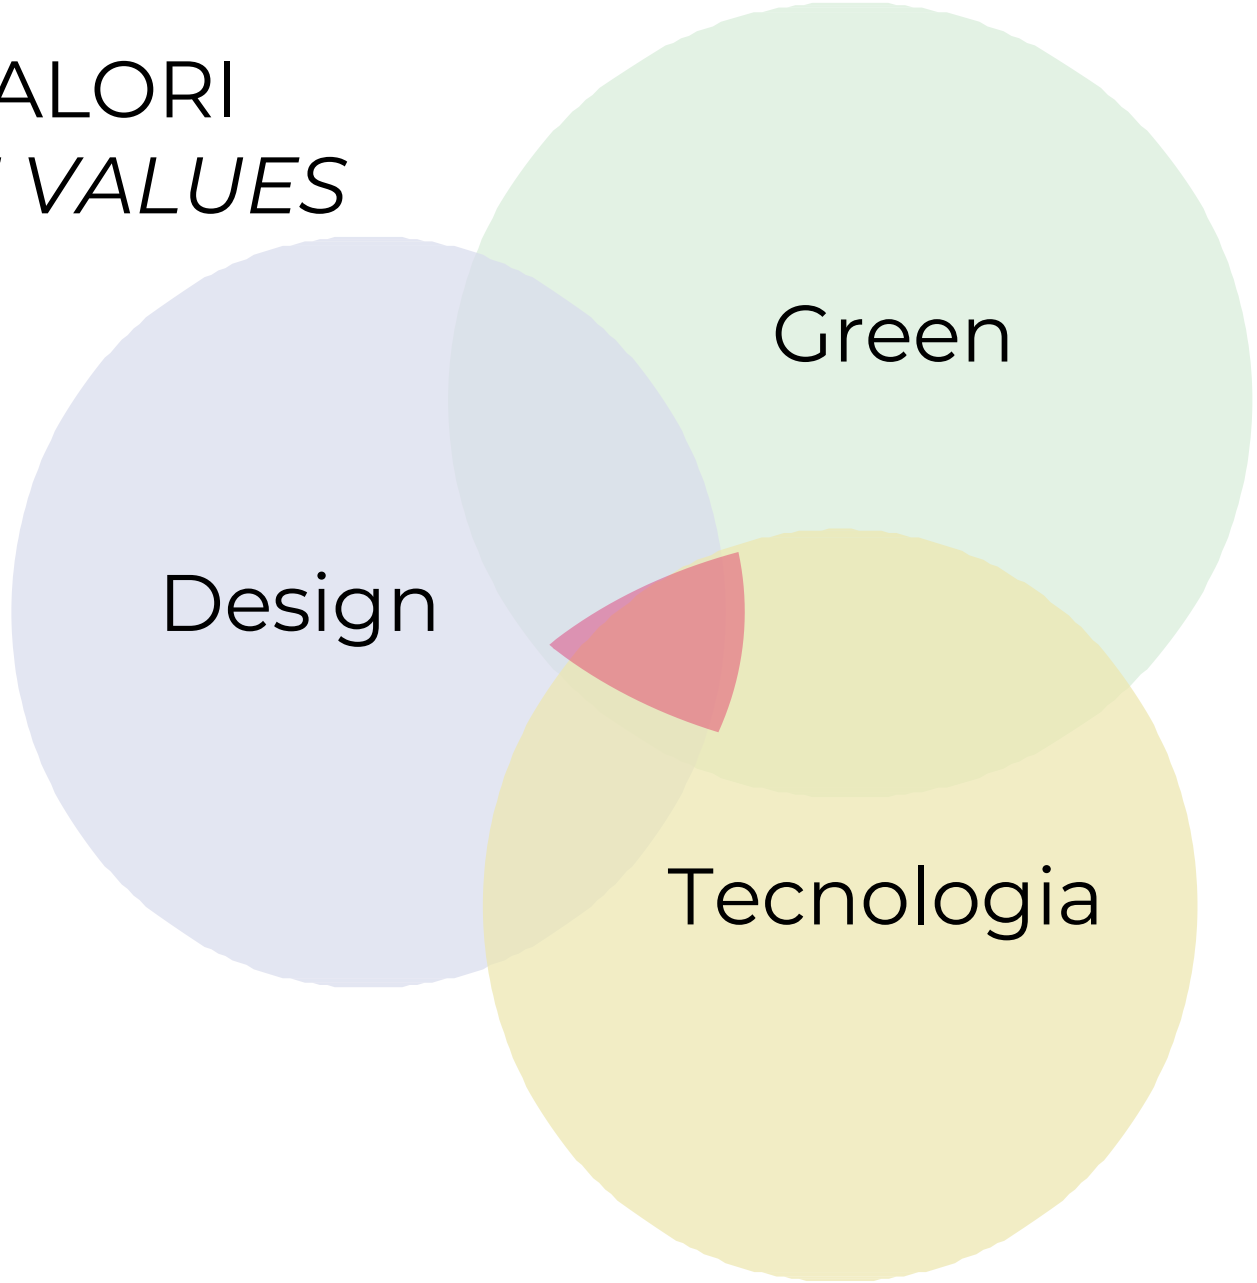

1) Il tempo utilizzato per realizzare i prodotti da cui si generano scarti e che andrebbe perso per sempre se questi scarti non si recuperassero
2) Il tempo che dobbiamo aspettare affinche il prodotti si maturi

THE TIME

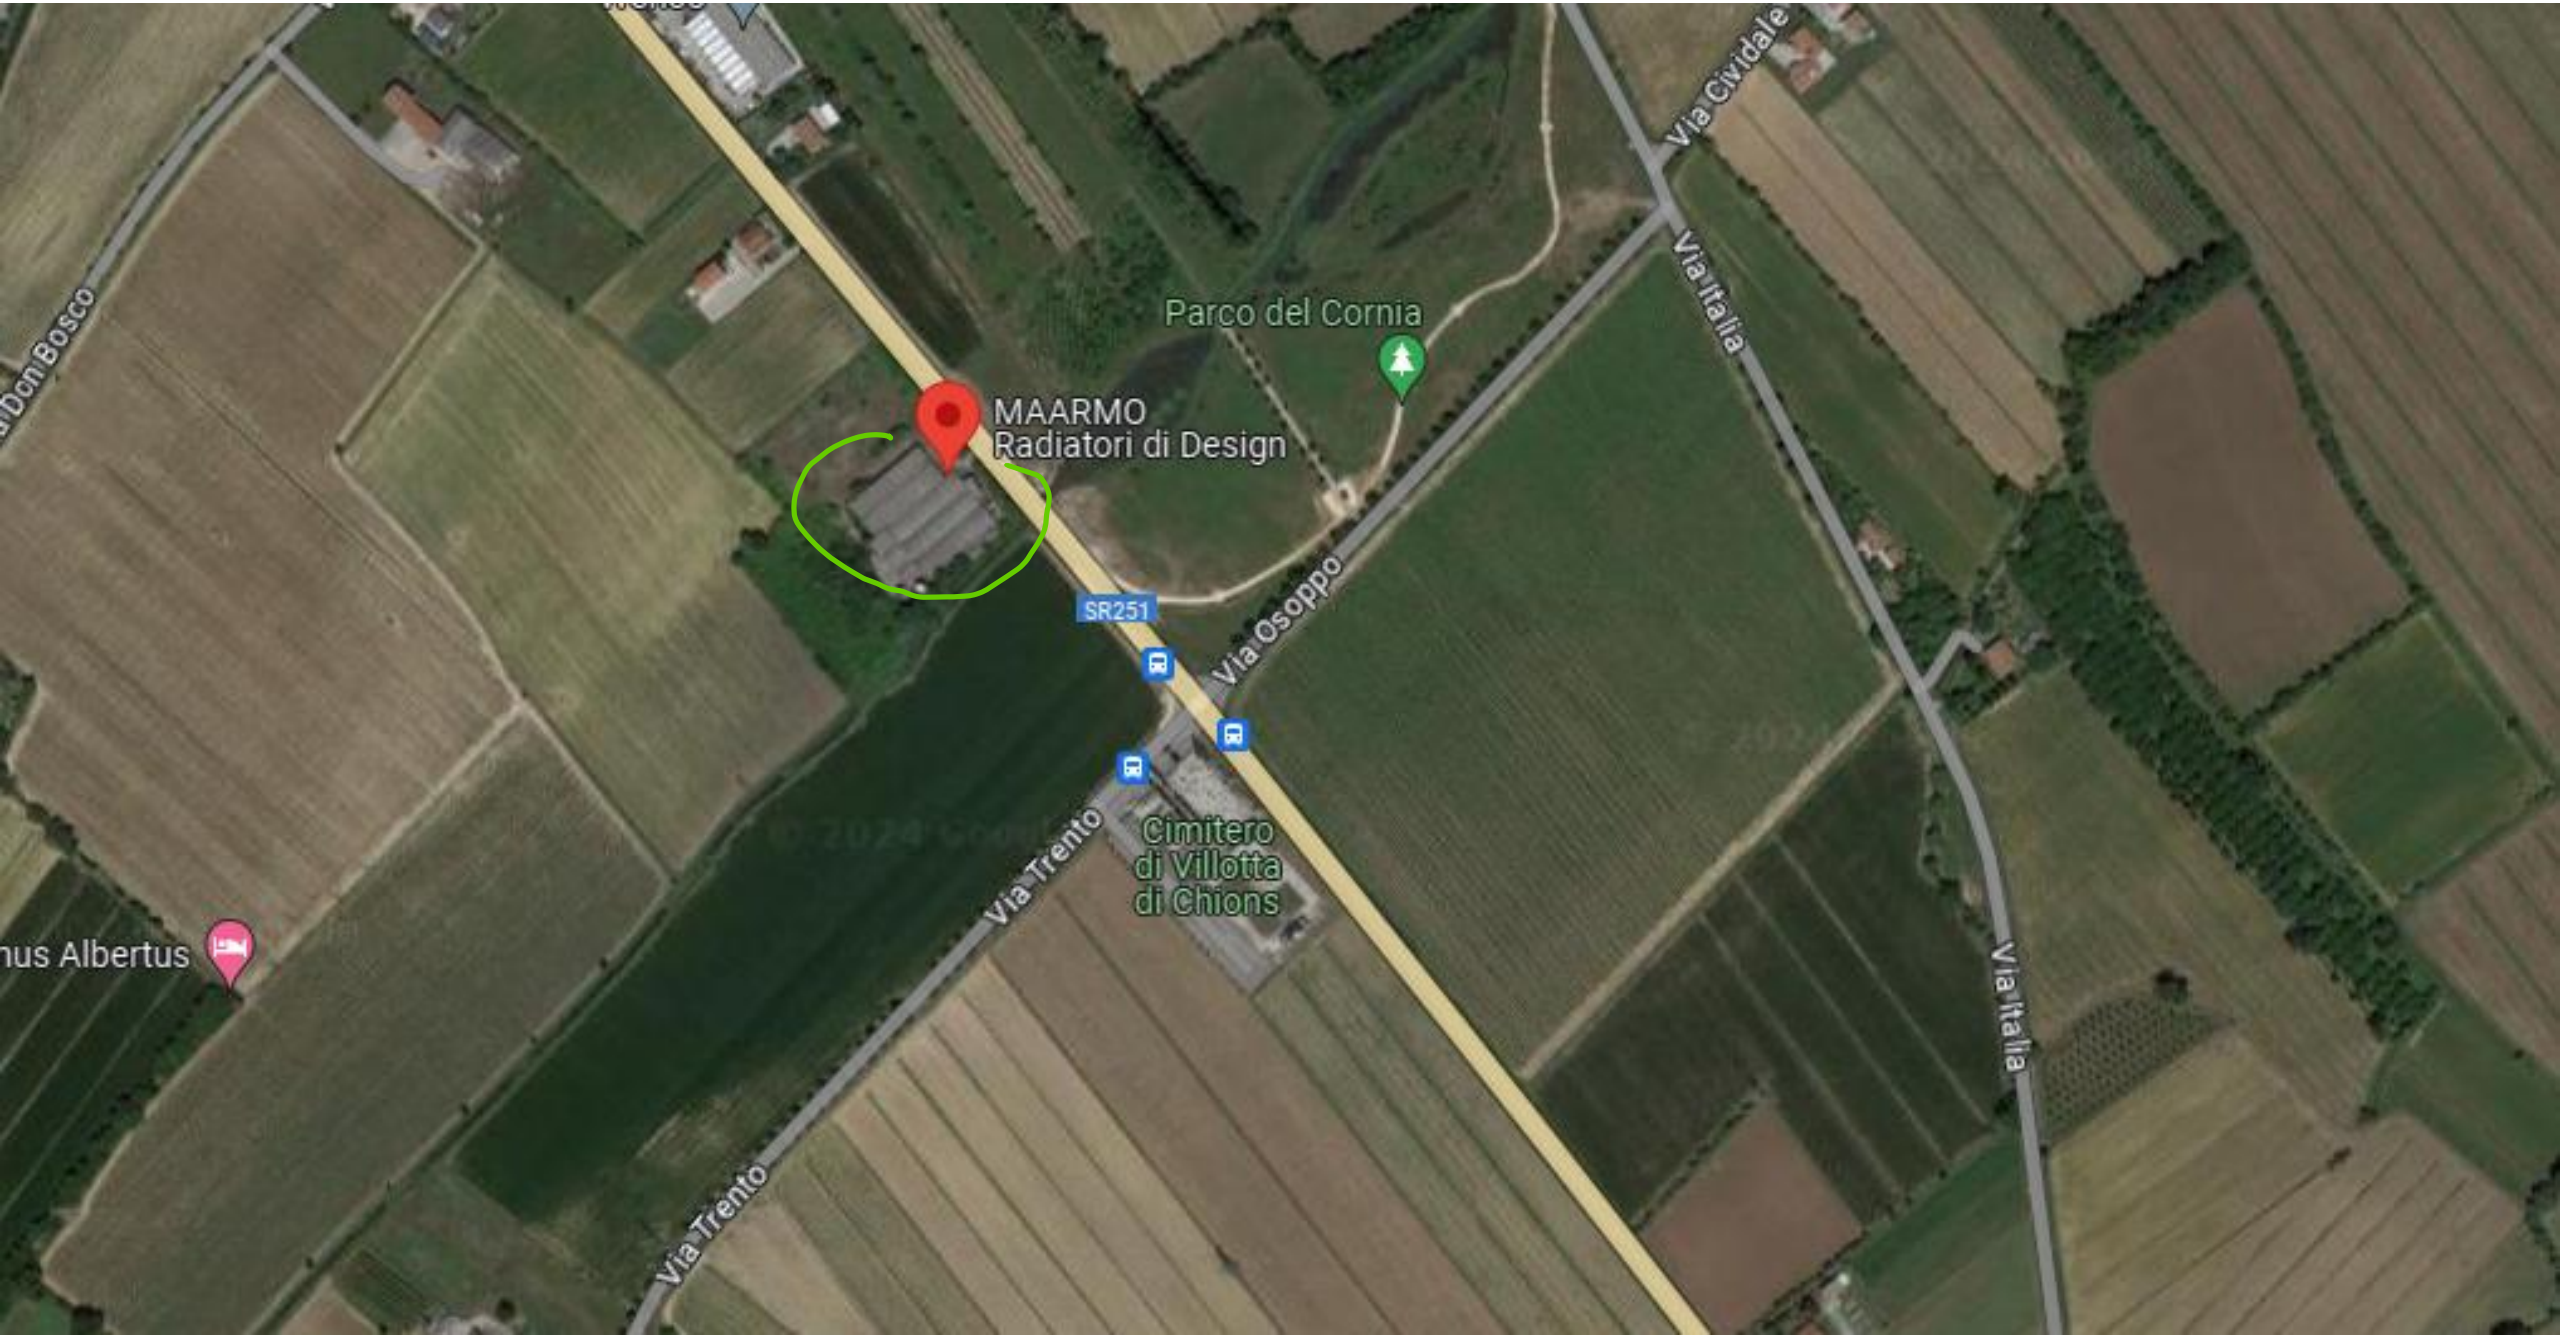

1) The time used to make the products from which waste is generated and which would be lost forever if this waste were not recovered
2) The time we have to wait for the products to age

I NOSTRI VALORI
OUR CORE VALUES

MAARMO
Think recycled

Dove siamo/where we are

- senza fase di cottura
- Senza resine ed elementi chimici
- Dipinto a mano
- Uso vernici a base acqua

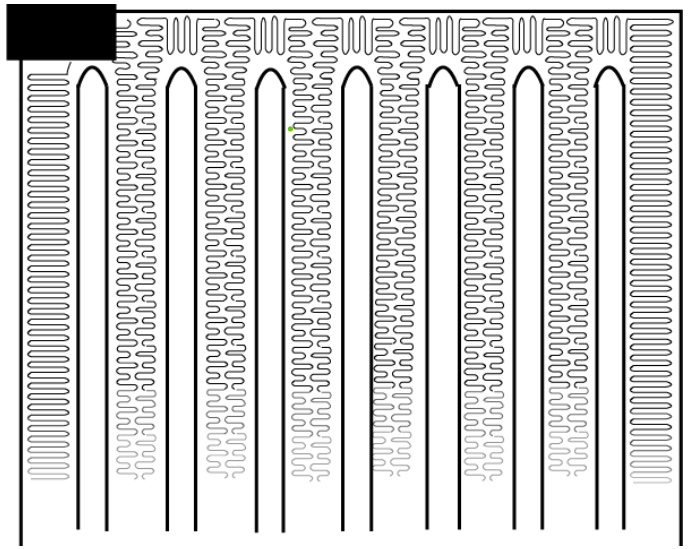

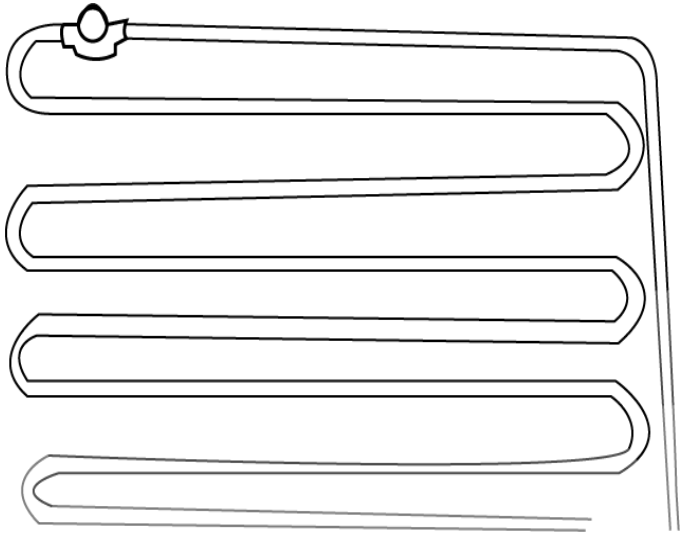

- *Cold process*
- *Without resins and chemical elements*
- *Painted by hand*
- *water-based paints*

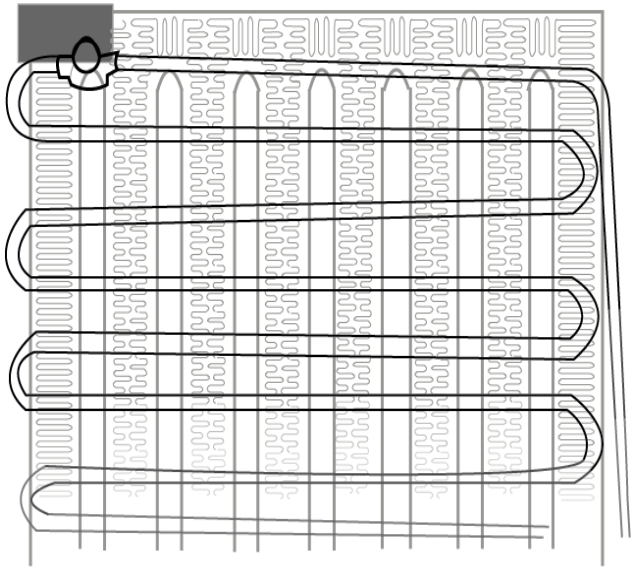

Versione ad acqua, elettrico ed ibrido

Water, electric and hybrid version
