SPRING – SUMMER

COLLECTION *Canapalladio*

The **Canapalladio** Collection by Terrakleos celebrates the lightness of tailoring and the authentic beauty of hemp. Soft volumes, artisanal details and timeless elegance come together in a contemporary vision where natural fibres take centre stage.

The collection presents an essential yet sophisticated wardrobe, where tradition and modernity meet through craftsmanship, comfort and the quiet poetry of everyday living.

A *palette* of luminous, earthy tones — milk white, ecru and tobacco — highlights the natural character of hemp and the richness of its texture. Lightweight pure cotton linings introduce subtle layers of transparency, enhancing the fabric's tactile quality with understated refinement.

Romantic influences blend effortlessly with a contemporary urban spirit. Flowing dresses and generous silhouettes alternate with clean, versatile designs created for everyday wear. Midi and mid-calf skirts feature asymmetric cuts, layered constructions and raw-edge finishes, while the trousers range from refined wide-leg silhouettes to relaxed, easy-to-wear styles, all distinguished by impeccable fit and clean lines.

Cropped shirts and reimagined T-shirts are elevated by thoughtful artisanal details: multicoloured buttons, raglan sleeves crafted from textured fabrics, and delicate tone-on-tone polka-dot and checked weaves. *Each piece is designed to move naturally through the summer season, balancing comfort, functionality and understated sophistication.*
