CASA MARIELLA

A story that originated in the Italian home kitchen, up to today.

Born from the fusion of love and passion for cuisine, Casa Mariella offers a range of both stone baked and frozen pizzas.

Our carefully selected flour mixture and high-quality ingredients, combined with our ovens made entirely of lava stone and carefully controlled conservation temperatures, transform our pizzas into an intensely flavorful experience.

Choosing Casa Mariella means embracing a company policy of refined quality, along with respect for the ingredients and a love for healthy food.

OUR MISSION

At Casa Mariella we prepare and deliver both fresh and frozen pizzas.

Our primary focus is fostering teamwork among our staff to achieve a common goal: your satisfaction.

Our secrets to excellence lie in our carefully chosen ingredients, the attention with which each pizza is hand-stretched and topped, the extended leavening process, and gentle pre-cooking.

After all, Italy is renowned worldwide as a country of exceptional food and rich gastronomic culture.

OUR COMMITMENT TO QUALITY

Quality, innovation and improvement are the main concerns of growth and challenge of our Company. In order to ensure the excellence of our products and services, we take rigorous measures to certify the highest levels of quality, operating in alignment with the most important international standards applicable to European directives.

HACCP

A protocol designed to certify control related to food production, with the aim of ensuring both hygienic safety and the edibility of our products.

ISO 9001

An international standard focused on implementing a Quality Management System to enhance customer satisfaction.

ISO 22000

An international standard focused on establishing the entire food production chain, from ingredients to final products, packaging, and distribution, to ensure the highest quality of food for end consumers.
